Welcome to Western International University

Western International University is a private university with some very unique characteristics. The majority of our students are working adults who thrive on the strength of our educational programs while appreciating the flexibility and convenience of our course schedules and services. Courses are available during the evenings and on weekends, allowing students to continue to work and raise their families while completing their degree programs. Our two-month sessions allow students to accelerate their programs to the extent that they are capable of handling their own workloads. The University has developed excellent relationships with local employers, providing opportunities for their employees to attend WIU courses at a number of corporate and municipal sites across the region.

We strive to have a diverse, multi-cultural student population. Significant portions of our students have come to WIU from more than 40 different countries. Many of these students attend the university to learn English through our English as a Second Language (ESL) program prior to starting their coursework in degree programs. They recognize that, throughout the world, an accredited American degree is a valuable commodity. Services are provided to support these students while they learn English and become acclimated to our environment and culture.

WIU faculty hold advanced degrees in their teaching fields and are also highly successful practitioners in their areas of expertise. While our course schedules may be “non-traditional” in form, our educational model and teaching style can be considered more “traditional”. Faculty share their knowledge through lectures, presentations and class discussions. Students have the opportunity to demonstrate their achievements through individual quizzes, tests, papers, projects, and presentations.

Global and technology issues are key themes throughout the WIU curriculum in all degree programs. Many of our faculty have international business experience. The international flavor of our student body provides ample opportunity to identify with and observe many cultures. What better preparation is there for building a career in a world that is becoming more “connected” through advanced communications and where businesses increasingly cross national and international boundaries?

WIU is part of the Apollo Group, the leading educational corporation in the United States. Apollo’s long term commitment to customer service and total quality management in higher education ensures that our students and faculty will have rewarding and exciting experiences at Western International University.

Michael J. Seiden
President
Effective September 1, 2004 - August 31, 2005

Western International University (WIU) was founded in 1978 as a private, non-profit institution and regionally accredited in 1980. In 1995, WIU was acquired by Apollo Group, Inc. and became a for-profit subsidiary of one of the leading educational corporations in the United States. WIU is headquartered in Arizona, the Grand Canyon State.

WIU’s main campus, in northwest Phoenix, is conveniently located adjacent to the Black Canyon Highway. A second Phoenix metro area campus is situated at Chandler, Arizona. The Southern Arizona campus is located on the Fort Huachuca Army Post in Sierra Vista. Campus classrooms are designed to encourage student and faculty interaction and discussion. Computer facilities for hands-on instruction are readily available to students, as are various audio visual aids. Learning Resource Centers at each University campus provide staff-assisted access to online research resources. In addition to campus programs, Western International University provides on-site coursework at numerous corporate and governmental teaching sites including Salt River Project and Maricopa County. WIU also offers coursework in classrooms at affiliate campuses in Delhi, India and Beijing, China as well as virtual classrooms through Interactive Online.

Further information regarding Western International University is available on the University’s website, www.wintu.edu.

AAB Online Campus

A prevalent modern trend in higher education is utilizing the convenience of the Internet to deliver exceptional educational opportunities. Recognizing this important option for students, WIU has created a new online campus for those seeking the Associate of Arts in Business (AAB) Degree. This new WIU implementation takes advantage of the latest technology and blends our superb teaching approach to enable students to study and complete the AAB degree in less than two years. In this innovative teaching model, students take two classes in parallel for nine weeks, logging in to attend class at times most convenient to their schedule. Faculty will be available with the equivalent of office hours five days a week at times that are most conducive to a student’s time zone. Together, these features maximize student learning and program success. An electronic version of the WIU Online Campuse catalog is located at mycampus.wintu.edu.

Axia College

Western International University has always maintained a tradition of diverse curriculum. This curriculum now includes an academic degree program developed to meet the needs of the recent high school graduate. It is designed to allow the students to be employed full time, as well as to serve those students seeking to learn in a non-traditional environment. Information about this WIU program, Axia College, can be found in a separate catalog. The catalog, as well as expanded information about Axia, can be found on their web site at www.axiacollege.com.

International Campuses

In keeping with its tradition, Western International University is enhancing its ability to provide its programs to a broad, global community of students through international campuses created through operational agreements with established local partners. Students throughout Asia, the Middle East and Europe either now have, or soon will have, access to the same high quality, regionally-accredited WIU academic degree programs that students have enjoyed in the United States since 1978. In keeping with local requirements and cultural adaptations, each international campus has its own version of the WIU catalog. For further information about international campuses, please contact the WIU Department of International Programs at 602-943-2311.

Mission Statement

Western International University provides a broad educational foundation, including a focus on business and technology, designed to prepare students for leadership positions in a dynamic, global marketplace.

Purposes

1. To provide education programs to a student population that includes domestic and international students
2. To provide education in a format and at times and locations conducive to the student population
3. To provide programs that meet educational needs identified by industry, government and other institutions of higher education in communities served by the University
4. To provide domestic and international students with an education that blends practical experience with a strong theoretical framework
5. To provide an international educational environment through implementation of global-oriented curriculum
6. To generate the financial resources to ensure financial viability
7. To provide for the personal professional development of staff and faculty through education, training and the encouragement of professional and community involvement
8. To provide and maintain an emphasis on continuous improvement of programs and services
Western International University is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools

30 N. LaSalle Street, Suite 2400
Chicago, Illinois 60602-2504
312-263-0456

to offer courses and programs leading to Certificates, the Associate degree, Bachelor (arts and sciences and professional curricula) degrees, and Master (professional curricula) degrees.

**Certified Financial Planner**
Certification Education Program

Master of Public Administration (MPA), Bachelor of Arts in Administration of Justice (BA/ADJ) and Certified Financial Planner are available by arrangement with minimum enrollment.

Certified Financial Planner Board of Standards Inc. owns the marks CFP®, CERTIFIED FINANCIAL PLANNER™ and ™.
Western International University (WIU) welcomes applications from all students qualified to achieve the University’s educational goals without regard to gender, race, creed, age, disability, national origin, or religious belief. Since coursework at WIU begins monthly, applications and registrations are accepted on an ongoing basis. Early submission is encouraged to allow sufficient time to process application materials. International students should begin the process well in advance of intended start date. A minimum of three months is recommended.

Students must complete all application requirements before being considered for admitted status. All students applying for admission to the University have the responsibility of submitting a complete and accurate application package including all academic and professional credentials required. Applications to the University are considered current for 12 months from the date of submission. Admission requirements must be met within 12 months of application date. Should this not occur, students will be notified in writing and must reapply to continue the admission process.

Special consideration is given to applicants who are active service members or reservists called to active duty.

Western International University recognizes, for admission and transfer credit purposes, only coursework attempted and credit earned at regionally accredited (or equivalent) colleges and universities.

As a service to students, the WIU Admissions Office accepts the responsibility of obtaining transcripts from previously attended institutions. However, should another institution refuse to release a student’s records, the student will be notified and must assume responsibility for obtaining documentation required for admission.

Degree-Seeking Students

University applicants pursuing Associate, Bachelor, or Master degrees at WIU are considered degree-seeking students. Students applying for financial aid must be accepted for enrollment as degree or certificate seeking students prior to financial aid being processed. Students having completed a WIU application and granted provisional status are considered eligible for enrollment. International students on WIU-issued student visas must be admitted as degree-seeking. The four types of admission to degree programs - Registered, Conditional, Provisional, and Admitted - are explained on page 7.

Associate Degree Admission

Eligibility

All applicants must meet the following requirements to be considered for admission to the University:

• High school graduation or equivalent from an institution that is regionally accredited and/or state licensed.

NOTE: In certain circumstances, a transfer Associate degree from a regionally accredited institution may be accepted in lieu of a high school diploma.

• United States (U.S.) citizenship or appropriate legal status allowing University enrollment.

Standards

All students who have presented qualifications meeting the above eligibility requirements will be granted provisional admission to the Associate of Arts in Business degree program. Upon successful completion (2.0 or better gpa) of three courses, students will be granted admitted status. Those students who have completed 12 or more college-level semester credits with a cumulative gpa of 2.0 or those students who have less than 12 college-level semester credits, but have achieved a high school gpa of 2.5, are eligible for admitted status upon receipt and review of all academic credentials and prior to completion of three WIU courses.

Students from countries where English is not the official language must demonstrate English language proficiency (See page 10).

Procedures

Candidates for Admission must:

• Submit a completed and signed WIU Application for Admission listing secondary and all postsecondary institutions attended. Applicants under the age of 18 must have the signature of a parent or legal guardian.

• Pay non-refundable application fee.

• Sign request form(s) for official transcripts from all previously attended colleges, universities, and national testing agencies. Students relying on foreign transcripts for admission must provide official academic records from all institutions attended outside the U.S. Students whose records are on administrative hold at another institution must resolve the issues and provide the required documents to WIU.

NOTE: Applicants with fewer than 12 graded semester credits of college level work from a regionally accredited postsecondary institution must sign a request for high school transcripts or GED documentation.

Bachelor Degree Admission

Eligibility

All applicants must meet the following requirements to be considered for admission to the University:

• High school graduation or equivalent from an institution
that is regionally accredited and/or state licensed.
NOTE: In certain circumstances, a transfer Associate
degree from a regionally accredited institution may be
accepted in lieu of a high school diploma.

• United States (U.S.) citizenship or appropriate legal status
allowing University enrollment.

Standards
To be considered for admission to WIU, the following
standards must be met:

• Applicants entering with 12 or more graded semester
academic credits of college level work from regionally
accredited post-secondary institutions must possess a
cumulative grade point average (GPA) of 2.0 on a 4.0 scale
for all coursework completed.

• Applicants entering with fewer than 12 graded semester
academic credits of college level work from regionally
accredited post-secondary institutions must possess an
overall GPA of 2.5 on a 4.0 scale for all high school
coursework, have passed the GED or completed the
International Baccalaureate (IB).

• Students from countries where English is not the official
language must demonstrate English language proficiency.
(See page 10).

Procedures
Candidates for Admission must:

• Submit a completed and signed WIU Application for
Admission listing secondary and all post-secondary
institutions attended. Applicants under the age of 18 must
have the signature of a parent or legal guardian.

• Pay non-refundable application fee.

• Sign request form(s) for official transcripts from all
previously attended regionally accredited colleges,
universities, and national testing agencies. Students relying
on foreign transcripts for admission must provide official
academic records from all institutions attended outside the
U.S. Students whose records are on administrative hold
at another institution must resolve the issues and provide
the required documents to WIU.

NOTE: Applicants with fewer than 12 graded semester
credits of college level work from a regionally accredited
postsecondary institution must sign a request for high
school transcripts or GED documentation.

Master Program Admission

Eligibility
All applicants must meet the following requirements to be
considered for admission to the University:

• Conferral of a four-year baccalaureate degree or equivalent
from a regionally accredited college or university. Should
the student hold more than one baccalaureate or higher
level degree, the most recent credential earned will be
considered for admission.

NOTE: Students holding a first degree (minimum three
years in length) may be considered for the WIU
Foundational Bridge. (See page 7).

• United States citizenship or appropriate legal status
allowing University enrollment.

Standards
To be considered for admission to WIU the following
standards must be met:

• Applicants must have achieved a cumulative grade point
average (GPA) of 2.75 on a 4.0 scale for all undergraduate
coursework completed.

• Applicants utilizing a previous graduate degree for
admission must have achieved a minimum overall GPA of
3.0 on a 4.0 scale.

• Students from countries where English is not the official
language must demonstrate English language proficiency.
(See page 10).

Procedures
Candidates for Admission must:

• Submit a completed and signed WIU Application for
Admission listing secondary and postsecondary institutions
attended.

• Pay non-refundable application fee.

• Sign request form(s) for official transcripts verifying
Bachelor or Master degrees from a regionally accredited
college or university. Students relying on foreign education
for admission must provide official academic records from
all institutions attended outside the U.S.
Admission

Foundational Bridge To Graduate Studies
The WIU Bridge Program is designed to assist those students who wish to enter a Master-level program at the University and do not hold the equivalent of a four-year U.S. Bachelor degree. Qualified for this program are those students who possess first cycle degrees involving three years of study beyond their secondary (12th year) education. The Bridge is comprised of 33 upper level credits selected to prepare students for success in graduate management or technology studies. Students bridging into Master programs are considered graduate students. Completion of the Bridge Program does not constitute completion of a WIU Bachelor degree. Therefore, no diploma is issued. All other admission and academic requirements apply to students participating in the WIU Bridge Program. Upper level coursework completed beyond the first cycle degree may be considered to fulfill bridge requirements in accordance to standard transfer credit policies. The University reserves the right to deny admission to this program based on the comparability of students’ secondary and postsecondary studies to those in the U.S. system.

Registered Status
At WIU-affiliated sites in countries outside of the United States, Registered Status is granted to applicants who have presented qualifications meeting the University’s published admission criteria. Degree-seeking students may attend a maximum of four courses under this status by completing an application and paying the application fee. Under extenuating circumstances, students may request permission from the Admissions Manager to enroll in additional courses prior to the admission decision being made. The University makes no guarantee of a favorable admission decision to students enrolled in coursework under Registered Status.

Provisional Status
Provisional Status is granted to applicants who have presented qualifications meeting Western International University’s published admission criteria. Under this status, degree-seeking students are eligible to immediately enroll in and attend a maximum of three courses after submission of Application for Admission and payment of the application fee. All students attending courses under Provisional Status must achieve the University’s required academic standards by the end of the third course to be granted Admitted Status. Undergraduate students must achieve a cumulative grade point average of 2.0 or above. Graduate students must achieve a cumulative grade point average of 3.0 or above. Students are granted Admitted Status upon receipt and review of academic documentation and successful completion of courses under Provisional Status.

• Students whose previous academic credentials confirm compliance with the University’s admission standards will be immediately assigned Admitted Status upon review of complete documentation.

• Students whose previous credentials do not meet University standards will be assigned Admitted Status upon successful completion of three courses under Provisional Status.

Students whose credentials do not meet Western International University’s requirements and who do not achieve University academic standards by completion of their third course will be denied further enrollment and academically disqualified from the University.

Conditional Status
Applicants who meet all other admission criteria, but provide unofficial academic records from institutions outside the U.S., may be eligible for Conditional Admission Status. Under this status, students may attend a maximum of three (3) degree courses during a six (6) month period. Prior to the end of this time frame, students must obtain and submit official academic documents. Upon acceptance of the documentation by the WIU Admissions Office, students will be fully admitted to the University. Students attending under this status must meet and maintain acceptable academic standards. Failure to produce official documentation by the end of the Conditional Admission period will result in dismissal.

The Admissions Office processes all applications, evaluates transcripts, and makes decisions regarding acceptance and application of allowable transfer credits to the program of study. Applicants whose academic records present special situations are referred to the Admissions Committee for review. Submitting incomplete, false, or misleading information is considered grounds for denial and dismissal at any time. The University reserves the right to cancel admission or registration of an individual whose attendance at the University, in the opinion of the appropriate administrative officials, would not be mutually beneficial to the student and the institution. Students are granted Admitted Status after all documents have been received, the admission file has been evaluated, and all admission requirements have been met.

Denial of Admission
Applicants will be denied admission to the University if, after all documentation has been provided, it is determined that the University’s published admission requirements have not been met. Provisionally admitted students who do not meet the required GPA at the end of their third graded course will be
denied Admitted Status and academically disqualified. Conditionally admitted students who fail to meet final admission requirements will be denied admission. Students submitting false, incomplete or misleading information may be denied admission and academically dismissed. Denied students are not eligible to register for further coursework. Students enrolled in a course(s) at the time of the denial decision have the option of completing the course(s) or immediately withdrawing without penalty. All future course registrations will be cancelled.

Non-Degree Seeking Students
Students are not required to enter a degree program if enrolling in classes for personal or professional reasons only or if pursuing Professional Studies.

General Non-Degree Seeking Status
Students under a general Non-degree Seeking Status may take a maximum of nine credits hours at WIU. Non-degree seeking students are not eligible to receive most types of financial aid or veterans benefits. This classification is not available for international students on WIU-issued student visas. Although documentation of previous coursework is not usually required for admission under this status, the University reserves the right to make such a request. It is the student’s responsibility to ensure eligibility, including English proficiency, for the courses in which enrolled.

Professional Studies
Students pursuing Professional Studies are admitted under Non-degree Seeking Status and may complete the maximum number of credits required for the selected certificate. These credits must be in coursework required to complete the certificate for which the student has applied. Professional Studies students must provide documentation of eligibility for the certificate.

Students wishing to continue at WIU beyond Non-degree Seeking Status must apply to transfer to Degree-Seeking Status by completing a new WIU Application for Admission that indicates the desired degree and major. Requirements of degree-seeking students must then be met. Provisional Status is not available for students moving from Non-degree Seeking to Degree-Seeking Status. Specific situations may warrant exceptions to the maximum number of credits allowable under Non-degree Seeking Status. The Admissions Committee makes this determination.

Notification of Admission Status
Students are notified of admission decisions by mail within four weeks of receipt of all application materials including official transcripts.

If the decision is favorable, students must meet with their Academic Counselor to review transfer credits, remaining degree requirements and to develop a course of study. If the decision is not favorable, students may complete course(s) in progress or withdraw at time of notification with no penalty. No further registrations will be accepted.

Admission Appeals
An applicant whose admission to the University is denied may file a written appeal of the decision. The appeal should be directed to the attention of the Admissions Committee. Students are not allowed to register for courses during the appeal process. The applicant must provide an explanation of extenuating circumstances or other pertinent information that is, in the student’s opinion, relevant to the decision. Upon receipt of the written appeal and supporting information, the Admissions Committee will review the appeal and render a decision. Applicants will be notified by mail of the committee’s decision, which may include specific requirements and/or recommendations.

Should the denial be upheld, further appeals will not be considered for 12 months from the date of the denial. At that time, the student may petition for admission by submitting a letter describing the reasons for previous academic deficiencies and a statement explaining how these issues have been resolved. Re-admission applications should be submitted to the attention of the Admissions Committee.

Re-admission
Students who interrupt their enrollment for more than 12 consecutive months must apply for re-admission by completing a new WIU Application for Admission and paying the non-refundable reapplication fee. Official transcripts from all colleges or universities attended since the last enrollment at WIU will be required. (Refer to Re-Entry to the University section of this catalog for further information).

New Student Orientation
Every degree-seeking and Professional Studies student is given a New Student Orientation packet upon application to the University. These materials are designed to provide incoming students with guidance and tools necessary for their academic success. Information regarding University services, policies and procedures, student responsibilities, and faculty expectations are included.

Students are asked to confirm that the information in the packet has been reviewed with them by their Enrollment Advisors. All students are encouraged to thoroughly read this information prior to beginning classes at the University. It is anticipated that during the 2004-05 academic year, an expanded orientation will be available online, and completion will be required of all incoming students.
Western International University (WIU) welcomes students from around the world. International students are defined as those who are neither citizens nor permanent residents of the United States (U.S.). WIU is authorized to accept and enroll qualified, degree-seeking non-immigrant students (F-1 status) by the United States Bureau of Citizenship and Immigration Services (BCIS).

Sessions begin monthly at WIU. Therefore, applications are accepted on a continuous basis. International applicants should begin the admission process well in advance of the desired enrollment date. A minimum of three months is recommended.

Eligibility
International Candidates for Admission to WIU are expected to meet the same requirements for admission as applicants from the U.S. These include:

- Appropriate visa status allowing University enrollment.
- All Bachelor degree applicants must have completed the equivalent of a U.S. high school degree (12th grade-secondary school).
- All Master degree applicants must have the equivalent of a U.S. Bachelor degree (16th year) from a regionally accredited institution. Students holding a first degree (minimum 3 years in length) may be considered for the WIU Foundational Bridge. (See page 7).

Standards
To be considered for unrestricted admission to WIU, the following standards must be met:

- All applicants from countries where English is not the official language must demonstrate English language proficiency.
- All Bachelor degree applicants entering with the equivalent of 12 or more graded semester academic credits of college level coursework must possess a cumulative grade point average (GPA) of 2.0 on a 4.0 scale (C level) for all work completed.
- All Bachelor degree applicants entering with the equivalent of fewer than 12 graded semester academic credits of college level coursework must possess a cumulative GPA of 2.5 on a 4.0 scale (C+ level) for all high school (secondary) work completed.
- All Master degree applicants must have achieved the equivalent of a cumulative grade point average (GPA) of 2.75 on a 4.0 scale for all undergraduate coursework completed.

Procedures
Candidates for Admission who reside in countries other than the U.S. must:

- Submit a signed WIU International Student Application for Admission form.
  All parts of the form must be filled accurately and completely. Applicants under the age of 18 must have the signature of a parent or legal guardian. Applicant name should appear as indicated on passport.
- Pay non-refundable application fee in U.S. funds, which must be submitted with the WIU International Student Application for Admission form.
- Provide official academic records from all secondary and postsecondary schools attended outside the U.S.
  An official academic record/document is an original or true copy, which includes seal, stamp, and signature of the institution. Copies must be certified by an official of the institution attended, U.S. Consular official, or U.S. Information Agency (USIA) office. All documents must be in English or accompanied by a certified English translation. Graduation date, degree earned (if applicable), courses, grades, and years of attendance should be clearly indicated. Students desiring transfer credit must furnish catalogs and/or course descriptions. The University reserves the right to request official documents to be sent directly from the issuing institution or request students provide a professional evaluation from a WIU approved agency.
- Submit documentation of English language proficiency or apply to the Western International University English as a Second Language (ESL) program.
  Students from countries where English is the official language are not required to provide proof of English proficiency. All other international applicants must provide English proficiency documentation.

F-1 Students only

- Submit completed and signed Financial Guarantee Statement with Bank Certification.
  Evidence of current financial support, verifying sufficient funds and living expenses are available for a minimum of one year of study, is required by U.S. Immigration policy. This form, which is located on the International Student Application, must have been completed in full within the past three months and contain all necessary signatures and the seal or stamp of the financial institution. Funds must be in U.S. currency.

The Admissions Office reviews and evaluates applications after all required documents have been received. Candidates are notified by mail within four weeks of the receipt of all materials.
F-1 Student Procedures
1. Upon receipt of the letter of admission, all students residing outside the U.S. must remit a tuition deposit for medical insurance and first month of ESL or first two degree courses. This deposit is refundable upon proof of visa denial.

2. Upon receipt of students’ course deposit indicating their intention to attend WIU, the I-20 Form will be sent. Students residing in the U.S. are expected to sign the I-20 at the campus.

3. Students residing outside the U.S. are required to present Form I-20 and evidence of financial support to the American Consulate to obtain student visa status.

4. Upon arrival at WIU, students must contact the International Program Liaison (IPL) and present I-20 form and passport as well as attend the International Student Orientation.

Prior to enrolling in degree courses, all students will receive and review the WIU orientation binder.

International Transfer Students
International students transferring from a college or university within the United States must submit the following additional documents:

- Copy of current F-1 student visa.
- Copy of the front and back of I-20 issued by the previously attended school.
- Copy of the Form I-94 from the passport.
- Completed Postsecondary Reference Form for Non-Immigrant Applicants. This form is available from the WIU International Programs Office (IPO).

Applicants on immigration status other than F-1 should contact the WIU International Programs Office.

English Language Proficiency
To be considered for admission into WIU degree programs, applicants from countries where English is not the official language are required to demonstrate English proficiency or complete WIU’s ESL program. Documents verifying proficiency must be sent directly to the University by the issuing institution. Proficiency may be demonstrated by:

- Graduation from an English-speaking high school
  Completion of at least two (2) years of coursework at a regionally accredited secondary school with a cumulative GPA of 2.0 on a 4.0 scale (C level).

- College or university attendance at a certified English-speaking institution
  Completion of at least 24 semester credits at a regionally accredited or state-approved English-speaking college or university with a cumulative GPA of 2.0 on a 4.0 scale including completion (with a grade of C or better) of two semesters of English Composition equivalent to ENG 101 and ENG 102.

- Completion of a baccalaureate program (or higher) in which English is the medium of instruction or for which graduation is granted after successfully demonstrating English proficiency.
  The Admission Department maintains a listing of educational systems that meet the English proficiency requirement.

- Completion of Combined English Language Skills Assessment (CELSA)
  WIU will accept CELSA scores from tests taken within two years of application with a score of 65+ (Bachelor programs) and 70+ (Master programs). This examination is administered on-site at the University.

- Completion of Test of English as a Foreign Language (TOEFL)
  WIU will accept TOEFL scores from tests taken within two years of application. A minimum score of 500 (paper-based) or 173 (computer based) is required for admission to Bachelor degree programs. A minimum score of 550 (paper-based) or 213 (computer-based) is required for admission to Master degree programs. The Test of Written English (TWE) with a passing score of five (5) should be included. If the TWE is not included or the student has a low TWE score, an ESL test of writing must be taken upon arrival at WIU. Students who do not pass the ESL test of writing are required to successfully complete ENG 070 Business Writing. TOEFL results must be sent to the University directly from the reporting agency. To have results sent or to obtain information regarding testing locations and dates of testing in any country, applicants may write:

  TOEFL
  Box 6154
  Princeton, New Jersey
  USA 08541-6154

  or
  Contact TOEFL at their website:
  http://www.toefl.org

- Completion of International English Language Testing System (IELTS)
  WIU will accept scores from tests taken within two years of application. A minimum band score of 6.0 (Bachelor programs) and 6.5 (Master programs) is required for

http://www.wintu.edu 10
admission to the University. For further information, students may contact IELTS at their website, http://www.ielts.org

Students not achieving the minimum score on their chosen ESL examinations are not eligible to submit new scores or retake the test for one year or until such time as the student can demonstrate additional efforts have been made to improve English language proficiency (e.g. documentation of English language tutorial courses, etc.). Students unable to demonstrate proficiency must successfully complete the WIU English as a Second Language (ESL) program prior to entering an academic degree program. WIU reserves the right to require an internal assessment or recognized examination to confirm English proficiency at any time during a student’s attendance at the University.

WIU English as a Second Language Program (ESL)
The ESL program is an intensive program designed for nonnative students to develop or improve their English skills in the areas of listening, speaking, reading, and writing. Emphasis at the top two levels of the program is placed on academic skill building and on acquiring a basic knowledge of business concepts and vocabulary.

- Students entering the ESL Program should have at least a high beginning level of English proficiency. Students who are at a beginning level of English should complete English courses at a language school before applying to the ESL Program at WIU.
- Each ESL course is two months long. Normally students take a minimum of two and a maximum of eight months of ESL instruction.
- WIU English Proficiency Assessment testing is administered before the beginning of each two-month session to determine the appropriate class placement.

Students enrolled in the advanced ESL class (ESL 110) or ENG 070 may also enroll in one regular university-level class. Upon successful completion of either class, students who are admitted to a WIU degree program are eligible to begin full enrollment in their academic course of study. Enrollment in the ESL program is available to all international students, U.S. citizens and non-citizens. International students who require the issuance of a Form I-20 to apply for a student visa must apply for and be admitted to a degree program or the ESL program before an I-20 is issued. ESL tuition may be refunded according to the following guidelines:

- Students who withdraw during the first four days of the course receive a 100% refund.
- No tuition refunds are issued for withdrawal after the fourth day of class.

International Student Responsibilities
While attending WIU, each international student is responsible for understanding and complying with requirements associated with the student visa and WIU policies. These include:

- Maintaining full-time attendance according to institutional policy. For Department of Bureau of Citizenship and Immigration Services (BCIS) compliance purposes, completion of a minimum of 24 credit hours in a 12-month period is required for undergraduate students and a minimum of 18 credit hours in a 12-month period is required for graduate students.
- Notifying University personnel of any changes in address, telephone number, and/or student status, program or transfer.
- Completing at least 2 courses at WIU before requesting release of I-20 status to another institution.
- Notifying the International Program Liaison (IPL) of any extended leave of absence. The IPL must endorse student’s I-20 prior to any travel outside the U.S.
- Maintaining major medical insurance while attending WIU.

International Student Insurance Requirements
Due to the high cost of medical care in the U.S., major medical insurance coverage is mandatory for all students attending the University from other countries. Coverage must be obtained immediately upon arrival at the University. At minimum, a six-month policy must be obtained from the WIU preferred provider. The International Program Liaison (IPL) will assist students in obtaining this insurance upon arrival. Coverage must be maintained throughout course of study at WIU. Coverage must include:

- Minimum dollar coverage of $250,000
- Outpatient Care Coverage (Doctor Visits, Outpatient Surgery)
- Hospitalization
- Medical evacuation and/or repatriation benefit

This requirement must be maintained and is monitored by the IPL throughout students’ attendance at WIU.
Western International University (WIU) provides academic guidance to all students throughout their academic careers at the University. Enrollment Advisors assist students entering the University with the selection of their first three courses. Upon admission, students are assigned an Academic Counselor who will work with them throughout the balance of their degree programs.

Students are expected to schedule a counseling session with their Academic Counselor upon receipt of their letter of admission to the University. This will usually occur prior to the end of students’ third courses. During this meeting, admission transfer credit implications and credit alternatives, such as Assessment of Prior Learning and national testing programs, will be explained. A plan of study, designed to support the students’ successful completion of their academic goals, will also be developed. This schedule will incorporate prerequisite requirements and the appropriate sequencing of courses.

Students are further expected to work with their Academic Counselor regarding any issues that may affect their academic performance, to develop all course schedules and to utilize the Counselor’s expertise. Registration for Independent Studies and the Applied Thesis courses are managed by Academic Counselors.

Students are responsible for following University policies, knowing their degree requirements, adhering to their plan of study and contacting their Academic Counselor to make adjustments to or extend their schedule.

At a minimum, all students must meet with their Academic Counselor upon admission and prior to graduation.

---

**Student Associations**

**Delta Mu Delta**
Western International University hosts a chapter of Delta Mu Delta, a national honor society in Business Administration. Potential members must have distinguished themselves scholastically and demonstrate good character and leadership potential. Undergraduate members must have completed 60 credits and have a minimum cumulative GPA of 3.5. Graduate members must have completed 18 credits with a minimum GPA of 3.75. Candidates satisfying these requirements are invited to join the society.

**International Student Association (ISA)**
The International Student Association works closely with the staff and faculty in coordinating student activities and providing opportunities for students’ personal and professional advancement. ISA’s primary responsibility is to act as a liaison between the student body, the administration and faculty. All international students are strongly encouraged to participate in the special activities sponsored by ISA. Such experiences significantly enhance college life.

**Spanish Club**
Each meeting of the Spanish Club provides the opportunity to practice communicating in the Spanish language and also exposes students to geographic, ethnic, and socio-cultural aspects of a particular area of the Spanish-speaking world. This club is open to all WIU students, and students who take Spanish classes at WIU are especially encouraged to join. Meetings may include visits to local restaurants and/or cultural events.

**Upsilon Pi Epsilon**
Upsilon Pi Epsilon (UPE) is an international honor society for students and alumni in the computing and information disciplines. UPE’s mission is to recognize academic excellence at the undergraduate and graduate levels. For consideration of membership, Bachelor degree candidates must have completed 60 credits with a minimum cumulative GPA of 3.4. Master degree candidates must have completed 20 credits with a minimum cumulative GPA of 3.6. UPE is the only international honor society for computing and information disciplines and is endorsed by the Association of Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS).
Learning Resource Center (LRC)
Students have access to Western International University’s Learning Resource Center to accommodate their research requirements and quiet educational studying needs. The LRC provides electronic access via the Internet to databases throughout the world. Special access rights have been obtained from many database sources to ensure that WIU students have the most up-to-date information available to support their course requirements. A list of the specific databases is available on the WIU website, www.wintu.edu. Instruction in the use of LRC resources is available at each campus LRC. In addition, the Main Campus LRC has hard copy periodicals, reference books, and other resources to accommodate students’ educational learning processes.

A variety of services is available through the LRC. Students needing assistance with writing structure and style may schedule appointments for individualized tutoring with papers, case studies, thesis, and employment resumes. Students may also contact and utilize the Writing Center services via e-mail at wiulrc@apollogrp.edu.

The LRC offers computer facilities that provide resources for instructional and research purposes at all WIU campuses. The computer labs provide access for students and faculty to support educational activities through multiple software programs and Internet access. Guidelines for use of University computers can be found on page 25.

International Program Office
Western International University recognizes the level of trust placed in the University by students who leave their home countries to study at WIU. These students receive additional support from the International Program Office (IPO). Assistance is available to students upon their arrival in the United States. Locating housing, opening bank accounts, acquiring a driver’s license and social security card as well as performing the functions necessary to begin life in a different country are addressed by the IPO. Throughout the student’s stay at WIU, the staff of the IPO will consult with and advise the student to maintain compliance with BCIS regulations and assist in making this educational experience a positive one.
Course Registration
At WIU, classes begin the first week of every month and meet nine times over the course of two months. Students are encouraged to register for classes at least two weeks prior to the start of the session. Registration may be initiated in person, by telephone, e-mail or regular mail to the Registrar's Office. Academic Counselors also schedule courses for students, and it is anticipated that online registration through MyWIU will be available in the spring of 2005.

Failure to register prior to the published deadline will result in a late registration fee. Students who attend courses without registering will be administratively registered after the third class meeting and appropriate tuition and fees assessed. These will include late registration and payment fees in addition to course tuition. Complete registration includes fulfilling all financial obligations for the course. No student will be guaranteed enrollment in a course until registration has been completed.

Students must register prior to the 20th of the preceding month for classes located at sites requiring security clearances. WIU Interactive Online courses require students to register a minimum of two days prior to the first class meeting.

Student Contact Information
It is the responsibility of each student to maintain current personal and contact information on file with the University. A Change of Information form may be completed with Academic or Financial Counselors or the Registrar's Office. All official University documentation will be issued in the student's name as indicated on the WIU Application for Admission. Any request for change of name must be accompanied by legal documentation and submitted to the Registrar's Office.

Drop/Add Policy
The Registrar's Office must be notified of the student's intent to drop a course or the student may be subject to full tuition costs. For students utilizing Financial Aid, schedule changes affect Financial Aid eligibility. These students should contact their FA Counselor if dropping or adding any coursework. Courses dropped after the third class meeting will be recorded on the student’s permanent record with a grade of W. Non-attendance does not constitute an official withdrawal. No withdrawals are allowed for courses taken as Independent Study.

Schedule Adjustments
The University reserves the right to cancel any course. Students enrolled in a course that has been cancelled will be contacted in a timely manner. Academic Advisors will assist students in making another course selection. Based upon University faculty and classroom availability, additional sections will be added to courses with registrations exceeding classroom capacity. The University reserves the right to transfer students to newer sections, based on date of registration.

Class Attendance
Since WIU offers non-traditional course schedules, governmental compliance requires tracking of student attendance. Three-credit courses require nine four-hour meetings, and student adherence with the WIU attendance policy is mandatory. Special instructional activities may be scheduled on weekends or at other times convenient to both students and faculty members. Class attendance requirements are as follows:

1. Students must attend the first and/or second class meeting.
2. Students may not miss more than three meetings in a nine meeting course. Students with more than three absences will be administratively withdrawn and receive a grade of W.

Absences from a course may impact a student’s grade, and it is important for students to understand the distinction between attendance and participation. Attendance guidelines outlined in this section present the minimum administrative requirement for a student to be eligible to receive an earned grade in a course. Instructors may refuse to confirm attendance for a student who remains for only a portion of a class meeting. WIU Interactive Online students are responsible for documenting attendance in conformance with directions outlined in each course syllabus. Students are encouraged to retain copies of all sent items related to attendance compliance until the course is complete and grades are issued.

Weekend intensive course attendance requirements are enforced in four-hour increments (i.e. Friday evening session is the first class meeting, Saturday morning is the second class meeting, etc.) Any exceptions to attendance policies require faculty recommendation and Registrar approval.

Independent Study Attendance
Courses completed through independent study require weekly contact with the assigned faculty member. This attendance contact must be direct communication by the following: phone, fax, meeting, electronic/online. It is the student’s responsibility to initiate weekly contacts with the faculty for each of the scheduled weeks of the course. Grades of W and I related to attendace compliance until the course is complete and grades are issued.

Withdrawal from the University
All students who find it necessary to interrupt their attendance at the University, withdraw from the program, or take a leave of absence for any reason, must contact their Academic and
Financial Counselors to complete appropriate paperwork. For those students receiving financial aid, a change in enrollment status may result in a loss of financial aid eligibility or cancellation of funds.

**Re-entry to the University**
The University considers students who allow a time lapse of 12 months between the completion of one WIU course and the beginning of the next course to be on inactive status. To regain active status, students must submit a new Application for Admission accompanied by a reapplication fee. The University Re-entry Advisor assists students with this process as well as scheduling appropriate coursework following re-enrollment.

Bachelor degree candidates will re-enter under current catalog degree requirements unless all four of the following criteria have been met:

- A minimum of 36 credits that are applicable to the student’s program have been earned at WIU.

- All degree-required coursework (within six credits) has been completed.

- The combination of previously completed WIU coursework and courses remaining ensures that the student will accomplish a minimum of 54 upper division (3-400 level) credits.

- The student will be able to complete the program within eight years from its original start date.

Students meeting all four of the above requirements may re-enter under their original catalog’s degree requirements.

Master degree candidates re-enter under current catalog degree requirements unless the following criteria have been met:

- All coursework (including prerequisites) has been completed except for the Thesis.

- The student will be able to complete the program within six years of the original start date.

Students out of attendance for more than two years will be required to repeat RES 601 (Applied Thesis Fundamentals). All students are subject to University policies in affect at the time of re-entry.

**Residency Requirements**
At the undergraduate degree level, a minimum of 30 credits must be earned through WIU resident courses for issuance of an Associate degree. A minimum of 36 upper division (300-400 level) credits must be earned through WIU resident courses for issuance of a WIU Bachelor degree. Students must earn a minimum of 54 upper division credits and a maximum of 72 lower division credits to meet Bachelor degree requirements. At the graduate level, a minimum of 34 credits must be earned in residency.

Please see Professional Studies section for residency requirements of each certificate program.

**Transfer of Credit**
Transfer credits from regionally and nationally (as recognized by the Council for Higher Education Accreditation (CHEA)) accredited postsecondary institutions are generally accepted for courses that are recommended by the issuing institution for transfer to undergraduate and graduate programs. All official transcripts received and evaluated by the Admissions Office are considered the property of WIU and will not be released. Only coursework documented on official transcripts will be evaluated.

Credit earned through personal, professional and military experience, institutional exam or assessment, and national tests for credit will also be considered for transfer by the University.

**Evaluation of Credit**
A preliminary estimate of transfer credit may be provided at the time of application for admission to the University. This unofficial estimate is provided only to assist with initial course selection. The official transfer credit evaluation will be completed by the Admissions Office within four weeks of receipt of all application materials and official documents. Any questions regarding the evaluation must be addressed by the student with an Academic Counselor within 60 days of the date of admission notification. The evaluation of prior academic credit will be considered final after this period.

The University engages in transfer credit articulations with various institutions. These articulations are designed to support the academic mission of University programs and supercede the University’s standard transfer credit policies. Unless otherwise notified, the Admissions Office will evaluate prior credit based on these articulations. Any request for re-evaluation of credits under general policies must be made in consultation with the Academic Counselor and submitted in writing within the 60-day period.

Policies pertaining to dual admission and co-enrollment opportunities with partner institutions are specified in published guidelines provided to students upon initial enrollment.
Eligible Credit
Transfer credit is accepted if the coursework is applicable and an acceptable grade has been earned. A minimum grade of C must be earned for transfer of an undergraduate course, and B for a graduate course. Grades earned at other institutions are considered for admission but are not included in computing a student’s cumulative grade point average at WIU.

Limitations
For undergraduate students, lower-division credits will be accepted up to a maximum of 72 semester credit hours. A maximum of 18 upper division semester credits may be accepted. A course is evaluated as upper or lower division based on its level at the issuing institution. Semester hour courses are transferred with the credit hour value assigned by the issuing institution. Quarter hour credit earned is equivalent to two-thirds of a semester credit hour. A transfer course must bear a minimum weight of 2.5 semester credits to fulfill a specific course requirement at WIU. A total of six upper division credits may be applied to the major requirements.

Non–Eligible Credit
Transfer credit will not be awarded for non-credit courses, workshops, activities or seminars offered by postsecondary institutions as part of continuing education or professional development programs. Courses identified by the issuing institution as not applicable to a baccalaureate degree or otherwise pre-college level are not transferable. A maximum of nine vocational/activity credits may be accepted in transfer unless specified in a University articulation agreement. Coursework in information technology must have been completed within five years of the date of application to be applied toward specific IT courses at WIU. Applicants continuously employed in the IT field may request special consideration under this policy.

Military Training
Military training is considered for transfer credit for the courses approved by the American Council on Education (ACE) or Program on Non-Collegiate Sponsored Instruction (PONSI) and evaluated according to ACE or PONSI recommendations. Students relying on transfer credit from military service must provide official current copies of form DD295 or copies of form DD214. An official transcript from the Army/ACE Registry Transcript System (AARTS) is recommended.

Servicemembers Opportunity College (SOC)
WIU participates in the Service-members Opportunity Colleges four-year degree network for the Army (SOCAD-4). Applicants to the University must execute SOC/AD Student Agreement form to participate. Residency requirements for SOC/AD students are reduced to 30 upper division semester credits. A maximum of 72 lower division and 24 upper division credits are allowed in transfer. The six-credit maximum of transfer credit applied toward major requirements is waived. Students who elect to transfer into the University through the SOC/AD program may not participate in any other transfer articulation programs available. Non-degree seeking students may request extended enrollment to complete SOC/AD degree requirements of their home institution.

Credit by Examination
Transfer credit and/or advanced placement may also be awarded for successful completion of the following national program tests:

- DANTES (SST) - Subject Standardized Tests (formerly USIF)
- CEEB/AP - College Entrance Examination Board Advanced Placement Examinations
- CLEP - College Level Examination Program Excelsior College Examinations - Previously known as ACT/PEP and RCE/PEP

Assessment of Prior Learning
Students with personal and professional experience that is equivalent to college-level learning may earn undergraduate credits through the Assessment of Prior Learning Program. Examples of such learning include:

- Credits from nationally accredited institutions
- Documentation of professional training courses
- Licenses and certificates earned
- Essays relating to life experiences (30-credit maximum)

Meeting with an Academic Counselor and attendance at a Student Assessment Workshop are mandatory for submission of a portfolio. A maximum of 60 credits may be earned through any combination of APL and credit by examination toward a Bachelor degree. A maximum of 24 credits may be applied toward an Associate degree.
University Policies

Technology Assessment
IT 110 Fundamentals of Computers and IT 300 Management Information Systems are General Education and Common Body of Knowledge requirements for all Bachelor degree programs. IT 300 is also a prerequisite for the MBA program. Because many students feel their computer competence meets course requirements, WIU offers a one-time opportunity to demonstrate proficiency and test out of IT 110 and/or IT 300. Students who are successful in testing out of IT 110 or IT 300 receive no academic credit or reduction in degree credit requirements, but may replace the waived course with an elective.

Dual Majors
Undergraduate students, in all programs except the Bachelor of Science in Business, may simultaneously complete two majors provided both majors lead to the same degree (i.e. Bachelor of Science). A minimum of 24 credits must be completed in residence at WIU for the second major. A maximum of nine credits (institutional and transfer) may be shared between both majors.
Master of Business Administration students may simultaneously complete two majors that lead to the MBA (i.e. management and finance). A minimum of 18 credits must be completed in residence for the second major. RES 601 and 785 must be completed for each major. A maximum of three credits (institutional and transfer) may be shared between both majors.
All requirements for each major must be satisfied. No one course may apply to both majors unless it is specifically required in both or applied to a major elective requirement.
The request for a second major must be indicated prior to completion of the first. Completion of the second major will be based on degree requirements in effect at the time of the request. Prior transfer and institutional credits will be evaluated for applicability to the new major. Only one minor may be declared. Courses fulfilling other degree requirements may not be applied to the minor.
All credits must be completed in residency at WIU. No transfer credits will be applied toward minor requirements unless specified by a university articulations agreement. Students may declare a minor at any time after admission and prior to completion of 120 credits.

Choice of Catalog
Students whose attendance at the University has not been interrupted will graduate under the curriculum and course requirements in effect at the time of enrollment. However specific course prerequisites may change, and those in effect at the time the course is taken will apply.
Changes of major or program will be evaluated under catalog requirements in effect at time of request.
WIU catalogs are published annually. Students may choose to graduate under their program requirements or change to any current catalog issued while they are in attendance.

Change of Major/Minor/Catalog
Students who wish to change their program major, minor or catalog must meet with their Academic Counselor to petition their request. Students’ new programs of study will be based on degree requirements as stated in the most current University catalog. Prior transfer and institutional credits will be evaluated for applicability to the new degree major, and an official notice of acceptance will be issued by the Admissions Office. A fee is assessed for the second and subsequent change requests made.

Minors
Students enrolled in the Bachelor of Science in Business program may elect to declare a minor by concentrating 15 upper division credits in one discipline. Any 5 courses from the ACC, INB, IT or MGT majors may be selected for a minor. The specific courses required for E-Commerce, FIN, HRM, and MKT minors are listed on page 40. All prerequisites must be met. Only one minor may be declared. Courses fulfilling other degree requirements may not be applied to the minor.
All credits must be completed in residency at WIU. No transfer credits will be applied toward minor requirements unless specified by a university articulations agreement. Students may declare a minor at any time after admission and prior to completion of 120 credits.

Second/Dual Degrees
Students cannot be awarded more than one of the same degree from WIU. To earn both a Bachelor of Arts and a Bachelor of Science degree, a minimum of 36 additional credits must be completed for the second degree. Graduate students, except Information Technology majors, may earn one of each degree type: Master of Business Administration, Master of Public Administration, or Master of Science. Second Degrees (excluding certificates) may be pursued simultaneously or sequentially.
To petition for a second degree without re-application for University admission, students must meet with their Academic Counselor prior to completion of the first degree. Completion of the second degree will be based on degree requirements in effect at the time of request. Prior transfer and institutional credits will be evaluated for applicability to the new degree. A maximum of nine credits (institutional and transfer) may be shared between both degree major requirements. All requirements must be met for the second degree including any capstone course or thesis. An official notice of acceptance will be issued by the Admissions Office.
The Americans with Disabilities Act (ADA) of 1990

Western International University recognizes and accepts its obligations under the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1974, prohibiting discrimination on the basis of a disability and requiring the University provide reasonable accommodations to qualified disabled students in all University programs and activities.

Students have the responsibility to both self-disclose and request accommodation through the WIU ADA Officer. Communication with faculty or other staff members does not constitute in itself fulfilling the University ADA accommodation requirements. Verification through documentation from a health care provider is required prior to determination and fulfillment of accommodations. Students must allow several weeks between self-disclosure and accommodations being made and should schedule course work accordingly.

No student shall be retaliated against for seeking accommodation through this policy or for participating in any complaint procedures brought against the University for noncompliance with this policy.

Nondiscrimination Policy

Western International University does not discriminate on the basis of race, age, color, national origin, sex, disability or veteran status in its educational programs, activities or employment practices. The University complies with Title IX of the Education Amendments of 1997, Titles VI and VII of the Civil Rights Act of 1964 and regulations, and Section 504 of the Rehabilitation Act of 1973.

Student Grievance

The University has a responsibility to protect the rights of students and ensure compliance with its nondiscrimination policy by providing an appeal process for those who wish to file a grievance. A student alleging discrimination based on race, age, color, national origin, sex, disability, or veteran status, or violation of University policy by administration or faculty member must present the grievance in writing to the President of the University.

Office of the President
9215 N. Black Canyon Highway
Phoenix, AZ 85021

A University Grievance Committee will be convened to investigate and review the charges. The Executive Director of Operations will chair the committee, which will be comprised of University stakeholders. The members may hold staff, faculty, or Board of Director positions. All grievances will be reviewed and responded to within thirty days of receipt. If a complaint cannot be resolved through the University's grievance procedures, the student may file a complaint with the Arizona State Board for Private Postsecondary Education. The student may contact the State Board for further instructions.

1400 W. Washington, Room 260
Phoenix, AZ 85007
Phone: 602-542-5709
http://azppse.state.az.us

Student’s Right to Privacy

Western International University maintains compliance with the Family Education Rights and Privacy Act (FERPA). This Act affords students certain rights with respect to their educational records. The law requires that:

1. Students are afforded the right to access official records directly related to the student. Students who wish to see their records must make an appointment through the University’s Registrar’s Office or local campus. Students may not remove any materials but are entitled, at their expense, to one copy of any material contained in their file, unless a disclaimer appears on the document indicating that the student is not to be given a copy, or if the student waived the rights to the document. Information will be provided for viewing within 21 days.

2. Students have the right to a hearing to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under law does not include any right to challenge the appropriateness of a grade as determined by a faculty member.

3. Student’s written consent must be received prior to releasing personally identifiable student data from the records to other than a specified list of exceptions.

4. The University is authorized to release public directory information concerning students. Directory information includes the student’s name, local and permanent addresses, phone number, e-mail address, date of birth, photographs, major field of study, dates of attendance, residency status, degrees and awards received, and most recent previous educational institution attended by the student. Directory information is subject to release at any time unless the Registrar has received a prior written request from the student specifying information not be released. A request for non-release must be submitted to the Registrar in writing and should include name, student identification number, address, specific records that are to be withheld and/or to whom the privacy hold applies, signature, and date. The hold will apply throughout the student’s enrollment unless the University is otherwise notified.

http://www.wintu.edu 18
5. The University is authorized to provide access to student records to University officials and employees who have legitimate educational interests to such access. These are persons who have responsibilities in the University’s academic, administrative, service, or research functions.

6. Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. These may be sent to:

   Family Compliance Office  
   U.S. Department of Education  
   400 Independence Avenue SW  
   Washington, D.C. 20202-4605

Educational records will also be released pursuant to a judicial order or lawfully issued subpoena, but only after the student is given reasonable notification of the University’s intent to comply before release of records. Inquiries regarding FERPA and requests for non-release may be addressed to:

   Registrar  
   9215 North Black Canyon Highway  
   Phoenix, AZ 85021  
   Phone: 602.943.2311  
   Fax: 602.371.8637
Independent Study
Independent study courses will be considered under extenuating circumstances to meet a student’s special needs. These courses are available on a limited basis to degree-seeking students only. The following limitations are applied to Independent Study:

- Students must have completed a minimum of four courses at WIU in the classroom prior to any request for Independent Study.
- Students must have a minimum GPA of 3.0 (undergraduate) and 3.5 (graduate) to be considered.
- No more than two courses at the undergraduate level and one course at the graduate level may be approved as Independent Study.
- Because of course content/competencies, certain courses will not be approved for Independent Study under any circumstances.
- Courses available within two months at any reasonable location will not be approved as Independent Study.
- No Withdrawals (W) or Incomplete (I) grades may be issued for Independent Study courses. Students’ earned grades will be posted at the end of the session. Students who do not fulfill Independent Study course requirements will receive an F.
- Once students have registered for an Independent Study, refunds will not be made.
- Independent Study courses may not be requested more than 60 days prior to the anticipated start date, but must be requested no later than the 1st of the month preceding the session requested.
- The University will assign the most appropriate faculty for the Independent Study. Students may indicate a faculty preference, but should not base request decisions on an anticipated instructor.

To apply for Independent Study, students must contact their Academic Counselor for a Request For Independent Study form. This written request must include the specific course and the justification for requesting the exception. The Independent Study fee must accompany the request.

Graduate Internship Program
A Graduate Internship is a working and learning arrangement. Internships provide opportunities for students to earn academic credit for approved work programs at cooperating businesses and organizations. The internship, which is three to six months in duration, is open to qualified graduate students. The student is responsible for negotiating an internship proposal with the sponsoring business or organization. This proposal must be approved by the appropriate program chair.

WIU Writing Style
Western International University has adopted the American Psychological Association (APA) style for resource documentation of papers. A handbook of the approved style is available on the WIU website or the University bookstore. It is the student’s responsibility to learn to document papers in the established format.

Grading Procedures
Students’ official grades are posted by the Registrar’s Office upon completion of each course. Grade reports indicate the course taken, the credits received and grade assigned. Faculty members are required to forward final grades to the University for processing within seven (7) calendar days of completion of the course. Official grades are available for viewing through MyWIU immediately upon posting. WIU uses the following 4.0 grading system to evaluate student performance:

<table>
<thead>
<tr>

WIU Writing Style
Western International University has adopted the American Psychological Association (APA) style for resource documentation of papers. A handbook of the approved style is available on the WIU website or the University bookstore. It is the student’s responsibility to learn to document papers in the established format.
The University has established the following grading guidelines for faculty compliance.

**A** = Clearly stands out as excellent performance. Has unusually sharp insight into material and initiates thoughtful questions. Sees many sides of an issue. Articulates well and writes logically and clearly. Integrates ideas previously learned from this and other disciplines; anticipates next step in progression of ideas.

**B** = Grasps subject matter at a level considered to be good to very good. Is an active listener and participant in class discussion. Speaks and writes well. Accomplishes more than the minimum requirements. Work in and out of class is high quality.

**C** = Demonstrates a satisfactory comprehension of the subject matter. Accomplishes only the minimum requirements and displays little or no initiative. Communicates orally and in writing at an acceptable level for a college student, with acceptable understanding of all basic concepts.

**D** = Quality and quantity of work in and out of class is below average and barely acceptable.

**F** = Quality and quantity of work in and out of class is unacceptable. An F is issued in conjunction with academic dishonesty will be noted as such.

**I** = INCOMPLETE. (see section below).

**HP** = HIGH PASS. Quality and quantity of work in and out of class exceeds required competencies.

**NP** = NO PASS. Quality and quantity of work in and out of class do not meet required competencies.

**P** = PASS. Quality and quantity of work in and out of class meet required competencies.

The University has established the following non-grade symbol guidelines for faculty compliance:

**R** = REPEAT. Posted with the first grade earned in a course that is later retaken.

**W** = WITHDRAWAL. Students who attend at least one class and miss at least four class sessions prior to the eighth meeting will receive a W. W grades do not factor into the GPA.

**WV** = WAIVER. Course requirement alternatively fulfilled.

**X** = AUDIT. Student attends and participates in a course with no credit or grade awarded.

### Incompletes

An incomplete grade (I) may be issued when extenuating circumstances prevent a student from completing course requirements by the end of the session. A student must be passing the course and in attendance compliance to be eligible for issuance of an incomplete. All incompletes may be assessed a penalty of one full letter grade by the faculty upon completion. Final grades for three credit courses must be submitted within eight weeks of the course completion date. Final grades for one credit courses must be submitted within four weeks of course completion date. During the incomplete period the posted Incomplete (I) is not factored into the cumulative GPA. Upon issuance of the earned grade, the GPA will be amended to reflect the earned grade for the course. The student record will permanently reflect both the I and the final grade earned (i.e. IB+, IB, IB-, IC+). Incomplete grades will revert to an F at the end of the incomplete period if the coursework is not completed. In the event that the student still wants credit for the course, the student must register for the course again and pay full tuition. Note: Incompletes are not awarded for independent study courses.

### Course Repeat Policy

Normal registration procedures are followed when students repeat courses. A new grade earned in a repeated course will be computed in the student's cumulative GPA at the appropriate undergraduate or graduate level. Students' academic transcripts will record both the initial grade and the subsequent repeat grade. Once the course is retaken, R (repeat) will be posted with the initial course grade, and that grade will no longer factor into the student's cumulative GPA. The earned grade from the subsequent course will be posted as the official grade and factored into students' GPA. Electing to repeat courses in which passing grades have been earned may adversely affect Satisfactory Academic Progress for purposes of VA Educational benefits, Financial Aid or corporate funding. Students may not take the same course more than three times. Students who fail a required course three times will be academically dismissed from the University.

### Course Audit Option

Students are permitted to enroll in a course to obtain information, for personal development, or to enhance specific skills. With instructor approval, a student may audit a class and participate in all class activities. Writing assignments and examinations are not mandatory. No grade is assigned and audited courses carry no credit toward the GPA or degree requirements. A non-grade symbol of X is assigned. Approval of Audit Status must be arranged prior to start of the course. The tuition for audited courses is the same as those taken for credit. Audited courses may not be covered by Financial Aid.
Academic Load
Each three credit course at Western International University represents 36 contact hours (12 hours per 1 credit). Students are expected to budget a minimum of two hours out-of-class study (eight hours per week) for each hour spent in class. The recommended maximum course load is two courses at one time. Students may not enroll in more than three three-credit courses simultaneously without prior permission. This maximum includes courses taken in overlapping sessions. Students should contact their Academic Counselor to request an exception.
All credits issued for successfully completed WIU coursework are in semester increments.

Academic Standards
Grade point average (GPA) is determined by credits earned times grade points earned divided by total credits attempted. Undergraduate students must maintain a minimum GPA of 2.0 and achieve a minimum of a C (2.0) in the capstone course. Graduate students must maintain a minimum grade point average of 3.0 and achieve a minimum of a B (3.0) grade in the Applied Thesis. Students must be in good academic standing for conferral of degrees or certificates.

Honors
Bachelor students achieving high academic standards are awarded honors upon completion of their degree requirements. Honors designations are indicated on the diploma and transcript. Honors are recognized at commencement ceremonies only for those students who have completed all degree requirements a minimum of 60 days prior to the date of ceremony. No exception to this policy is possible.
• Summa Cum Laude 3.95-4.00
• Magna Cum Laude 3.80-3.94
• Cum Laude 3.60-3.79
WIU does not issue honors designations at the graduate level.

Academic Probation
Academic Probation will occur when a student’s grade point average falls below acceptable levels (2.0 undergraduate, 3.0 graduate). The student is notified in writing by the Registrar of placement on Academic Probation. Students are allowed to complete three courses subsequent to the assignment of Academic Probation during which cumulative GPA must be raised to an acceptable level. Students must continue to enroll in courses applicable to their programs and may be required to repeat courses with unacceptable grades. Students are advised to meet with Academic Counselors at this time. Veterans’ benefits and Financial Aid students may continue to receive funds while on Academic Probation.

Academic Suspension
Academic Suspension will result if a student fails to clear Academic Probation Status during the three course probationary period. A suspended student is not eligible for readmission for a period of one year. At that time, the student may present evidence that academic conditions have been met to the Director of Curriculum and Academic Affairs. Students who are allowed to return must earn an acceptable cumulative gpa within three courses. Students must work closely with an Academic Counselor during this three-course return period. Students who succeed in raising their gpa will be moved to regular academic status. Students who fail to achieve the required gpa will be academically dismissed from the University. Students readmitted within a reasonable time frame following the year of suspension may return under previous catalog requirements. Academically suspended Financial Aid students will be considered Financial Aid Disqualified and will not receive further funding.

Separation from the University may be imposed for violations of either University academic integrity standards or Student Code of Conduct. Academic Suspension status will be assigned in these cases, but may be of lengths of time other than one year.

Academic Dismissal
Academic Dismissal will result if a student fails to maintain an acceptable grade point average (2.0 undergraduate, 3.0 graduate) upon completion of the third class after readmission due to Academic Suspension. Academic Dismissal may also occur due to academic dishonesty and/or plagiarism, violation of the Student Code of Conduct or three failures of a required course. Students who are academically dismissed from WIU are not eligible for readmission at any future time. There is no appeal to this classification.

Academic Disqualification
Provisionally admitted students, who are then denied admission, and students whose admission denial is upheld through the appeals process, are academically disqualified from the University. Disqualified students must cease enrollment at the University for a minimum of 12 months. At that time, further appeals for readmission will be considered. Appeals for readmission should be addressed to the WIU Admission Manager.

Academic Integrity
Acts violating academic integrity include, (but are not limited to,) plagiarism, cheating on an examination, forging an instructor’s signature, copying themes or tests from other students, altering college records, enlisting another person to write a paper for any class, or conduct detrimental to the student or other members of the class. A student found aiding another in the activities is
also subject to sanction. Students charged with a violation of academic integrity are subject to disciplinary action under Student Code of Conduct or Academic Dishonesty and Plagiarism Processes.

**Academic Dishonesty and Plagiarism**

All the work submitted by a student must represent the student’s original endeavor. Where outside sources are used as references, work submitted by the student should identify the source and make clear the extent to which the sources have been used. The University considers plagiarism and falsification of documents, including documents submitted to the University for other than academic work, a serious matter and may result in one or a combination of the following sanctions:

- **Warning** - notice given orally or in writing that any further misconduct may result in more serious discipline.
- **Forfeiture** - loss of all or part of the credit for work conducted in association with academic dishonesty.
- **Disciplinary** - may include supplemental assignment(s), rewrite of the assignment in question and/or additional paper, consultation with the Writing Center to increase understanding of academic dishonesty and/or separation from the University for a specified period of time.
- **Dismissal** - permanent separation from the University.

Faculty members will report all incidents of academic dishonesty directly to the student and in writing to the Director of Curriculum and Academic Affairs. The faculty member must assign the student an F grade for the specific assignment and for the entire course within the usual seven-day grade reporting time. The Director of Curriculum and Academic Affairs will send written notification of charges of academic dishonesty to the student and request that the student respond within 10 working days. Students who do not respond within 10 working days will be suspended. Ignorance of University policy will not be accepted as a reasonable excuse for dishonesty. Once the Director of Curriculum and Academic Affairs has completed the investigation, the findings will be forwarded to the University Academic Council with recommendations for action. The Council is responsible for reviewing all referred cases and for recommending the appropriate sanctions.

Students found not to be in violation of standards of academic honesty will be graded in accordance with the standards set forth in the course syllabus, and who were suspended, shall be reinstated automatically without further petition. Students found in violation of academic dishonesty standards will receive written notice of the findings and sanctions. Decisions of the University Academic Council are final and noted in the student record. No further appeals will be considered by the University administration.

Charges of falsification of information on University documents other than academic work will be addressed to the Executive Director of Operations and follow procedures similar to charges of academic dishonesty or plagiarism.

**Student Appeals Committee**

The Student Appeals Committee (SAC) provides a systematic process for the resolution of student disputes of grades or attendance and requests for exception of University policy. The committee meets bi-monthly and will provide students a written response within two weeks of reviewing an appeal.

Decisions of the WIU Student Appeals Committee are considered final University adjudication.

**Formal Appeal Process**

Prior to submitting a request to the committee, the student must attempt to resolve the issue through the appropriate department. If the issue cannot be resolved a formal appeal may be submitted through an Academic Counselor. To obtain a SAC hearing, a student must submit his/her appeal in writing. The appeal must include specific information and documentation to support the request. Grade/attendance appeals must include dates, course, instructor name, and materials/information relevant to the appeal. Transfer credit appeals must include course materials for courses in question. Request for the desired action or outcome along with an explanation regarding previous actions taken in attempting to resolve the issue must be included.

**Appeal for Grade**

Prior to submitting a grade appeal, the student is required to discuss the issue with the instructor involved. Every reasonable attempt should be made by both parties to resolve the issue at this level. This must be initiated within six weeks of the course end date. SAC will only consider grade appeals that have been initiated within the required timeframe. The faculty member is obligated to review grade calculations for accuracy and respond to student inquiries in writing within ten days of the request with an explanation of the rationale for the grade issued. If the instructor does not respond to a student’s repeated attempts to contact within a ten-day period, the student may contact his/her Academic Counselor regarding submission of a formal appeal.

In all cases of administrative and academic student appeals, if the issue cannot be resolved through the University’s procedures, a student may file a complaint with the Arizona State Board for Private Postsecondary Education. Students may contact the State Board for further instructions.

**Arizona State Board for Private Postsecondary Education**

1400 W, Washington, Room 260
Phoenix, AZ 85007
Phone: 602.542.5709
http://azppse.state.az.us
The Registrar’s Office will release transcripts upon written request from the student. The request must include the student ID number, date of last attendance, and name(s) used while in attendance at WIU. No official transcripts will be released until all financial and other obligations to the University have been met. Each student is issued one transcript free of charge at time of graduation. There is a charge for each additional transcript. Transcripts may be requested in person, by mail or fax from the Registrar’s Office. Requests will not be accepted from, or released to, third parties without a written permission from the student. Transcripts issued to students will be stamped “Unofficial Issued to Student”.

Since coursework begins monthly at Western International University, students complete degree requirements and are graduated from the University on a monthly basis. Diplomas are posted with the last date of the month during which the degree requirements are met.

Commencement Ceremony
The commencement ceremony for the University is held once a year in early summer. All students completing their degrees during the previous year or who are within nine credits of degree completion at the time of the ceremony are eligible to participate. Students are notified by the Registrar’s Office of eligibility. Students are allowed to participate in only one ceremony per degree earned. Participation in the commencement ceremony is not mandatory.

Honors are recognized at the ceremony for those undergraduate students who have met the academic requirements and completed their degrees a minimum of 60 days prior to the date of the ceremony. (See page 22).

Graduation Clearance Procedure
Students may verify graduation clearance by contacting the Registrar’s Office or an Academic Counselor at least 9 credits or 90 days prior to expected completion date. Upon receipt of the request, the Registrar’s Office updates the student’s program evaluation. Students may then meet with an Academic Counselor to review remaining requirements and make arrangements for capstone courses.

Diploma Request Procedure
Students must contact the Registrar’s Office upon receipt of their final grade to initiate final degree audits and order their diplomas. Students who receive government financial aid must complete and sign an exit interview form available in the Financial Aid office.

Students must be in good academic standing, clear any indebtedness to the University, and pay the Graduation Fee prior to release of the diploma and official transcript indicating the award of the degree. Students who plan an additional program at the University must remain out of attendance for a 30 day period during degree posting. Issuance of the diploma is delayed two weeks to allow funds to clear if the student writes a check for the diploma fee or to clear any debts to the University. Students who have met all degree requirements and financial obligations may request from the Registrar a letter verifying degree completion prior to receiving their diplomas.

Graduation Deadlines
All WIU students are expected to complete their programs within a reasonable time frame. The following timelines have been determined as the expected maximums for completion:

- Associate of Arts degree: Five years from start of program
- Bachelor degree: Eight years from start of program
- Master degree: Six years from start of program
- Certificate: Three years from start of program

Time away from the University will not be counted against graduation deadlines for those students who leave the University and return as a re-entry student.
Computer Usage Guidelines

Computers are available for students and faculty at each University campus. These computers should be used in educational and professional pursuits. Adherence to the following guidelines, which are also posted at the sites, is expected of all users. Violation of these rules may result in loss of computer access. Serious or repeated violations may result in dismissal.

- Nothing may be downloaded from the Internet to the PCs. Materials may be downloaded to a diskette on the A drive.
- No files, programs, or documents may be saved to the PC. Materials may be saved on a diskette.
- The set up of the PC may not be altered in any way.
- No more than one copy of a document may be printed on University provided printers except when students are required to pay for printing.
- Users may occupy only one computer at a time.
- No inappropriate (pornographic or other) websites may be visited.
- During high usage times, use of the computers is limited to 30 minutes.
- No food or drink is allowed in the LRCs or Computer Labs.
- Staff members must be notified of any computer problems immediately. Users should not attempt to correct problems themselves.

Student Code of Conduct

Students enrolled at Western International University assume the responsibility to conduct themselves as mature adults and members of an academic community. In addition to observing local, state and federal laws, students are expected to treat staff, faculty, and other students with respect and courtesy as well as uphold and promote the image of the University.

Alleged violations of the Student Code of Conduct should be forwarded immediately in writing to the Executive Director of Operations. Charges will be addressed according to procedures established by the University. Sanctions may be imposed, up to and including, dismissal from the University.

Grounds for disciplinary action include, but are not limited to, the following:

- Verbal or physical abuse of any person or conduct that threatens or endangers the health or safety of any such person on University premises or at University sponsored functions.
- Theft of University property or of property of a member of the University community on campus.
- Willful, wanton, or reckless damage to University premises, property or the property of a member of the University community.
- Fraud, forgery, alteration, or unauthorized use of documents, University records or instruments of identification.
- Obstruction or disruption of teaching or other components of the academic process, administration or University activity.
- Failure to comply with published University policy or with directives of University officials while performing their duties.
- Unlawful manufacture, distribution, dispensation, possession, or use of alcohol and/or controlled substances on the University premises or during University activities; participation in any University activity while under the direct or residual influence of any controlled substance, alcohol, misused or overused legal drugs to the extent of causing impairment.
- Possession, use, sale or distribution of any firearms, fireworks, explosives, illegal drug paraphernalia, dangerous weapons, or any other materials/substances prohibited by law on University premises or at University sponsored events.
- Unauthorized use of the University’s name or logo that is the property of the University.
- Harassment, sexual or otherwise, or intimidation of any member of the University community while on University premises or during University sponsored events.
- Violation of local, state or federal statutes or University regulations.

Campus Rules

The following rules are enforced at all WIU Campuses:

- Smoking is prohibited in all University buildings.
- Literature to be distributed to students or posted on bulletin boards requires the approval of the Campus Manager.
- Children may not be left unattended and are generally prohibited from classrooms.
- Students are expected to dress appropriately on campus. Footwear is required at all times.

*ALL FEES ARE NON-REFUNDABLE AND SUBJECT TO CHANGE*

*ALL PAYMENTS NOT MADE ON TIME ARE SUBJECT TO LATE FEES*
Payment Policies
All tuition and applicable fees are due and payable as specified by the student’s payment option. There will be a late payment fee if payment is not received consistent with the terms of the student’s chosen financial option. There will be a fee for declined credit cards or for checks returned for any reason. If a student’s checks are returned from the bank on two occasions, the student will be required to pay all future charges in cash, cashiers check or money order.

Students are required to clear any indebtedness to the University before grades or transcripts will be issued or the degree awarded. All costs of collection, court fees and reasonable attorney’s fees will be added to delinquent accounts collected through third parties.

Note: Failure to pay tuition and fees in accordance with the student’s chosen financing agreement can result in administrative withdrawal, no course credit, account holds, assessment of late fees, referral to collections and unfavorable credit reference. Failure to comply with terms of the chosen financial option may result in a student being defaulted to the “Cash” option. Further violations of these policies will jeopardize eligibility for deferment and re-entry into school. The student maintains full responsibility for ensuring that all tuition and fees are paid in full regardless of the payment option in force. All tuition and fees of the University are subject to change.

Cash Payment Option
Students who have selected the Cash Payment Option, or have been defaulted to Cash Payment Option, are required to pay all tuition and fees prior to the first night of class. At WIU, checks, credit cards and cash are all considered as “cash”.

Students who have not paid tuition prior to the first class meeting may not be allowed to attend the course and, if allowed to continue, will be subject to applicable late fees.

Deferred Corporate Reimbursement Option
This option is available to students whose employers have an approved written reimbursement policy. 100% of tuition is deferred until 60 days after the course start date. The student must submit a credit card and authorization to charge automatically to secure the deferment. Debit cards will not be accepted. The student’s credit card will be charged 60 calendar days after the course start date. Tuition is deferred for a maximum of two courses per session. A Declined Credit Card fee will be charged to the student’s account for each declined credit card transaction.

Direct Bill Option
Students who request Western International University bill employers or another agency directly for the cost of tuition must submit approved tuition vouchers or letters of credit to the Accounting Office prior to the first class meeting of each course. A late fee per course will be assessed and the student’s account may be placed on hold should the student’s direct billing paperwork not be received prior to the first class meeting of the course.

Currently, the University has direct billing arrangements with several employers. Each direct bill program has specific requirements that the student must meet. Students may contact the Accounting Office for further information. Students must contact their employer to determine if this option is available to them.

This program does not relieve students of their financial obligation to the University. Students retain full responsibility for ensuring that all tuition and fees are paid in full and in a timely manner.

Military Payment Option
Students utilizing military tuition assistance must submit appropriate documentation and pay their portion of the tuition, if any, and fees prior to the first class meeting of each course. A late fee per course will be assessed and the student’s account placed on hold should the student’s military assistance paperwork and/or payment not be received prior to the first class meeting of the course.

This program does not relieve students of their financial obligation to the University. Students retain full responsibility for ensuring that all appropriate tuition and fees are paid in a timely manner.

Veterans Educational Assistance
Formal application for admission to the University should be completed before applying for Veterans Educational Assistance. Each WIU program, course, and location requires separate Arizona Department of Veterans’ Services approval for the training of veterans. Students should contact their local campus for information on current approvals.

Application for VA benefits should be sent to the local campus for submission to the Department of Veterans Affairs with enrollment certification. WIU does not participate in the Department of Veterans' Affairs advance pay program.

VA Benefit eligibility and assistance rates vary depending on each individual's military history and the educational program being pursued. Only the Department of Veterans Affairs can determine a VA applicant’s eligibility. To contact a Department of Veterans Affairs representative, students may call toll free 1-888-442-4551.
To avoid overpayments, VA educational benefit recipients should promptly report any changes in enrollment or dependency status to the VA Coordinator at the University and the Department of Veterans’ Affairs. The University is required to notify the Department of Veterans’ Affairs within 30 days of a change in student status during previously certified periods of enrollment.

Changes include withdrawal, reduction in training time, unsatisfactory academic progress or conduct, and assignment of a non-punitive grade. Upon receipt of the notice, the Department of Veterans’ Affairs is required to take prompt and aggressive action to recover benefit overpayments.

DANTES Reimbursement
Independent study courses have Defense Activity for Non-Traditional Education Support (DANTES) approval for tuition reimbursement. For information on this program, students may contact the Educational Service Office on their base.

Financial Aid Option
Students may be eligible for the Federal Pell and SEOG Grant Programs and/or the Federal Family Educational Loan Programs (Stafford subsidized, unsubsidized and Plus Loans and the Perkins Loan program. All students seeking federal financial aid benefits must be admitted to a financial aid eligible degree or certificate program in order to determine financial aid eligibility.

In order to be eligible for tuition deferment under the Financial Aid Plan at least 50% of a student’s annual tuition must be funded through federal financial aid benefits, and the student must meet the following conditions. The student must have 1) completed a financial aid orientation, 2) completed an Entrance Interview, 3) submitted a completed Financial Aid Packet (including all required paperwork and related documentation), 4) completed the Admissions Application, and 5) paid all applicable fees.

In order to continue tuition deferment beyond the first course, the student must provide the University all documents required to complete the certification of federal financial aid funds. Failure to submit these documents, or to qualify for federal financial aid, means the student will be immediately responsible for any outstanding balances incurred and will be required to select another finance option.

The student must reapply for funding every academic year on this plan. The student must allow at least 60 days before their next academic year begins to complete the reapplication process. It is critical that the student reapply for future loans or grants early to ensure their educational program is not interrupted. If the student does not reapply for financial aid in a timely manner, they will no longer qualify for a financial aid deferment and will be required to comply with the terms and conditions of the Cash Option (see above). Please refer to the subsequent section of this Catalog for more information related to this financial option.

Please note that continuous class attendance with no attendance breaks greater than 29 days is required to retain disbursed federal financial aid funds.

Refund Policy
All fees, including application, assessment, student services fees, graduation, independent study and lab fees are nonrefundable.

Students are eligible for a tuition refund under the following conditions:

1. Withdrawal from the course after only one attendance and prior to the 3rd class meeting of a 3-credit course: Refund 100% of tuition paid. There is no tuition refund for students who withdraw after two or more attendances of a course.

2. Students who begin a program under Provisional Status pending the completion of their admission file and are subsequently denied admission are eligible for a refund of the full tuition amount for any course in which they are currently enrolled. Tuition will not be refunded to the student for any completed course.

3. Tuition paid for a course from which the student withdraws during the refund period will remain on account to apply to the next course taken. All requests for refunds must be submitted in writing to the Accounting Office. The University requires 30 days for processing.

4. Students in the Certified Financial Planning Certificate Program are entitled to a refund adjusted for materials supplied.

Additional Refund Policies for Students Receiving Financial Aid
If students drop temporarily, financial aid refunds will be applied toward future tuition. If the student has not reentered the program after 30 days or as of the agreed upon return date, the credit balance will be issued to the lender. If students permanently withdraw from the University, refunds will be issued within 60 days.

If students withdraw and have completed at least 60% of the first half of their academic year at the University a refund calculation will be completed, and the largest amount refunded based on the following policies:
1. Western International University Refund Policy: See Refund Policy

2. Federal Refund Policy: This calculation allows the University to retain a certain percentage of the institutional charges based upon the percentage of the academic year students have attended.

If students withdraw and have not completed 60% of the first half of their academic year at the University an additional refund calculation will be performed.

Students will be notified of the results of this refund calculation and have 14 business days to respond to the University. If no response is received, any funds remaining on the students’ accounts will be returned to the lender.

In some cases the amount to be returned to the lender will result in a balance owing on the student’s account with the University. This balance will be collected from the student. For more details regarding the refund policy for students receiving financial aid, students should contact their Financial Counselor.

Financial Charges Grievance

The University has a responsibility to protect the rights of students and ensure compliance with its nondiscrimination financial policy by providing an appeal process for those who desire to file a grievance against the University. All disputes relating to charges must be initiated within six (6) weeks from the charge date and must be submitted in writing to the Financial Services Manager.

Financial Appeals

All student appeals or requests for policy exceptions must be submitted in writing and include all relevant documents or statements of support. Appeals may be submitted through the student’s Academic or Financial Counselor or may be mailed to:

Student Appeals Committee
Western International University
9215 N. Black Canyon Highway
Phoenix, Arizona 85021

The Student Appeals Committee will review the student’s submissions as well as any other relevant information and render a written decision within two weeks of reviewing the appeal.

Financial Policies & Procedures

Western International University (WIU) participates in five Title IV Financial Aid programs designed to give students who need or desire assistance several alternatives in financing their education. Information and/or application forms may be obtained from the Finance Office at each campus. Students may apply for financial aid if they are enrolled in an eligible degree or certificate program.

Students may borrow to the federal limits of their financial aid eligibility once every academic year (a minimum of 24 passing credits and not less than 30 weeks of instruction time). At WIU, students are required to successfully complete at least 24 credits. This type of funding method is called borrower-based. Therefore, students may be eligible to apply for two, three or four loans and/or two, three or four grants during their program. Normal processing time is 30 to 60 days. Students must complete the credits approved under the first loan of their academic year before receiving disbursement of a new loan.

All students applying for financial aid at WIU will have loan documents reviewed for eligibility and approval by the WIU Financial Aid Office prior to each disbursement of financial aid loans and/or grants. Students must reapply for financial aid at least 60 days prior to the expiration date of their current loan period.

All students receiving financial aid must comply with the requirements of WIU’s Satisfactory Academic Progress Policy (SAP) for Title IV recipients. Those students not making satisfactory academic progress may be academically disqualified and/or financial aid disqualified.

Federal Pell Grant Program

A Federal Pell Grant is an award that helps qualified undergraduate students (who have never obtained a Bachelor degree) supplement a portion of their education. Unlike loans, repayment of Federal Pell Grants is not required, as long as students complete the required amount of coursework. Eligibility is based on a formula revised and approved each year by Congress.

Federal Stafford Student Loans (Subsidized and Unsubsidized)

Federal Stafford Loans (formerly GSL loan program) are low-interest loans. Loans are made by lenders such as banks or credit unions. These loans are not credit-based. These loans are insured by the appropriate national or state guarantee agency and reinsured by the federal government. Loans must be repaid once students graduate or withdraw from the University.
The federal government pays the interest on Subsidized Federal Stafford Loans while the student is in school. For Unsubsidized Federal Stafford Loans, the student has the option of deferring interest although the interest continues to accrue.

The Subsidized Federal Stafford Loan is made to borrowers who demonstrate financial need according to the federal methodology. The Unsubsidized Federal Stafford Loan may not be available to dependant students. Both graduate and independent undergraduates may apply for this loan.

Students cannot borrow more than their cost of education at WIU less any other financial aid received. Other financial aid could include, but is not limited to, tuition assistance, scholarships and veteran benefits. Funding amounts are based on the level of credits students have reached in their academic progress. Information on current interest rates, loan limits, insurance premiums and guarantee fees can be obtained from WIU's Financial Aid Office.

After students graduate or leave school, they have a six-month grace period before beginning repayment for the Federal Stafford Loans. During the grace period, students receiving subsidized funds are not required to pay the interest or principal. For an Unsubsidized Federal Stafford Loan, students have the option of deferring interest but the interest will continue to accrue.

The WIU Financial Aid Office will provide loan applicants with a list of lenders who participate in the federal loan programs. Students that are using financial aid as their primary payment option must select a lender.

Financial PLUS Loans
The Federal PLUS Loan is available to parents of dependent students. This loan is a low-interest, non-need based federal loan made by a private lender that is credit based. The lender determines credit worthiness. Repayment begins 60 days from the date the loan is fully disbursed by the lender. The loan may be paid back to the lender over the course of 10 years.

Alternative Loans
Students who do not want to apply for federal funds or are not eligible to receive federal funds may consider an alternative loan. These loans are available through a variety of lenders and are based on credit worthiness. Interest rates and repayment options vary by lender. Additional information concerning other sources of funding may be obtained from the WIU Financial Aid Office.

Loan/Grant Disbursement
Loan applications may be certified and disbursed while students have an acceptable admission status. Additionally, students must be making Satisfactory Academic Progress as defined by federal regulations and outlined in this catalog.

Federal disbursements are made in two payments; at the beginning of the loan period and after successfully completing approximately one-half of the credits for that loan period. Any processing fees will be divided in half and deducted from both payments. The loan check will be co-payable to the University and the student, or funds will be transferred via EFT (Electronic Funds Transfer) directly to WIU. With authorization from the borrower, the University will apply all financial aid monies toward tuition for the current half of the academic year. Any excess monies will be refunded to the student. Federal regulations require a delay in disbursement of loan monies to first-time borrowing students until after 30 days of attendance. Since WIU does not have standard fall/spring semesters, funding is borrower-based.

Grant disbursements are made to eligible students at the beginning and midpoint of the grant period.
Satisfactory Academic Progress

Students receiving Title IV financial aid funds must maintain the minimum grade point average for their degree program. For information regarding the minimum grade point requirements for each degree, refer to the Academic Policies and Procedures in this Catalog.

Students must also make satisfactory progress toward completing their degree programs within the maximum time frame allowed according to Federal regulations. The maximum time frame allowed is based on the required number of credits for graduation from the degree program, less any transfer or assessed credits, times 150%.

This maximum time frame will be evaluated for all periods of attendance at the University, including periods during which the student did not receive aid. Students who transfer between programs, majors or drop and re-enter, will have their maximum time frame evaluated based on courses that apply to the new program and/or major. Students must complete a minimum of 16 credits during each 24 attempted credit increment to maintain Satisfactory Academic Progress. Non-punitive or failing grades do not count as completed credits. A non-punitive grade is an incomplete (I) or a withdrawal (W). A failing grade is an (F). Each counts as an attempted credit as does each course the student begins. For repeated courses, only the repeated course that receives a passing grade counts as a completed course.

Students, who are not making Satisfactory Academic Progress at the end of a 24-attempted credit increment, will be placed on Financial Aid Probation. The student has two future 24 attempted credit increments from the increment during which the student was placed on probation to make up the credit deficiency. Students who do not make up the deficient credits within their two probationary increment (16), or are more than 8 credits deficient at the end of the second increment, will be placed on Financial Aid Disqualification at which time all Title IV funding will cease.

At the time of certification and each disbursement, the Financial Counselor requests a SAP audit to be performed by the Student Services Department. The students are evaluated on the number of credits required for graduation in their degree program to determine the maximum time frame. The minimum number of credits required for graduation is 60 credits for the associate degree, 126 credit hours for the bachelor degree and 40 credit hours for the graduate degree. For more information see the section in the Catalog on Academic Program Requirements.

The Student Services Department notifies students in writing if they have been placed on Academic Probation. If the SAP audit results in Financial Aid Disqualification, WIU Financial Aid Office will notify the student in writing. Students may continue to take courses at WIU subject to University policies as indicated the Academic Policies and Procedures section in the Catalog. However, students will not be eligible for financial aid at that time. Students that feel they should not be disqualified from receiving financial aid should file a formal appeal following the guidelines set forth in the Financial Appeals process in the Catalog.

The following example assumes that students have no transferred or applied credits for their program.

### Undergraduate Student

<table>
<thead>
<tr>
<th>Increment</th>
<th>Completed</th>
<th>Attempted</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>16 completed</td>
<td>24 credits</td>
</tr>
<tr>

</tr>
<tr>
<td>4</td>
<td>64 completed</td>
<td>96 credits</td>
</tr>
<tr>
<td>5</td>
<td>66 completed</td>
<td>99 credits</td>
</tr>
</tbody>
</table>

In the 5th increment, students only need 2 credits to graduate. Therefore, students must complete 2 out of 3 credits attempted in order to not exceed the maximum time frame.
**Leave of Absence**

On occasion, students may find it necessary to take a Leave of Absence (LOA). The LOA serves several purposes. While in a current academic year, it serves to maintain eligibility within the financial aid process. It also serves to delay students’ grace/repayment periods for federal student loans. An LOA should be requested any time the student will not be in attendance for a period of time greater than 29 calendar days. For students requesting an LOA, the following applies:

1. The LOA must be requested in writing, using the LOA Request Form. This form is available at the WIU Financial Aid Office.
2. Under most circumstances only one LOA can be granted in any 12-month period.
3. Under most circumstances the LOA should not exceed one two-month term.
4. The LOA Request Form should be received in WIU’s Financial Aid Office before the student’s last date of attendance.
5. If an unforeseen circumstance prevents the student from providing this request, the University may approve the leave if the request and documentation is received within fifteen days of the last date of class attendance. The student is not eligible to receive financial aid disbursements while on an approved leave of absence. In addition, failure to return at the conclusion of the leave may result in the cancellation of any future scheduled federal financial aid.

All students requesting LOAs will be notified of their status (approved or denied) by the WIU Financial Aid Office. An LOA may also affect the amount of funding that the student may receive. The WIU Financial Aid Office will re-evaluate the funding based on the number of months in the loan period and the amount of credits that will be completed during the loan period. Students will be notified of any changes.

**Campus Safety**

Western International University is strongly committed to crime prevention and to the safety of the University community. The University considers the personal physical safety of its students and employees necessary for a successful learning environment. In the event of an emergency while on campus, students should call 911 for immediate assistance. In a non-emergency situation, students should contact a campus administrator or available security personnel for assistance. All criminal activity is logged and, if possible, action taken to avert further incidents (i.e. additional security personnel, increased parking lot lighting, etc.). Security personnel are stationed on campus to ensure student, employee, and property safety. Local law enforcement agencies will be notified of crimes warranting their involvement (i.e., robbery, aggravated assault, etc.).

**Campus Statistics**

Under the Federal Student Right-To-Know and Campus Security Act, Western International University (WIU) is obligated to publish statistics regarding on-campus crimes that have been reported to campus security authorities or local law enforcement services. Campus locations that are to be included in this report are only those that fall under the jurisdiction of WIU.

Crime statistics may be found on the WIU website: www.wintu.edu.

**Student Completion Rate**

In accordance with the Higher Education Act of 1965, each educational institution must publish its student completion rate excluding graduate programs. Western International University’s completion rate averages 60% across all programs.

**Sexual Assault Prevention Programs and Sexual Harassment**

Sexual Assault Prevention programs and literature are available from the local law enforcement agency. If a student is sexually assaulted, it is recommended that the local law enforcement agency be notified immediately (dial 911). Students who believe they have been sexually harassed by faculty, administrative personnel, or other students, are urged to report these incidents to the Executive Director of Operations. An immediate investigation of all complaints will be undertaken. Anyone found, after appropriate investigation, to have inappropriately harassed a student or employee, will be subject to sanctions. Student sanctions may include written warnings and/or dismissal. Faculty members and employees are subject to written warnings and/or terminations.

**Student Right-To-Know**
Drug & Alcohol Prevention Program

The U.S. Department of Education requires institutions of higher education to provide a drug prevention and awareness program for their students and employees.

Standards of Conduct
All students are expected to conduct themselves as mature adults and members of an academic community. The consumption of alcohol or drugs while attending class or meeting with campus personnel is prohibited.

Associated Health Risks
There are dangers related to specific drugs. Listed below are the names of some of these drugs and the dangers that accompany them.

Marijuana
Can slow reflexes, diminish mental power, impair judgment and cause forgetfulness. Can damage lungs, the reproductive system and brain functions.

Cocaine
Can create the illusion of being superhuman, can impair judgment and decision-making ability, cause emotional problems, mood swings, loss of dependability and can increase workplace crime due to the high cost of the drug. Can damage the respiratory and immune systems and can cause malnutrition, seizures and loss of brain functions.

Heroin
Can cause lack of interest in workplace safety. The high cost of the drug can cause an increase in workplace crime. Dirty needles and other such paraphernalia can cause an increase in the spread of diseases such as AIDS. Can diminish personal productivity, damage relationships, and cause loss of financial stability. An overdose can cause a coma and/or death. Heroin is addictive, even in small amounts, and withdrawal is difficult and painful.

Hallucinogens (PCP, LSD, Ecstasy)
Can cause hallucinations that distort audio and visual perceptions. Can cause sudden changes in behavior that may result in attacks on others. Can also cause loss of concentration and memory after the drug has worn off.

Amphetamines
Can cause the feeling of being rushed and result in pushing oneself beyond capacity. Can disrupt family life and cause serious health problems such as kidney and liver disease.

Sanctions the School will impose
Any student found consuming or selling alcohol or drugs on school property will be subject to discipline on a case-by-case basis. Disciplinary action will be based on the seriousness of the situation. Some cases may result in dismissal from school. In all cases, the school abides by local, state and federal sanctions regarding unlawful possession of drugs and the consumption of alcohol by minors. All illegal drugs are governed by the program.

Counseling, Treatment and Rehabilitation Programs
In order to assist any student who may have a drug or alcohol problem, the following national toll-free phone numbers are provided. These associations can assist in identifying a counseling, treatment, or rehabilitation program.

- Al-Anon
  1-800-356-9996

- National Council on Alcoholism and Drug Dependence
  1-800-NCA-CALL

- Drug Free Workplace Helpline
  1-800-843-4971

- National Drug and Treatment Referral
  1-800-662-HELP
At Western International University the focus is on business. Each degree program provides a foundation in general education, followed by the fundamentals of business activity, and then the specialty of the selected major. Those successfully completing the Associate, Bachelor or Master degrees will be prepared, at various levels, for employment and/or advancement in the national and international work environments.

The WIU Teaching and Learning Model is a unique one: combining both the traditional and non-traditional approaches that best serve our adult and international student populations. Each session is two months in length, and new sessions start every month. On-ground classes meet nine times during that two-month period and are scheduled for four hours each, generally from 6 p.m to 10 p.m., Monday through Thursday, with occasional Saturday classes.

The WIU Faculty is also a blend of traditionally and non-traditionally prepared (Master-degree or higher) and working professionals; many with international experience. They bring both theoretical and practical knowledge and skill to their teaching and facilitate student collaboration to maximize teaching and learning.

To accommodate a variety of learning styles, teaching methods include lecture, discussion, in-class small group work, case study, projects, student presentations, and application of concepts and theory to real world situations. Students are encouraged to target their assignments to issues and projects directly related to their work.

To prepare students for successful employment and advancement in the business world, WIU also incorporates global, multicultural, and international perspectives in its curriculum and emphasizes communication (both written and oral), critical thinking, and computer skill development.

It is the University’s belief that any student who might benefit from enrollment in its programs is welcome. However, academic standards remain rigorous and require that students come to WIU prepared for university-level work or seek the preparation they need either before they begin their coursework or during their initial enrollment period. Learning is a social, and often a sequential, experience. Therefore, it is critical that students enroll with the commitment to attend and actively participate in all classes. It is important to take classes in the recommended order as detailed in the following program descriptions. All course prerequisites must be met prior to enrolling in courses which require them.

**WIU Policy for Graded Group Projects**

The Individualized learning model is paramount at Western International University. Students are graded on their individual work product and academic success is achieved through individual initiative.

However, an important part of success in the business world is the ability to participate in, or lead, groups of individuals focused on specific projects. Learning to work effectively with others in a group setting to accomplish project goals is considered an important part of the academic curricula and is therefore one of the University competencies students are required to achieve to earn their degrees.

To address this competency, courses may include small group projects relevant to the course content. Instructors may assign an overall grade to the group's work product. However, group work is to be designed in such a way that the contributions of its individual members may be recognized and graded. In addition to an overall group grade, students will receive a grade for their individual work in the group. The grade given for the overall work of the group will not make up over 20% of the final grade calculation of individual students.

Class time for group projects will be offered. It is not WIU’s expectation that students be required to meet outside the classroom to complete the group project, although some students may wish to spend a few minutes before or after class to refine projects.
Western International University Interactive Online learning offers a unique opportunity for students who wish to pursue their degrees but because of travel, time constraints, or simply preference, do not want to attend classes in an on-campus setting. Unlike most computer or web-based programs, WIU Interactive Online offers students the best of classroom interactivity combined with the flexibility of “no place and no time” constraints.

Unlike other online opportunities, WIU Interactive Online is not merely text and e-mail-based. The curriculum has been carefully designed to meet the needs of all types of learners by utilizing a variety of delivery methods. WIU Interactive Online combines live and recorded audio- and visual-based courses with web-based support. An easily accessed virtual classroom is created that provides visual presentations, group discussion, lectures, Internet exploration, and informal chat with other students and faculty.

If unable to participate in the live sessions, students may access recordings of them at a later time. The program combines the benefits of interactivity with maximum flexibility without a demand for sophisticated computer equipment and software.

University curriculum has been adapted to the WIU Interactive Online format. Information regarding this program may be obtained from the University Enrollment or Academic Counseling Departments.

Students enrolled in WIU Interactive Online courses are considered full-time students and follow all University policies and procedures regarding application, admission, registration, and course attendance.

The toll-free number for out of state inquiries is 1-866-WIUINFO.
## General Education Requirements

General Education courses provide foundation knowledge for all undergraduate degree programs. The requirements consist of 42 credits in the General Education Core and 18 credits in the General Education Selective block.

### Total General Education Requirements - 60 Credits

(All courses are 3 credits)

### General Education Core Requirements - 42 Credits

*Indicate courses requiring a prerequisite

### General Education Selective Requirements - 18 Credits

The General Education Selective credit block offers bachelor students the opportunity to pursue a variety of topics of interest, and fulfill prerequisites for their major.
Academic Program Requirements

Common Body of Knowledge (CBK)

A portion of all Associate and Bachelor degree programs are comprised of Common Body of Knowledge (CBK) courses which represent the fundamental competencies necessary for effective performance in business environments.

### Common Body of Knowledge (CBK) Requirements - 18 credits

Courses providing competencies common across all degree programs at WIU:
- ECO 301 Economic Theory
- INB 300 International Business

*Indicate courses requiring a prerequisite

- IT 300 Management Information Systems*
- MGT 340 Organization Theory and Behavior
- MGT 352 Political, Legal and Ethical Issues in Business
- RES 311 Quantitative Methods for Decision Making*

Associate of Arts in Business Degree

The Associate of Arts in Business degree provides students with a solid background of general knowledge in addition to a broad-based business foundation. The WIU AAB program is designed to assure that students wishing to continue their education are prepared to move directly into the Core and Major course requirements of any Bachelor degree program offered at WIU.

**Total number of credits required - 60**

AAB Degree Requirements:
- General Education Core Requirements - 42 credits
- Common Body of Knowledge Requirements - 18 credits

Additional Requirements:
- A minimum of 30 credits must be earned in residence at WIU.
- Students must maintain a minimum cumulative grade point average of 2.0 (C) or higher for all course-work at WIU.

Bachelor Degree Programs

Each Bachelor degree program provides students with foundations for life-long learning as well as productive careers. The General Education requirements encompass a breadth of knowledge that offers students an overall understanding of global issues and the basic skills useful in the continual learning process.

126 credits are required to receive a Bachelor degree from WIU. Credits are broken into five categories, each of which has a specific set of credit requirements. Because the courses in each category build upon those in the category before (i.e. Common Body of Knowledge courses build on General Education, and Core courses build on Common Body of Knowledge), it is strongly recommended that they be taken in the order listed to achieve the greatest degree of understanding and success throughout the degree program. The degree core and major requirements provide foundational and degree-specific knowledge and skills to prepare students for meaningful employment. (B.S. International Business degree requirements are categorized differently.)

**Total numbers of credits required - 126**

### Bachelor Degree Requirements:

- General Education Core - 42 credits
- General Education Selectives - 18 credits
- Common Body of Knowledge (CBK) - 18 credits
- Core Requirements - 15 credits
- Major Requirements - 33 credits

Additional Requirements:
- Students must earn a minimum of 36 credits in residence at WIU.
- A maximum of 72 lower division (100 and 200-level) credits may be applied to a WIU Bachelor degree program.

All courses listed as applicable to specific categories are offered by WIU. Transfer courses from other institutions that meet the intent of WIU course requirements may be applied. Transfer courses may be different from those offered by WIU but still may be applicable to General Education requirements. This is especially true in areas of social and behavioral sciences, mathematics and natural science. Please refer to the Transfer of Credit section of this catalog for additional information.

**Integrated Capstone Course**

The undergraduate Integrated Capstone course is a graduation requirement for all WIU undergraduate students. The course focuses on the integration of the General Education, Common Body of Knowledge, and Major course contents, and on the demonstration of mastery of the University and Program competencies.

Utilizing the skills and knowledge learned at WIU, students address real world issues in a collaborative format, and deliver results in a professional presentation at the end of class. Although the process is collaborative in nature, students are individually assessed and graded. A grade of C or better must be earned for graduation.

*The University reserves the right to make course substitutions.*
## Core Requirements

Because WIU’s Degree Programs are specialized, the University is divided into two colleges that provide focus to each degree program. The degree program or major chosen will determine the core requirements.

### College of Business and Technology

The College of Business and Technology provides education to equip students for assuming leadership positions in a variety of organizations. Majors that are housed in the College of Business and Technology are:

- Accounting (ACC)
- Business (BUS)
- Business Administration (BA)
- Information Technology (IT)
- International Business (INB)
- Management (MGT)

**Business Core – 15 credits**

Core requirements for ACC, BUS, BA, INB, and MGT are as follows:

- ACC 301 Financial Accounting
- ACC 302 Managerial Accounting*
- FIN 317 Financial Management*
- MGT 370 Operations Management*
- MKT 308 Marketing Management

**IT Core – 15 credits**

Core requirements for IT are as follows:

- IT 311 Fundamentals of Programming with Algorithms and Logic*
- IT 316 Analysis & Design of Information Systems*
- IT 318 Information Systems Architecture*
- IT 319 Computer Networking*
- IT 440 Project Planning & Execution*

### College of Liberal Arts

The College of Liberal Arts provides a broad education for professionals through specialized programs. Majors that are housed within the College of Liberal Arts are:

- Administration of Justice (ADJ)
- Behavioral Science (BEH)
- Human Resource Management (HRM)

**LA Core – 15 Credits**

Core requirements for ADJ, BEH, and HRM are as follows:

- BEH 304 Ethics & Values in a Free Society
- BEH 311 Social Psychology
- BEH 331 Human Relationships & Interpersonal Communications
- HRM 335 Human Resource Management
- MGT 337 Supervision and Leadership

## Bachelor of Arts in Administration of Justice

The Administration of Justice major provides foundations in criminal justice and law enforcement systems with a focus on management. Through exploration of common theory, methods and issues, students are provided background for further advancement.

The Bachelor of Arts in Administration of Justice program is offered only to organizations that wish to provide site-based instruction to their employees. The program has minimum enrollment requirements and enrollment is only open to employees of the sponsoring organization.

### General Education Requirements – 60 Credits

### Common Body of Knowledge and Liberal Arts Core – 33 Credits

**Major requirements – 33 Credits**

- ADJ 310 Justice System in America
- ADJ 320 Introduction to Criminology
- ADJ 330 Ethics and Administration of Justice
- ADJ 410 Police in the Community
- ADJ 420 Organizational Communication in Administration of Justice
- ADJ 430 Probation, Parole and Contemporary Corrections
- ADJ 440 International Justice Systems
- ADJ 450 Crime From the Streets to the Boardroom
- ADJ 460 Legal Issues in Criminal Justice
- 1 upper division elective from: ACC, BEH, FIN, HRM, INB, INS, IT, MGT, or MKT
- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**
## Academic Program Requirements

### Bachelor of Arts in Behavioral Science

The Bachelor of Arts in Behavioral Science degree program offers students a basic foundation in the diverse fields of psychology, social psychology, and human development and behavior. The program is experience-based and emphasizes the reciprocity of knowledge and direct application. Because of the breadth of its offerings, this major can be directly applied in multiple areas of business and corporate operations. It also has direct and immediate application in human services positions and operations, or can provide a solid base for advanced study in various behavioral science disciplines. Participation in this program will also enhance personal development through the acquisition of new knowledge and insight into group interactions and communications.

**General Education Requirements – 60 Credits**

**Common Body of Knowledge and Liberal Arts Core – 33 Credits**

**Major Requirements – 33 Credits**

- BEH 312 Personality Theories
- BEH 314 Humanistic Psychology
- RES 321 Behavioral Research Design, Tests & Measurement*
- BEH 405 Learning & Cognition
- BEH 407 Motivation & Achievement
- BEH 411 Lifespan Development*
- BEH 423 Group Dynamics: Teambuilding, Negotiation & Conflict Management
- BEH 430 Theories of Counseling*
- BEH 440 Abnormal Psychology*
- BEH 490 Contemporary Issues in Behavioral Science
- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**

### Bachelor of Arts in Human Resource Management

Human Resource professionals must respond to the challenges of federal, state, and local regulations. In addition, Human Resource professionals must be adept at dealing with behavioral dynamics in the workplace. Designed according to HRCI’s Body of Knowledge recommendations for the Professional in Human Resources (PHR) certification, WIU’s Bachelor of Arts in Human Resource Management prepares HR professionals to deal with organizational issues, employment practices, compensation and benefits, labor relations, and health, safety, and security programs. The degree prepares students for such positions as HR Generalist, HR Coordinator, Personnel Specialist, Training & Development Manager, Compensation Analyst, and Labor Relations Specialist.

**General Education Requirements – 42 Credits**

**Additional Degree Requirements – 6 Credits**

- COM 259 Oral Communication
- MAT 109 Business Math*

**Selectives – 12 Credits**

**Common Body of Knowledge and Liberal Arts Core – 33 Credits**

**Major Requirements – 33 Credits**

- BEH 405 Learning & Cognition
- BEH 407 Motivation & Achievement
- MGT 370 Operations Management*
- MGT 445 Corporate Training & Development*
- HRM 430 Employment Law*
- HRM 410 Staffing & Employment Practices*
- HRM 420 Health & Safety in the Workplace*
- HRM 430 Employment Law*
- HRM 460 Labor/Management Relations*
- 2 upper division electives from ACC, BEH, FIN, INB, INS, IT, MGT or MKT
- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**

### Bachelor of Science in Accounting

The Bachelor of Science degree in Accounting is designed to provide students with the professional background necessary for a rewarding and challenging career in public, private, or governmental accounting. The foundation courses needed for professional certification are included in the curriculum.

**General Education Requirements – 60 Credits**

**Common Body of Knowledge and Business Core – 33 Credits**

**Major Requirements – 33 Credits**

- ACC 303 Cost Accounting*
- ACC 304 Intermediate Accounting I*
- ACC 306 Intermediate Accounting II*
- ACC 317 Auditing*
- ACC 319 Federal Income Taxation*
- ACC 450 Corporate Taxation*
- ACC 405 Accounting Information Systems
- ACC 406 Governmental Fund Accounting*
- ACC 460 Advanced Accounting*
- 1 upper division elective from: BEH, FIN, HRM, INB, INS, IT, MGT or MKT
- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**
Academic Program Requirements

**Bachelor of Science in Business**

The Bachelor of Science in Business program is designed for students who want to acquire a solid foundation in general business, but have not yet decided in which area of business to specialize, or for those who wish to individualize their program. Students have the option to combine general business studies with a distinctive and rigorous minor in a selected business discipline. Minor courses provide excellent preparation for further graduate study. Students may choose 300- and 400-level courses (prerequisites must be met) in any discipline or combination of disciplines to fulfill 30 credits of major requirements.

Minors in Public Administration and Administration of Justice are offered to organizations that wish to provide site-based instruction to their employees. These programs require a minimum enrollment and are open only to employees of the sponsoring organization.

### General Education Requirements – 60 Credits

**Common Body of Knowledge and Business Core – 33 Credits**

- 10 upper division electives from: ACC, FIN, HRM, INB, IT, MGT, MKT or E-commerce and no more than 3 total from BEH and INS or
- Students may also elect to declare one minor as part of this program by concentrating 5 of the major courses in one discipline. [Note: Minors listed below carry specific requirements.]
- CAP 485 Integrated Capstone *

### Credits Required for Degree: 126

#### E-Commerce Minor Requirements

- IT 312 Internet Concepts*
- MGT 426 E-Commerce*
- MGT 431 Human Computer Interaction*

#### Finance Minor Requirements

- FIN 325 Portfolio Management*
- FIN 332 Professional Financial Planning
- FIN 344 Foundations of Financial Markets & Institutions*

#### Human Resource Management Minor Requirements

- HRM 335 Human Resource Management*
- HRM 430 Employment Law*
- HRM 410 Staffing & Employment Practices*
- HRM 420 Health & Safety in the Workplace*

#### International Business Minor Requirements

- GOV 380 World Political and Economic Systems
- Select 4 from:
  - INB 420 Import/Export Management
  - FIN 455 International Finance
  - MKT 452 International Marketing
  - HIS 378 History of the World Economies
  - INB 411 Economics and Business Environment: Europe/Russia
- INB 412 Economics and Business Environment: Middle East/Africa
- INB 413 Economics and Business Environment: Latin America
- INB 414 Economics and Business Environment: Pacific Rim
- INB 415 Economics and Business Environment: North America (eligible students only)

#### Marketing Minor Requirements

- MKT 415 Buyer Behavior Issues & Analysis
- MKT 434 Consumer Communications & Sales Management
- MKT 452 International Marketing*

- MKT 460 Marketing on the Internet*
- MKT 470 Strategic Issues in Marketing

Credits required for minor: 15
Academic Program Requirements

Bachelor of Science in Business Administration

Many organizations are interested in employees who have general business-related skills. Broad-based business skills are obtained by taking courses in the Common Body of Knowledge area and at least one course in each of the other business-related major areas: Accounting, Information Technology, Finance, Management, Marketing and International Business.

General Education Requirements – 60 Credits

Common Body of Knowledge and Business Core – 33 Credits

Major Requirements – 33 Credits

ACC 303 Cost Accounting*
FIN 344 Foundations of Financial Markets and Institutions*
IT 316 Analysis & Design of Information Systems*
HRM 335 Human Resource Management
MGT 465 Organization Development*
MGT 492 Seminar on Strategic Management Issues
MKT 434 Consumer Communications & Sales Management
3 upper division electives from: ACC, BEH, FIN, HRM, INB, INS, IT, MGT or MKT
CAP 485 Integrated Capstone*

Credits Required for Degree: 126

Bachelor of Science in Information Technology

The Bachelor of Science in Information Technology degree program provides a solid foundation for students who wish to pursue careers as information technology professionals, or for those who desire a more concrete understanding of the integral ways in which information technology impacts the business environment globally. Graduates are well prepared for entry-level positions in specialized areas such as systems analysis, business applications programming, business database design, decision support systems, networking technologies, and are also well prepared to advance from those positions. The CBK component of the BSIT program provides students with the knowledge of principles and practices required to achieve success in any of WIU’s business degree programs. The Technology Core enables students to understand and integrate the basic components in the IT environment, while building the logic skills necessary for system development. The major requirements introduce the most current and relevant topics affecting information technology in business.

General Education Requirements – 60 Credits

Common Body of Knowledge and Technology Core – 33 Credits

Major Requirements – 33 Credits

Select three programming courses from:

IT 302 Visual Basic*
IT 306 C++ Programming*
IT 307 Java Programming*
IT 308 XML/HTML Programming*
IT 402 Advanced Visual Basic*
IT 406 Advanced C++ Programming*
IT 407 Advanced Java Programming*
IT 408 Advanced XML/HTML Programming*

And take the following courses:

IT 312 Internet Concepts*
IT 421 Database Management*
IT 423 Software Engineering*
IT 450 Evaluation, Selection, & Implementation of Application Software*
IT 460 Quality Assurance & Configuration Management*
IT 480 IT Management*
1 upper division elective from: ACC, BEH, FIN, HRM, INB, INS, IT, MGT, MKT
CAP 485 Integrated Capstone*

Credits Required for Degree: 126
## Bachelor of Science in International Business

The global market and the Internet have forever changed the way the world does business. Graduates with skills and knowledge that go beyond national borders have become increasingly valuable and sought-after. WIU’s Bachelor of Science in International Business program introduces students to international finance, marketing, economics, and import/export, in addition to providing the opportunity to study the social, cultural, political, economic, and business nuances of selected regions of the world.

### General Education Requirements – 60 Credits

#### Common Body of Knowledge and Business Core – 33 Credits

#### Language Requirement – 6 Credits

Six credits of one language that have not been taken in satisfaction of the General Education requirements:

- FRN 258 French I
- FRN 259 French II*
- GER 262 German I
- GER 263 German II*
- SPN 254 Spanish I
- SPN 255 Spanish II*

#### Major Requirements – 27 Credits

- HIS 378 History of World Economies
- GOV 380 World Political & Economic Systems
- INB 420 Import/Export Management*
- FIN 455 International Finance*
- MKT 452 International Marketing*

*Note: INS 326 and INS 328 cannot apply to this degree program

Select one of the following 6 credit regional focuses:

- INB 411 Economic and Business Environment: Europe & Russia
- INS 321 Cultural & Social Environment: Europe & Russia
- INB 412 Economic and Business Environment: Middle East/Africa
- INS 324 Cultural & Social Environment: Middle East & Africa
- INB 413 Economic and Business Environment: Latin America
- INS 323 Cultural & Social Environment: Latin America
- INB 414 Economic and Business Environment: Pacific Rim
- INS 320 Cultural & Social Environment: Pacific Rim
- INB 415 Economics and Business Environment: North America
- INS 329 Cultural & Social Environment: North America (eligible students only)

*Note: INS 326 and INS 328 cannot apply to this degree program

- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**

## Bachelor of Science in Management

Effective management requires individuals who can implement the process involved in creating the proper business environment. A professional business background is required to enable managers to achieve bottom-line results. Furthermore, the management graduate must be trained in a broad-based leadership program. The Management degree curriculum provides graduates with skills necessary to lead and manage effectively within a dynamic business environment.

### General Education Requirements – 60 Credits

### Common Body of Knowledge and Business Core – 33 Credits

### Major Requirements – 33 Credits

- HRM 335 Human Resources Management

*Note: INS 326 and INS 328 cannot apply to this degree program

- BEH 423 Group Dynamics: Teambuilding, Negotiation & Conflict Management
- MGT 426 E-Commerce*
- MGT 445 Corporate Training and Development*
- HRM 460 Labor/Management Relations* 
- MGT 461 Project Management
- MGT 463 Management of Small Business
- MGT 465 Organization Development*
- MGT 492 Seminar on Strategic Management Issues
- 1 upper division elective from: ACC, BEH, FIN, HRM, INB, INS, IT, MGT or MKT
- CAP 485 Integrated Capstone*

**Credits Required for Degree: 126**
Academic Program Requirements

Master Degree Programs
Each Master Degree Program is comprised of Core and Major course requirements. The undergraduate prerequisites provide foundation for the theoretical concepts and analytical techniques critical to understanding graduate level coursework. The Core builds on the prerequisite courses, extending the application of the concepts and techniques of business functions.

Core courses are to be completed after the prerequisites and prior to taking major courses. Core courses also build upon each other, therefore it is strongly recommended that they be taken in the order listed to achieve the greatest degree of understanding and success throughout the degree program. Also, since courses are scheduled in rotations, taking them in order will prevent students from missing courses that may not be offered for another year.

Major course requirements provide students with the opportunity to build competence in a specific business discipline.

A maximum of 6 graduate level transfer credits may be applied to the managerial core and/or major requirements.

40 credits are required to receive a Master Degree from WIU exclusive of prerequisites. Credits are broken into three categories, each with a specific set of course requirements.

- Undergraduate Prerequisite Requirement
- Core Requirements
- Major Requirements

Students must:
- Achieve a cumulative grade point average of at least 3.0 for all graduate work at WIU.
- Earn a minimum of a B grade in RES 785.

Applied Thesis
All Master degree programs at WIU require successful submission of an Applied Thesis for graduation. This allows students to relate coursework to real-world situations. The first course required is RES 600 Graduate Research Methods. During this course, students gain knowledge and skills of applied and major coursework for development of their topic of study.

After completion of the Core requirements, students complete RES 601 Applied Thesis Fundamentals. This course provides orientation to the Applied Thesis process as well as confirms and develops the topic of study for RES 785 Applied Thesis Seminar.

The Applied Thesis is an in-depth and critical analysis of a topic selected for study and is expected to be approximately 100 pages. The analysis must demonstrate integration of the knowledge and skills obtained in the Master degree, use of the research process, collection of primary and/or secondary data to answer the stated question, a conclusion and specific recommendations as well as effective writing skills and appropriate use of the University’s Writing Style Guidelines.

Students are required to develop and deliver a professional presentation on the findings, conclusions and recommendations of their Applied Thesis.

Students must have achieved a 3.0 GPA to be eligible to enroll in RES 785 and earn a B or better in the course to graduate.

The University reserves the right to make course substitutions.

Master of Business Administration Degrees
For business professionals interested in moving into higher management, an MBA is an important prerequisite. Many professionals currently working as managers also pursue MBA degrees to update their business skills. WIU’s Master of Business Administration degree programs prepare students for responsible leadership positions in the fields of finance, information technology, international business, management or marketing by focusing on the application of up-to-date business theories and principles to real world situations.

All MBA degree-seeking students are strongly encouraged to subscribe to an industry journal (such as Barron’s, Wall Street Journal, etc.) to keep abreast of current issues in business. Some individual courses will require extensive use of these resources in addition to the required text. Students can also access industry journals via the WIU Online Library, and/or industry websites.

MBA Undergraduate Prerequisites – 9 credits
- Managerial Core Requirements - 19 credits
- Major Requirements - 21 credits

Total number of graduate credits required – 40
**Academic Program Requirements**

**Master of Business Administration Undergraduate Prerequisites - 9 Credits**

The following undergraduate courses or their equivalents are required prior to taking any of the major courses. If knowledge has been gained through means other than completion of courses, students should contact their Academic Counselor for information on the Assessment of Prior Learning program.

- ACC 305 Financial and Managerial Accounting
- FIN 317 Financial Management*
- MGT 340 Organization Theory and Behavior

**Managerial Core Requirements - 19 Credits**

The Managerial Core courses are uniquely designed to provide the MBA degree candidate with a broad perspective of the business environment prior to entering into a major area of concentration. As all functions of business interrelate, the Managerial Core assists students in being able to integrate these functions prior to specialization.

The Managerial Core is a prerequisite to the major and must be completed before taking major courses.

- RES 600 Graduate Research Methods
- INB 601 International Business Environment
- IT 620 Information Resource Management
- MGT 625 Strategic Management*
- FIN 645 Corporate Finance*
- MKT 646 Strategic Concepts in Marketing
- RES 601 Applied Thesis Fundamentals (1 credit)*

**Master of Business Administration in Finance**

Financial analysis and decision-making is central to the corporate environment. Because business conditions continue to be unpredictable, there will be a greater need for highly educated yet practical financial managers. The MBA in Finance is designed to provide a quantitative and qualitative concentration of courses leading to a corporate-related finance position.

**MBA Undergraduate Prerequisites - 9 Credits**

**Managerial Core Requirements - 19 Credits**

**Major Requirements - 21 Credits**

- FIN 660 Security Analysis*
- FIN 665 Money and Capital Markets

**Credits Required for Degree: 40**

**Master of Business Administration in Information Technology**

The MBA Information Technology program prerequisites provide general business foundations upon which the Managerial Core builds executive management skills. The IT Major extends this knowledge by integrating and leveraging the technology concepts of collection, retention, and dissemination of information for management planning control, decision-making, and competitive advantage. The program blends theory and practice into a learning experience that develops skills applicable to complex business problems.

**MBA Undergraduate Prerequisites - 9 Credits**

**Managerial Core Requirements - 19 Credits**

**Major Requirements - 21 Credits**

- IT 615 Integrated/Strategic Information Systems*
- IT 630 Technology Project Management*
- IT 638 Economics of Information Systems and Proposal Management*
- IT 645 Internet Business Strategy*
- IT 699 Seminar on Issues and Trends in IT*
- 1 graduate elective from FIN, INB, IT, ITS, MGT, MKT
- RES 785 Applied Thesis Seminar*

**Credits Required for Degree: 40**

## Academic Program Requirements

### Master of Business Administration in International Business

The evolving global economy is increasing demand for highly skilled managers with knowledge of international business practices, foreign cultures, finance, marketing, economics, and information technology. WIU’s MBA in International Business prepares students to assume major responsibilities within international, multinational, and global organizations. Students learn to evaluate risk and adapt business practices to conform to different cultural and political environments.

**MBA Undergraduate Prerequisites - 9 Credits**

**Language/International Studies Course Prerequisites - 6 Credits**

**Managerial Core Requirements - 19 Credits**

**Major Requirements - 21 Credits**

### Master of Business Administration in Marketing

Major corporate changes occur quickly. The challenge of aligning these changes is placed on the marketing organization. Companies in a state of transition attempt to refocus their domestic market and prepare for future domestic and global markets. As competition increases worldwide, corporations are becoming more sophisticated in meeting operational needs for timely product development and marketing. The MBA in Marketing prepares students for the challenges of the future.

**MBA Undergraduate Prerequisites - 9 Credits**

**Managerial Core Requirements - 19 Credits**

**Major Requirements - 21 Credits**

Master of Public Administration Program

Master of Public Administration

The ability to exercise responsible leadership in a public service setting is the goal of WIU's Master Degree Program in Public Administration. The program is designed to provide advanced study in the public and non-profit sectors and focuses on analytical and managerial skills, coupled with operational and administrative theory and practice for government and/or non-profit organization management. The Master of Public Administration Program is offered only to organizations that wish to provide site-based instruction to their employees. The program requires a minimum enrollment and is open only to employees of the sponsoring organization.

MPA Undergraduate Prerequisites – 9 Credits

The following undergraduate courses are required prior to taking major courses:
- ACC 305 Financial and Managerial Accounting**
- MGT 340 Organization Theory and Behavior**
- MGT 352 Political, Legal and Ethical Issues in Business**

Managerial Core Requirements – 10 Credits
- RES 600 Graduate Research Methods
- IT 620 Information Resource Management

Major Requirements – 30 Credits
- MGT 625 Strategic Management*
- RES 601 Applied Thesis Fundamentals (1 credit)*

Credits Required for Degree: 40

Master of Science Degrees

The Master of Science (MS) Degree Program offers coursework to prepare IT professionals for advanced information technology design and engineering. Both the Information Technology and the Information Systems Engineering degrees position graduates for maximum marketability in a rapidly changing and growing technical arena.

MS Undergraduate Prerequisites – 9 credits
- Information Technology Core - 22 Credits
- Major Requirements - 18 credits

Total number of graduate credits required – 40

Master of Science Undergraduate Prerequisites - 9 Credits

The IT undergraduate prerequisites provide the principles and concepts necessary for success in the Master of Science degree programs and are required prior to taking any of the major courses:
- IT 311 Fundamentals of Programming with Algorithms and Logic*
- IT 316 Analysis & Design of Information Systems*

Select one from:
- IT 302 Visual Basic*
- IT 306 C++ Programming*
- IT 307 Java Programming*
- IT 308 XML/HTML*
- IT 402 Advanced Visual Basic*
- IT 406 Advanced C++ Programming*
- IT 407 Advanced Java Programming*
- IT 408 Advanced XML/HTML Programming*
## Academic Program Requirements

### Master of Science Information Technology Core - 22 Credits

The IT Core provides advanced knowledge of software engineering, integrated data resource management, and e-business strategies.

- RES 600 Graduate Research Methods
- IT 615 Integrated/Strategic Information Systems
- IT 630 Technology Project Management

*Indicate courses requiring a prerequisite

### Master of Science in Information Systems Engineering

Preparing students for leadership roles in design, development and implementation of information systems, the MSISE degree focuses on the theory, methods and practices of building effective systems. Prior to beginning the MSISE, students must demonstrate fundamental knowledge of information technology principles, either through a technical baccalaureate degree or through successful completion of the undergraduate prerequisites. The MSISE major extends students’ knowledge from the IT Core through coursework in topics specifically related to engineering and building information systems.

#### Information Systems Undergraduate Prerequisites - 9 Credits**

#### IT Core Requirements - 22 Credits

- IT 643 Telecommunication/Satellite Systems Engineering *
- IT 660 Security Systems Engineering *
- IT 670 Project Verification & Validation *
- IT 680 Intrusion Detection & Analysis: Security Beyond the Firewall *

- 1 graduate-level IT elective or IT-related internship
- RES 785 Applied Thesis Seminar *

#### Credits Required for Degree: 40

### Master of Science in Information Technology

The Master of Science in Information Technology program is designed to provide the knowledge and skills necessary to design, develop, implement and manage the Information Technology function within the enterprise environment. The major requirements provide valuable knowledge in the use of technology within the global environment and the role of the technology professionals.

#### Information Systems Undergraduate Prerequisites - 9 Credits**

#### IT Core Requirements - 22 Credits

- IT 641 Global Information Systems *
- IT 642 Information Networks *
- IT 674 Leadership Skills for Technology Managers *
- IT 699 Seminar on Issues and Trends in Information Technology *

- 1 graduate-level IT elective or IT-related internship
- RES 785 Applied Thesis Seminar *

#### Credits Required for Degree: 40
WIU's Certificate Programs have been specifically designed to provide the functional knowledge required for effectiveness in accountancy and financial planning and to prepare students to sit for state board exams.

- Certificates are awarded upon successful completion of the program with an overall undergraduate GPA of 2.0, and an overall graduate GPA of 3.0.
- Certificate program course syllabi are available to professional organizations for continuing educational units (CEUs).

**Enrollment Process:**
Applicants for admission into Certificate programs must:

- Complete and sign WIU Application for Admission form
- Pay a non-refundable application fee
- Provide documentation of eligibility for enrollment in selected program
- Attend WIU New Student Orientation

### Post-Bachelor Certificates

#### Accountancy Certificate
The WIU Certificate is designed to fully prepare student from any discipline for the Arizona CPA exam (see below) but the certificate is also a valuable professional credential for students who do not wish to take the CPA exam. The WIU Certificate requires 54 credits in accounting and related areas. Students may transfer any or all prerequisites as well as a maximum of 24 credits in accounting and related course requirements for the WIU Certificate.

**Certificate Program Prerequisites**
- MAT 109 Business Mathematics*  
  or
- MAT 110 Algebra I*
- ECO 301 Economic Theory
- RES 311 Quantitative Methods for Decision Making*

**Certificate Requirements**
- ACC 301 Financial Accounting
- ACC 302 Managerial Accounting*
- ACC 303 Cost Accounting*
- ACC 304 Intermediate Accounting I*
- ACC 306 Intermediate Accounting II*
- ACC 317 Auditing*
- ACC 319 Federal Income Taxation*
- ACC 405 Accounting Information Systems
- ACC 406 Governmental Fund Accounting*
- ACC 412 Accounting Theory
- ACC 450 Corporate Taxation*
- ACC 460 Advanced Accounting*
- MGT 352 Political, Legal and Ethical Issues in Business

*Indicate courses requiring a prerequisite

Any 15-credit combination of related courses from the following:
- FIN 317 Financial Management*
- FIN 325 Portfolio Management*
- FIN 332 Prof. Financial Planning
- FIN 341 Financial Markets*
- FIN 412 Working Capital Management*
- FIN 423 Financial Systems & Institutions
- FIN 455 International Finance*
- HRM 335 Human Resources Management
- MGT 337 Supervision & Leadership
- MGT 340 Organization Theory & Behavior
- MGT 370 Operations Management*
- MGT 426 E-Commerce*
- MGT 431 Human Computer Interaction*
- MGT 445 Corporate Training & Development
- MGT 463 Management of Small Business
- HRM 460 Labor/Management Relations*
- MGT 465 Organizational Development*
- MGT 308 Marketing Management
- MGT 415 Consumer Behavior Issues & Analysis
- MGT 434 Consumer Communications & Sales Management
- MGT 452 International Marketing*
- MKT 460 Marketing on the Internet*
- MGT 470 Strategic Issues in Marketing

**Arizona State Board of Accountancy Exam Qualifications**
To qualify for examination applicants must hold a Bachelor degree (in any discipline) from WIU or other regionally-accredited college or university. Required coursework includes 36 accounting credits (30 of which must be upper division) and 30 credits of related coursework. These courses may be taken as part of, or in addition to, a baccalaureate program.
Clients’ increasing knowledge and financial sophistication is applying new pressure to the financial services industry for financial planners to be certified. The WIU CERTIFIED FINANCIAL PLANNER™ Certification Education Program is comprised of five two-month courses that meet the educational component of the CFP Board's CFP® certification requirements, and prepares students for certification in just ten months. The classroom setting gives students an opportunity to establish relationships with peers and professionals from a variety of areas within the financial services industry. A test is required at the completion of each course; students must pass all course tests before sitting for the CFP® Certification Examination. For our students’ convenience, WIU has traditionally been used as a test site for the CFP® Certification Examination. Financial planning courses do not carry academic credit. Students may submit these courses for evaluation by the Assessment of Prior Learning Center to receive academic credit applicable at WIU. See page 67 for course descriptions.

The program requires a minimum enrollment or a sponsoring organization.

Certified Financial Planner Board of Standards Inc. owns the marks CFP®, CERTIFIED FINANCIAL PLANNER™ and . Western International University does not certify individuals to use the CFP®, CERTIFIED FINANCIAL PLANNER™, and marks. CFP certification is granted solely by the Certified Financial Planner Board of Standards to individuals who, in addition to completing an educational requirement such as this CFP Board-Registered Program, have met ethics, experience and examination requirements.
Western International University courses listed below are offered as part of current programs or former programs still in progress.

**ACC 301 Financial Accounting**
The basic knowledge of the financial accounting process is covered in this course. Major topics include accounting terminology, concepts, standards, and the accounting cycle that measures business activities in the form of transactions and transforms them into financial statements. (3 credits)

**ACC 302 Managerial Accounting**
This introductory course to corporate accounting emphasizes the needs of corporate management to obtain not only meaningful financial reports, but also to gather information that enables them to operate effectively. Accounting for manufacturing entities and various costing systems is emphasized. (3 credits)
Prerequisite: ACC 301

**ACC 303 Cost Accounting**
This course reviews planning and control functions of a cost accounting system, e.g., cost data accumulation methods, responsibility accounting and reporting, and planning and control of manufacturing costs and profits. Different cost systems are studied as well as pricing philosophies related to the alternate systems. (3 credits)
Prerequisites: ACC 301 and 302

**ACC 304 Intermediate Accounting I**
This course provides an in-depth discussion and analysis of theory and techniques for preparing corporate financial statements. It covers an expanse of accounting principles and practices with emphasis on integrated applications and systems. (3 credits)
Prerequisite: ACC 303

**ACC 305 Financial and Managerial Accounting**
This course provides an overview of the integral role of accounting information in making key business decisions. It includes a study of basic financial and managerial accounting theory and practices. Emphasis will be on the uses of accounting information for financial statement analysis, managerial decision-making, planning, control and budgeting. (3 credits)
Prerequisite for MBA and MPA degrees

**ACC 306 Intermediate Accounting II**
This course provides an in-depth discussion and analysis of significant accounting principles as well as an in-depth study of corporate financial statements. There is a major focus on the principles for recording transactions involving stocks, bonds, leases and various long term investments. (3 credits)
Prerequisite: ACC 304

**ACC 307 Auditing**
The philosophy and theory of professional auditing practices are covered in this course. It includes a study of auditing standards, professional ethics and the legal liability of auditors. An analysis of the major audit opinions, audit reports and steps in the auditing process are emphasized. (3 credits)
Prerequisite: ACC 306

**ACC 309 Federal Income Taxation**
The major focus of this course is on tax issues for individuals, understanding the current federal tax structure, and the integration of techniques for tax preparation, planning and management. Taxation of partnerships, corporations, trusts, and estates is also covered. (3 credits)
Prerequisites: ACC 306

**ACC 305 Accounting Information Systems**
The design and operation of a computer/information system accounting process is the focus of this course. Additional topics include: current developments/issues related to accounting; procedures required within the software/hardware environment; and concerns arising from accounting and information systems integration. (3 credits)

**ACC 406 Governmental Fund Accounting**
This course covers accounting practices and procedures for governmental and non-profit entities. Topics include developing major fund accounts, account groups, budgets and financial statements. Current financial and compliance auditing standards are also covered. (3 credits)
Prerequisites: ACC 301 and ACC 302, or ACC 305

**ACC 405 Corporate Taxation**
A comprehensive study of corporate federal income taxation, this course includes corporation formation, capital structure, operations, and liquidations. Although the emphasis of the course is on the corporate entity, the student will also be exposed to the taxation of partnerships, estates, limited liability companies and trusts. (3 credits)
Prerequisite: ACC 319

**ACC 412 Accounting Theory**
This course begins with a study of accounting literature and the evaluation of the forces that have contributed to generally accepted accounting principles. With this knowledge, the focus of the course is to promote an understanding of contemporary accounting issues as related to financial reporting with an emphasis on recent accounting trends and contemporary controversial topics in accounting. (3 credits)
ACC 460 Advanced Accounting
The focus of this course is on accounting principles relating to combined corporate entities, partnerships, governmental units and international operations. Consolidations, business combinations, branch office accounting, foreign exchange rates and financial statements are included. Exploration of the major literature in accounting, including the publications of the associations and regulatory bodies, is an integral part of the course. (3 credits)
Prerequisite: ACC 306

ADJ 310 Justice System in America
This course examines the criminal justice system as a process, including the laws upon which it is based. The main thrust is to establish an understanding of the roles of police, corrections, probation and parole, and the underlying structure of law and the U.S. legal system. (3 credits)

ADJ 320 Introduction to Criminology
The purpose of this course is to study the theories of causation of crime and the effects of deviant behavior on the law and its enforcement. The major focus will be on the various motivations that cause individuals to choose to violate society’s standards. (3 credits)

ADJ 330 Ethics and the Administration of Justice
Criminal justice professionals are faced with a myriad of issues that can bring into question their integrity or that of the organization. This course examines the profession, ethical issues and ways to resolve them. (3 credits)

ADJ 410 Police in the Community
This course explores the dynamic roles and perspectives that impact the police in their relationships with the communities they serve. Included is a study of the variety of cultures/cultural differences professionals face. (3 credits)

ADJ 420 Organizational Communication in the Administration of Justice
This course addresses the various levels and styles of communication used by managers and supervisors in justice organizations. It will critically examine the manner in which justice agencies communicate internally and externally, including collaboration within and across various public bureaus. (3 credits)

ADJ 430 Probation, Parole and Contemporary Corrections
The focus of this course is on the development of modern correctional systems, including community-based alternatives to incarceration for offenders. Various community residential programs will be analyzed. (3 credits)

ADJ 440 International Justice Systems
A variety of international systems will be compared and similarities and differences will be reviewed and evaluated. (3 credits)

ADJ 450 Crime from the Streets to the Boardroom
This course explores the broad aspects of criminal activity from the gangs on the street to the corporate level. Justice managers must be aware of the insidious aspects of crime and how it affects their agencies. Areas covered include the traditional view of organized crime, gangs and white-collar crime. This course will also address the impact of this crime both at national and international levels. (3 credits)

ADJ 460 Legal Issues in Criminal Justice
This course examines the legal issues affecting the justice manager including civil liability, labor law, civil rights and current case law. Cases will be reviewed to understand and appreciate the legal factors, public policy and methods of reducing risk. (3 credits)

BEH 221 Introduction to Behavioral Science
As a survey in behavioral sciences, this course focuses on human motivation, personality, learning and cognition. The theories and insights of major figures in psychology are discussed. (3 credits)

BEH 304 Ethics and Values in a Free Society
This course examines core social and cultural values, norms, and ethics in a free and democratic society. Specific ethical and values issues relating to materialism, race, gender, power, truth, religion, aggressiveness, peace, achievement, altruism, and other areas are also explored. Possible explanations for the development of values and ethics are discussed (e.g., structural-functional analysis, social conflict theory, and sociobiology.) (3 credits)

BEH 311 Social Psychology
This course provides students with an introduction to social psychology. Topics to be covered include social perception, attitudes, social influence, group and interpersonal processes, assertiveness and strategies for promoting healthy relationships. (3 credits)

BEH 312 Personality Theories
This course explores major theories and approaches to understanding human personality. Thought-provoking societal, cross-cultural and gender issues, and practical applications are integrated into the course content to enhance critical thinking. (3 credits)

BEH 314 Humanistic Psychology
This course introduces the basic, more applicable, ideas and principles of Humanistic Psychology. This study encompasses an examination of a range of contributors and contributions to the field. Attention will be directed to how these concepts are already manifest and/or can be applied in everyday life. (3 credits)
BEH 331 Human Relationships and Interpersonal Communication
An analytical approach to communication in close relationships, including friendships, marriage, and family, this course explores effective vs. ineffective (dysfunctional) relating and communicating across various interpersonal dimensions (e.g., assertiveness vs. passivity and aggressiveness). (3 credits)

BEH 405 Learning and Cognition
This course examines theories and concepts of learning and memory. Other cognitive areas explored include human information processing, concept attainment, problem solving, reasoning, decision-making, and creativity. (3 credits)

BEH 407 Motivation and Achievement
This course explores evolutionary, sociobiological, environmental, and cognitive influences on human motivation and achievement. Students examine the attributes, attitudes, and abilities (e.g., learned optimism, assertiveness, creativity, and internal “locus of control”) that increase personal effectiveness and facilitate achievement. (3 credits)

BEH 411 Lifespan Development
Introducing the principles and problems of human development, this course explores life stages from the prenatal period through old age. Emotional, social, psychosocial, cognitive, moral, personality, psychological and physical development at each stage of life is addressed in this course. (3 credits)
Prerequisite: BEH 221

BEH 423 Group Dynamics: Teambuilding, Negotiation and Conflict Management
This course examines effective vs. ineffective functioning of groups and teams and how leaders emerge. Conceptually and through simulated (role-playing) activities, brainstorming, group problem solving and decision-making, negotiating, and “no-lose” conflict resolution are explored. (3 credits)

BEH 430 Theories of Counseling
This course examines various theoretical approaches to counseling and psychotherapy. Ethical issues, integrative perspectives, and counseling models are illustrated by the use of case studies. (3 credits)
Prerequisite: BEH 312

BEH 440 Abnormal Psychology
This course examines major categories of emotional, psychological, and mental disorders, using both the textbook and the Diagnostic and Statistical Manual (DSM-IV). Psychological influences, lifespan development, cultural factors, and societal change are explored relative to the manifestation and treatment of psychopathology. The course provides information useful for work in employee assistance programs, human resource departments, and risk assessment. (3 credits)
Prerequisites: BEH 312 & BEH 411

BEH 490 Contemporary Issues in Behavioral Science
A list of broad topic areas in Behavioral Science/Human Services, developed by the faculty, will be provided for student selection. A topic will be formulated, researched, written, and eventually presented to the class. At the discretion of the instructor, other basic issues in Behavioral Sciences may be presented and examined. The course will also provide an opportunity to examine future options for graduate study and/or career opportunities in Human Services. (3 credits)

CAP 485 Integrated Capstone
The Integrated Capstone Course helps students to synthesize the knowledge and skills that were learned in General Education and Common Body of Knowledge classes with the functional, theoretical and technical skills and knowledge acquired in the Core and Major courses. The goal of the course is to create a dynamic inter-disciplinary learning experience, where organizational issues are viewed from various perspectives. Students will also assess and demonstrate their mastery of University and program competencies. (3 credits)
Prerequisite: Student must have completed at least 114 credits prior to taking.

COM 210 Written Communication
Internal and external business communications using nonverbal techniques are addressed in this course. Major topics are how to effectively write job-related communiqués such as letters, memos, résumés, bids and proposals. (3 credits)
Prerequisite: ENG 102

COM 259 Oral Communication
This course covers interpersonal, small group and public oral communication with an emphasis on committee reporting, management briefing, television conferencing and public presentations using multi-media technologies. (3 credits)

CRT 201 Critical Thinking
This course is designed to help students develop the ability to think both clearly and critically. Emphasis is placed on recognizing fallacious reasoning; unclear or misleading language including sexism and connotative terms; and manipulative techniques used in various forms of communication. (3 credits)

ECO 276 Money and Banking
Money in all its forms and its role in the banking system underpin the economic conditions of all developed countries. This course examines the effects of money on the U.S. economy and its interactions internationally. Topics include the Federal Reserve System, instruments of central banks, electronic banking, monetary and fiscal policy of government and its effects on economic activity. (3 credits)
Course Descriptions

ECO 301 Economic Theory
This course introduces fundamental economic theory in both microeconomics and macroeconomics. Economic principles are studied and their application and impacts on all aspects of economic life are analyzed and discussed. Topics covered include supply, demand, consumption, production, investment, money, inflation, interest rates, unemployment and economic growth. (3 credits)

ENG 070 Business Writing
Business Writing is a foundational course designed to develop writing skills essential to academic success at WIU and in the world of international business. Students learn essay writing techniques, how to write a summary and analysis, methods of research paper completion, business letter writing and ways to successfully answer essay-type exam questions. ESL students may enroll concurrently in one other WIU course. Grading for this course is P/F. (3 credits)

ENG 101 English Composition I
This course promotes standard writing skills and helps students become better readers and writers. It emphasizes grammatical usage, mechanical writing skills, writing for coherence and correctness and basic documentation skills. Expository techniques of paragraphs, short messages and research reports are covered. (3 credits)

ENG 102 English Composition II
This course continues to build writing skills as students explore the strategies for organizing, writing and documenting a research paper in a specified style. (3 credits) Prerequisite: ENG 101

ENG 107 Business English for Special Programs
This is a non-degree course designed for international students enrolled in special programs such as the Executive Master of Business Administration (EMBA) degree program. This ESL course is customized to meet the needs of groups at various levels of English proficiency. The course will help students develop their knowledge of business vocabulary and concepts. In addition, academic skill building in the areas of speaking, researching topics and writing may be included. (3 credits) Prerequisite: ESL placement test

FIN 317 Financial Management
This course introduces the student to all aspects of the finance industry through analysis of industry, corporate and government information. Major areas covered include asset management, financial analysis, sources and uses of funds, capital budgeting, cost of capital, multinational finance, and financial planning. (3 credits) Prerequisites: ACC 301 and ACC 302 (or ACC 305 for MBA prerequisites)

FIN 325 Portfolio Management
An overview of information needed to invest successfully, this course covers analysis of risk and return, portfolio theory, stock and bond management, measurement, measures of investment performance, options and futures and definitions of market efficiency. The effects of government policies, both national and international, are discussed. (3 credits) Prerequisite: FIN 317

FIN 332 Professional Financial Planning
An introduction to the concept of an overall financial plan and the elements of creating and executing such a plan for individuals is the course focus. Topics covered include money management, investment alternatives, taxation, retirement planning and establishing financial goals. Individual personal
financial plans are developed and reviewed by each student. (3 credits)

FIN 344 Foundations of Financial Markets and Institutions
This course covers all the participants in national and global markets, both individual and institutional, and analyzes their motivations, operations and measurements of performance. The interaction of governments, corporations, individuals gain understanding of the impacts of each on the capital markets. (3 credits) Prerequisite: ECO 301

FIN 412 Working Capital Management
This course introduces the guidelines, objectives and methodologies to successfully manage national and international corporate short-term assets, liabilities and working capital. Emphasis is given to liquidity levels, cash management, credit policies, bank relationships, factoring, inventory controls and current asset and liability management. (3 credits) Prerequisites: ECO 301 and FIN 317

FIN 455 International Finance
An overview of all aspects of the major international markets, with some study of emerging markets, is presented in this course. Students learn international financing alternatives, currency fluctuation sources, international situations, the effects of government actions, international lending policies and balance sheet effects of international financing. (3 credits) Prerequisite: FIN 317

FIN 645 Corporate Finance
This course focuses on the various methods necessary to analyze all aspects of corporate financial management. Major areas covered include balance sheet and income statement analysis, leverage, operating and capital budgets, capital structure, liquidity, cost of capital and lease financing. The analysis and interpretation of interest rates, inflation, monetary and fiscal policies as they impact corporate financial growth are discussed. Real world situations are emphasized. (3 credits) Prerequisite: FIN 317 or equivalent

FIN 660 Security Analysis
This course covers all aspects of corporate financial analysis for individual companies, as well as major industry participants. It addresses the importance of understanding structures and history of corporations, balance sheet and income statement analysis, ratio analysis, industry comparisons, analysis of historical growth patterns and valuations techniques for the capital markets. (3 credits) Prerequisite: FIN 645

FIN 665 Money and Capital Markets
National and international monetary and fiscal policy and the effects of those policies on global capital markets will be addressed. Also covered are the U.S. Federal Reserve, the World Bank, the International Monetary Fund and other government agencies, as well as interest rates, inflation, currencies, futures markets and individual country economic growth. (3 credits)

FIN 670 Mergers and Acquisitions
This course analyzes the planning, structure, development and eventual execution of mergers and acquisitions. Topics covered include asset valuation, leverage, debt, interest rates, personal policies, accounting treatment, tax effects and ultimate successful completion of a merger or acquisition. (3 credits) Prerequisite: FIN 645

FIN 675 Multinational Financial Management
This course describes the financial management of multinational enterprises. Included are international monetary relationships, currency implications, international financial institutions, international capital markets and the interaction of global events on the decision making processes of international organizations. The conceptual framework and techniques to analyze key financial decisions of multinational enterprises are also provided in this course. (3 credits)

FIN 680 Financial Modeling
This course covers general and financial models, computer-based financial models and specific financial model cases. Major areas covered include model variables, objectives, dependencies, and decision support systems with student projects to facilitate understanding of financial modeling applications in financial management. (3 credits)

FRN 258 French I
In this introductory level course the focus is on essential vocabulary for basic oral communication and written expression at an elementary level. A brief survey of French culture and commercial/cultural mores, standards and etiquette is included. (3 credits)

FRN 259 French II
Oral and written skills are further developed with an emphasis on practical, business, and travel-related contexts. (3 credits) Prerequisite: FRN 258

GER 262 German I
In this introductory level course the focus is on essential vocabulary for use in practical and professional contexts of oral and written expression. A brief survey of German culture and commercial/cultural mores, standards and etiquette is included. (3 credits)
Course Descriptions

GER 263 German II
Oral and written skills are further developed with an emphasis on practical, business, and travel-related contexts. (3 credits)
Prerequisite: GER 262

GOV 250 Economic Geography
Economic Geography examines the environmental factors (such as transport, market demand or business regulation) that determine the locations of economic activities. This course will provide the student with the ability to identify major areas of economic development, examine linkages between locations, predict future regions of economic growth and evaluate how changes in the global economy may affect cultures, political systems, and social relationships. (3 credits)

GOV 260 Government Systems of the World
This course focuses on political systems of the world, emphasizing political philosophy and comparative government. Students study democratic systems other than that of the United States, authoritarian systems and third world systems. (3 credits)

GOV 380 World Political and Economic Systems
An in-depth look at the political and economic structures of various countries, this course emphasizes an understanding of the differences between North American, Asian and European free enterprise systems. It also examines various socialist, social democratic and authoritarian regimes. (3 credits)

HIS 268 World History
A basic overview of world history including art, economics, literature, politics and science is provided in this course. (3 credits)

HIS 378 History of the World Economies
Students trace the history of the world economies showing how conflict, trade and colonial interests have influenced modern history. The course focuses on the competition for world markets and the struggle for economic empires. (3 credits)

HRM 335 Human Resources Management
This course provides a general overview of key employment practices necessary to effectively manage human resources within an organization. The major human resource functions of planning, recruiting, selecting, training and appraising will be emphasized. Other topics will include company policies and procedures, federal and state regulation compliance, rights and responsibilities of employers and employees, and trends of the next decade. (3 credits)

HRM 410 Staffing & Employment Practices
The current issues affecting staffing and employment practices in the United States and the impact on an organization's ability to compete in the marketplace, to develop and maintain a successful workforce, and comply with the various regulations governing staffing and employment practices are discussed in this course. Major topics include: technical issues involved in developing and implementing selection programs within organizations, how to achieve a successful person/job and person/organizational match, understanding organizational models used to select employees, laws governing staffing/employment practices, and staffing procedures, policies, techniques and problems, and the role of public policy on staffing/employment practices. (3 credits)
Prerequisite: HRM 335

HRM 420 Health & Safety in the Workplace
This course is designed to educate and increase students' awareness of internal and external factors that could negatively affect occupational safety in the workplace and understanding of the practices that can maintain and/or improve workplace safety. The Occupational Safety and Health Administration (OSHA) is responsible for administering and enforcing programs, regulations and standards designed to reduce injuries and illness on the job. The goal is to improve workplace safety and health for all workers by reducing hazards, exposures, and injuries, illnesses, and fatalities while increasing employer and employee commitment to and involvement with safety and health. (3 credits)
Prerequisite: HRM 335

HRM 430 Employment Law
This course provides an overview of key legislation that impacts employee rights, training, consumer protection, compensation, benefits, employee and labor relations, and health, safety and security. The importance of effective management practices to ensure federal and state regulatory compliance in the areas of employee and employer rights and responsibilities, job analysis, performance appraisal and workplace behavior will also be reviewed. (3 credits)
Prerequisite: HRM 335

HRM 460 Labor/Management Relations
The historical, current and legal analysis of labor relations in the United States and its impact on an organizations ability to compete in the marketplace, to develop and maintain a successful workforce, and to comply with the various statutory and common law regulations governing labor/management relations are discussed in this course. Major topics include growth/trends in the labor markets, collective bargaining, impact of the labor relations on the organization's strategies, analysis of federal labor laws, NLRA certification process, methods employed by management to avoid unions, methods employed by unions to represent bargaining units, and strikes and lockouts. (3 credits)
Prerequisite: HRM 335
HUM 127 Religions of the World
As a comparative study of major religions of the world and their impact on the cultures in which they are prevalent, this course reviews tenets of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism and Taoism. (3 credits)

HUM 201 World Culture and the Arts
Culture and the arts play a complex role in enriching the human experience. Universal human themes and values in art and the power and influence of the arts are examined by analyzing art forms from great world literature to popular contemporary alternative media. (3 credits)

INB 300 International Business
Environmental constraints on doing business abroad, effects of overseas business investments on domestic and foreign economies, foreign markets analysis, operational strategy of a firm, and management problems of international operations are the major topics covered in this survey course in international business. (3 credits)

INB 411 Economic and Business Environment: Europe/Russia
The effect of historical, political and cultural factors on commerce and economic trade, the volume of trade among the nations and the government policies, legal barriers and monetary restrictions affecting such trade are the topics discussed in this study of the changing nature of business activity in the European Economic Union, the current Eastern European countries and greater Russia. (3 credits)

INB 412 Economic and Business Environment: Middle East/Africa
Reviewing the volume, direction, and composition of trade between the United States and Middle Eastern/African countries, this course also looks at the impact of historical, political, social, economic and cultural factors in promoting trade among member countries. Government policies, legal barriers, promotional efforts and market potential are also discussed. (3 credits)

INB 413 Economic and Business Environment: Latin America
Reviewing the volume, direction, and composition of trade between the United States, Latin America and the Caribbean, this course also looks at the impact of historical, political, social, economic and cultural factors in promoting trade among member countries. Government policies, legal barriers, promotional efforts and market potential are also discussed. (3 credits)

INB 414 Economic and Business Environment: Pacific Rim
The cultural and economic differences existing in the many nations situated on the Pacific Rim and their impact on trade are examined in this course. The social, political and legal constraints affecting commercial activities and business ventures in such diverse countries as Australia, Malaysia, People's Republic of China and Thailand are also covered. (3 credits)

INB 415 Economic and Business Environment: North America (eligible students only)
This course reviews the volume, direction, and composition of trade between the United States, Canada and Mexico. This course also looks at the historical, political, social, economic and cultural factors in promoting trade among member countries. Government policies, legal barriers, promotional efforts and market potentials are also examined. (3 credits)

Prerequisite INB 300

INB 420 Import/Export Management
The organization of export and import operations in support of marketing and distribution is emphasized, including such topics as freight forwarding, shipping procedures, selecting transportation modes, documentation, the interface with treasury functions in international banking transactions and collections, and review of governmental regulations over imports and exports. (3 credits)

Prerequisite INB 300

INB 601 International Business Environment
This course develops an understanding of the economic, political, social and technological issues of many nations as they relate to the global business environment. Also covered are strategic plans and logistical systems of the multinational firm and how they are adjusted to meet the corporation's goals. Alternative structures of overall corporate policies and strategies as related to the global operation are also examined. (3 credits)

INB 641 Managing in the Global Cross-Cultural Environment
After exploring various global cultural and religious environments, this course provides an in-depth study of current conditions existing in the global economy and business world. Understanding the need to develop methodologies for managing in specific cross-cultural situations is emphasized. (3 credits)

Prerequisite: INB 601

INB 643 International Business Policy, Strategy, and Long Term Investment
The emphasis in this course is on development of international business organizations and strategic planning for organizing, financing and managing international operations. The strategies and policies of small and medium sized companies and major industrial firms are discussed, along with their long-term planning and research for developing opportunities for global business and the financing of such projects. (3 credits)
Course Descriptions

INB 650 Structure of the Global Economy
This course is a survey of world populations, income, resources and patterns of economic development, with emphasis on newly developed and emerging nations. The changing nature of agricultural and industrial production, directions of world trade and techniques for financing global trade, lending practices and world debt are also covered. (3 credits)
Prerequisite: INB 601

INB 670 Legal Environment of International Business
The legal questions of the international business environment are explored. A study is made of the interrelationships among laws of different countries and inter- and non-governmental organizations as they affect individuals and business organizations attempting to operate internationally. Border-crossing business contracts, liabilities, and the role of attorneys are also investigated in this framework. (3 credits)

INS 320 Cultural and Social Environment: Pacific Rim
The course uses comparative and historical methods to focus on how the religious, philosophical, historical and cultural aspects of the Pacific Rim civilizations impact modern problems, processes and outcomes. Emphasis is placed on the impact of colonialism and the modern state, building on the cultures and societies of this area. Comparing Asian, Latin American, Pacific Islander and North American development trends is also a focal point. (3 credits)

INS 321 Cultural and Social Environment: Europe and Russia
The course uses comparative and historical methods to focus on how religious, philosophical, historical and cultural aspects of European civilization impact modern problems, processes and outcomes. The development of conflicting world views over time, such as feudalism in both Catholic and Orthodox forms, Marxism and western democratic capitalism, is emphasized. (3 credits)

INS 323 Cultural and Social Environment: Latin America
The course uses comparative analysis to investigate the impact of religious, philosophical, historical and cultural aspects of Latin American civilization on modern problems, processes and outcomes. The course encourages students to recognize “culture” as a dynamic organization of artifacts, resources, people, and power. (3 credits)

INS 324 Cultural and Social Environment: Middle East and Africa
The course uses comparative analysis to investigate the impact of religious, philosophical, historical and cultural aspects of Middle East and African civilizations on modern problems, processes and outcomes. Further, it provides students with an opportunity to explore and understand the diversity of human thought and behavior that characterizes different cultures in the Middle East and Africa. The development of conflicting worldviews over time such as traditional values and practices, Islam, and western interventions is emphasized. (3 credits)

INS 326 Cultural and Social Environment: Australia and New Zealand
This course addresses pre-colonial and modern world views of Australians and New Zealanders and highlights the effect of historical background on the present day character of their societies. The course emphasis is on relationships with Asian, North American, and European societies. (3 credits)

INS 328 Cultural and Social Environment: Oceania
This course reviews the volume, direction, and composition of the islands of Oceania. These lands include Melanesia, Micronesia, and Polynesia. Topics to be examined include the heterogeneous nature of the islands and the myriad factors and variables that impact the historic, political, social, economic, and cultural elements among the islands. (3 credits)

INS 329 Cultural and Social Environment: North America (eligible students only)
This course uses comparative and historical methods to focus on how religious, philosophical, historical and cultural aspects of North American civilizations impact modern problems, processes and outcomes. Emphasis is placed on the impact of colonialism and the modern state, building on the cultures and societies in the United States, Canada, and Mexico. Students will also explore current development trends in the area. (3 credits)

IT 110 Fundamentals of Computers
The basic knowledge needed to successfully utilize personal computers and standard software packages is covered in this course. Emphasis will be on the primary software tools used in everyday business operations, Microsoft Office applications, Netscape and Explorer Internet browsers. Office applications include Word, Excel, Access, and PowerPoint. Internet application will focus on the use of the Internet for e-mail and research. (3 credits)

IT 300 Management Information Systems
This course provides an introduction to the use and application of information systems technology in the business environment. Concepts include the components of M.I.S., the systems development process, and the uses of the basic types of information systems in support of the organization’s goals and objectives. Topics discussed include basic hardware and software concepts, telecommunications, business processes, strategy, databases, artificial intelligence, ethics, legal issues, and electronic commerce using the Internet. (3 credits)
Prerequisite: IT 110
IT 302 Visual Basic
This course provides an introduction to Visual Basic, an object-oriented, event-driven application development language used to create macros in such end-user applications as Excel, Access, Word, Project, and PowerPoint. Assuming no prior knowledge of Visual Basic and taking a hands-on approach, the course uses examples and assignments to bring students to a level of proficiency in the material. Assignments are drawn from applications in a wide range of business contexts. (3 credits)
Prerequisite: IT 311

IT 306 C++ Programming
This course introduces programming concepts as well as object-oriented design and development using the C++ programming language, a standard programming language used in the Software Engineering industry. This course highlights the concepts the student has learned in IT 311 through code development implementations in the C++ programming language. (3 credits)
Prerequisite: IT 311

IT 307 JAVA Programming
JAVA has rapidly become the language of choice for platform-independent implementations. This course provides a general introduction to programming and object-oriented programming in particular. The syntax and semantics of the JAVA language are addressed, as well as related topics which include object-oriented programming concepts, terminology, and notation. (3 credits)
Prerequisite: IT 311

IT 308 XML/HTML Programming
The purpose of this course is to enable the student to understand and apply fundamental web technologies to develop web pages. These technologies are: Hypertext Markup Language (HTML), Cascading Style Sheet Language (CSS), and the Extensible Hypertext Markup Language (XHTML). HTML provides the basic model and example of an application markup vocabulary. CSS is a presentation language that provides additional presentation flexibility for HTML. XHTML, a reformulation of HTML using XML, is now the web page language of choice. During this course, the student will build and deploy actual web pages using these three basic technologies. (3 credits)
Prerequisite: IT 311

IT 311 Fundamentals of Programming with Algorithms & Logic
This course provides students with a basic understanding of programming practices. Concepts covered include flowcharting, pseudocode methodologies, and an understanding of programming practices. Students will learn how these concepts—when properly applied—improve program design. (3 credits)
Prerequisites: IT 110, IT 300

IT 312 Internet Concepts
This course is an introduction to the Internet and addresses issues ranging from terminology to web development tools. The concepts behind the development of the Web, its history and impact on global commerce and culture are examined. Technical topics will include: how it works, TCP/IP, HTML, and JavaScript. (3 credits)
Prerequisite: IT 300

IT 316 Analysis & Design of Information Systems
This course explores methodologies for determining what data to collect and what software to use/develop to provide appropriate information for decision-making. The major techniques covered are: system analysis, systems design, systems programming, systems implementation and systems audit. (3 credits)
Prerequisite: IT 300

IT 318 Information Systems Architecture
The major components of computer hardware (mainframes, minis, servers, and personal computers), operating systems (MVS, VM, VMS, UNIX, Windows, DOS), application software and utilities are covered in this course. (3 credits)
Prerequisite: IT 300

IT 319 Computer Networking
Designed to introduce information technology networking, this course takes a functional approach focusing on functional details rather than broad-based theory. An extensive coverage of today's most common networking schemas gives students a real world grounding in the subject and a current understanding of industry practices. (3 credits)
Prerequisite: IT 300

IT 402 Advanced Visual Basic
This course is a continuation of IT 302, focusing on solving advanced business problems using Visual Basic. Creation of database routines through the use of Visual Basic, Structured Query Language (SQL), Windows API’s and Visual Basic controls are some of the primary methods covered in the course. (3 credits)
Prerequisites: IT 311, IT 302

IT 406 Advanced C++ Programming
Building off of IT 306, this course expands on the concepts that are involved in C++ Object Oriented programming. Object-oriented programming is based upon non-traditional concepts including object, type, implementation hiding, parameterization, inheritance, encapsulation, and abstract data type. This course stresses the inclusion of reusable program code to decrease the software development lifecycle. The course also introduces the implementation of dynamic memory allocation through the use of algorithms, which implement link lists, stacks and queues. (3 credits)
Prerequisites: IT 311, IT 306
Course Descriptions

IT 407 Advanced Java Programming
Java programming language has become the language of choice for web-enabled applications. The course will also introduce Java advanced topics: Java server pages, Servlets, Applets and Applications (GUI), Threads, Database connectivity (JDBC), Network applications, Remote method invocation, (RMI), Java Utilities, Collections, Java Beans, Bit manipulation and J2EE architecture. (3 credits)
Prerequisites: IT 311, IT 307

IT 408 Advanced XML/HTML Programming
The purpose of this course is to enable the student to understand and apply advanced web technologies that underlie the development of e-Commerce and e-Business applications, as well as general intranet and internet applications. These technologies are Extensible Markup Language (XML), Cascading Style Sheets (CSS), and Extensible Style Sheet Transformation Language (XSLT). This course covers the overall specifications for XML as well as essential extensions such as Namespaces and XML-Schema. CSS is developed as a presentation language that can be applied to XML documents for professional looking rendering in a browser or other target device. XSLT, another application of XML, will be introduced as a mechanism for transforming one XML document into another. The student will learn how to use XML to represent information in a structured document, XSLT to transform that XML document into a target document specific to a client’s requirements, and CSS to present the resultant target document's content on a specific device. During this course, the student will build and deploy actual XML applications using these three basic technologies. (3 credits)
Prerequisites: IT 311, IT 308

IT 421 Database Management
This course provides an overview of the concepts involved in the five structure models of database management: 1) simple, 2) hierarchical, 3) network, 4) relational, and 5) object-oriented databases. (3 credits)
Prerequisites: IT 300 & IT 316

IT 423 Software Engineering
This course covers: software product life cycle, software engineering concepts, process models and metrics, requirements-specifications-design-implementation-validation of systems using modern programming languages, reuse of software work products, large scale systems, and the human factors of software engineering. (3 credits)
Prerequisite: IT 300

IT 435 Client/Server Distributed Systems
The intent of this course is to provide a strong foundation of knowledge about the critical component areas of client/server. The technical aspects, management and institutional concerns will be discussed. (3 credits)
Prerequisite: IT 319

IT 440 Project Planning and Execution
This course focuses on the application, planning, and execution side of project management. Areas covered include: specifications, participation of project team members, developing a project schedule, and implementation of the project plan. Students will become familiar with computer project management software to assist in investigation, system planning, business process modeling, and requirement specification. (3 credits)
Prerequisite: IT 300

IT 450 Evaluation, Selection and Implementation of Application Software
Selecting, acquiring, and implementing these new applications will require teamwork between the business functions and IT. This course focuses on the acquisition of pre-packaged software; beginning with the development of a joint RFP with the business unit, the evaluation/selection of potential vendors, evaluating proposals, negotiating contracts, and implementation of the software package. (3 credits)
Prerequisite: IT 300

IT 455 Implementing E-Commerce Strategies
This is a hands-on course in which students work in groups exploring the ways businesses and communities interact on the Web. Groups analyze all relevant aspects of a web-based e-commerce project and then propose a strategy for designing and developing a real-life e-commerce business on the web. Several aspects of e-commerce such as, product presentation, order management and fulfillment strategies, applicability of electronic commerce transactions, security issues, and launch alternatives are discussed and analyzed. (3 credits)
Prerequisites: IT 312 and MGT 426

IT 460 Quality Assurance and Configuration Management
This course focuses on techniques used to successfully test and implement information systems applications. The importance of the policies, procedures, and organization required to ensure that new software will be tested completely and put into production without causing server disruptions to the organization is stressed. Topics addressed include: the design of a comprehensive test plan, determining critical success factors, the testing of system components, ensuring plans are in place to provide user training, and that hardware and operating system software is installed and properly configured. (3 credits)
Prerequisite: IT 423
Course Descriptions

IT 480 IT Management
This course provides an overview of managing the following IT areas: data/information, hardware, software, communications/networks, human resources, financial/budgets, organizational planning and security. (3 credits)
Prerequisite: All other major courses.

IT 615 Integrated/Strategic Information Systems
This course discusses the management of the function of information and communication technology and the increasing role they play in shaping and executing the enterprise’s strategies. The class focuses on the need to manage information; the strategies needed to integrate the diverse and complex applications and databases that exist in today’s global corporations. This course requires a familiarity with software, systems engineering, hardware, communications, and networking concepts. It will expand on that knowledge by examining the corporate strategic planning process and the role of information technology in a global strategy. Students will conduct an information systems study and create a technology plan to support a particular strategy. (3 credits)

IT 618 Information Systems Architecture & Computer Networking
The major components of computers and networks—hardware (mainframes, minis, servers, and personal computers), operating systems (MVS, VM, VMS, UNIX, Windows, DOS), application software, utilities and Information Technology networking—are covered in this course. This course takes a functional approach, focusing on functional details rather than broad-based theory. Extensive coverage of today’s most common architectures gives students a real world grounding in the subject and a current understanding of industry practices. Real-world examples of networking concepts and networking schemes provide students with examples of systems that are currently used by industry. (3 credits)
Prerequisite: All IT Undergraduate prerequisites

IT 620 Information Resource Management
Data, information and knowledge must be managed at all levels of the organization. This course involves the techniques and methodology of managing the process of data, information and knowledge to meet the corporate strategies. (3 credits)

IT 630 Technology Project Management
Managing the delivery of complex information technology projects requires the knowledge and application of sound project management skills and tools. The class focuses on the identification and use of the techniques of project management, from defining project requirements to successfully closing out the project. Methodologies for planning, estimating, tracking, and controlling projects are taught in this course. (3 credits)

IT 638 Economics of Information Systems and Proposal Management
This course develops the processes needed to manage IT cost as a resource within the organization, and to acquire resources from prospective providers. The focus is the planning and implementation of integration of technology using internal/external human resources for improved performance at the functional level. This course will focus on how to: develop a proposal, interpret requirements in respect to cost, develop the quantitative response that meets each of the criteria, provide clear and complete cost information, and prepare other financial presentations (such as favorable ROI) which would support the IT project. (3 credits)

IT 641 Global Information Systems
Designed for the information/business professional involved in developing corporate strategies, this course will emphasize adding to the bottom line of the corporation by effectively combining information and communications technologies to enhance business value and effectively utilize the data and information communicated internally and externally around the world. Global communications carriers are evaluated and solutions analyzed. (3 credits)

IT 642 Information Networks
Class participants learn about the technical fundamentals and business applications associated with information networks. Networking standards for voice, data, and video (including ATM, ISDN, TCP/IP, Ethernet, and wireless communications) are presented, as are network-driven applications (such as the World Wide Web, EDI, and groupware applications). Issues surrounding both local area networks and enterprise/global networks are discussed, with special emphasis on client/server computing and network architectures. Business issues surrounding networking, including electronic commerce, digital cash, security and privacy, virtual organizations and the delivery of business services over the Internet form a major part of the course. (3 credits)

IT 643 Telecommunications/Satellite Systems Engineering
This course provides students with a global perspective of telecommunications technologies and standards worldwide. The course covers the basic building blocks and introduces the most current information on new technologies such as wireless, broadband, and optical networking. (3 credits)

IT 645 Internet Business Strategy
This course explores how new technology will help those who utilize it to achieve a competitive advantage for transforming relationships with customers, suppliers, and business partners, to empower global business, and to rebuild their organizations. Students explore these topics through on-line research, analysis and Internet related applications. (3 credits)
Course Descriptions

IT 650 Software Engineering Methodology
Upon completion of the course, students will be able to competently design and implement medium-sized software projects from specification and apply key principles of software engineering to all software that they author so that it is correct, efficient, modular, reusable, structured and well documented. This subject looks at formal methods and approaches to the construction of modern computer software. Topics covered include software tools, object-oriented design, object-oriented programming process and project management issues. (3 credits)

IT 654 Integrated Data Resource Management
This course analyzes organizational needs, data and storage structures, file design, indexed sequential-clustered-inverted files, DBMS design and hierarchical and relational databases. Special emphasis is placed on the relational database and the client/server environment. (3 credits)

IT 660 Security Systems Engineering
This course focuses on engineering the security tools that can be integrated into the systems software, applications software and communications software to meet the various levels of confidentiality required by business data. Also emphasized will be the engineering of hardware/technology to meet physical data security requirements. (3 credits)

IT 665 Intellectual Property Law & Ethics
The proliferation of personal computers, global communications and the Internet have brought issues involving intellectual property rights and ethics to the forefront of today's organization. Topics in this course include the definition of a copyright and how it is obtained, protected and used, from both a legal and ethical perspective. The legal and ethical aspects of uploading and downloading information from the Internet will be analyzed. Other course topics include the risks associated with computer viruses and worms and the protective measures, physical and legal, that can be taken against these attacks on intellectual property. (3 credits)

IT 670 Project Verification and Validation
After the design and development of an IT project is complete, it must be tested for product verification and validation. This course will prepare students to plan and execute the project verification and validation process through familiarization with testing tools, metrics, documentation. Future trends in the use of verification and validation of IT projects will also be discussed. (3 credits) Prerequisite: IT 650

IT 674 Leadership Skills for Technology Managers
The rapidly evolving world of electronic commerce is placing new and more complex requirements on the senior technology managers in a business enterprise. This course will emphasize the skills and processes that are required to effectively build concurrence between business units and technology managers. Focus will be on the identification and prioritizing of common drivers critical to achieving business objectives, establishing relationships among vision, process, and information technology, and critically evaluating available technology resources vis-à-vis corporate goals. Leadership styles will be evaluated and incorporated into class case studies. (3 credits)

IT 680 Intrusion Detection and Analysis: Security Beyond the Fire Wall
In today's information age, security needs extend beyond the firewall. This course introduces students to Internet-protocol concepts and domain name service theory. It also teaches students to recognize and respond to normal vs. abnormal network behavior, exploits, scams, Internet attacks, and network intelligence gathering. Future trends in security and intrusion detection will also be explored. (3 credits) Prerequisite: IT 660

IT 699 Seminar on Issues & Trends in Information Technology
Current IT issues and trends are analyzed based upon the current and projected business environment to determine what trends are evolving. (3 credits) Prerequisite: All IT major courses

ITS 600 Graduate Internship
The Internship is a working-and-learning arrangement, providing opportunities for students to earn academic credit for approved work programs in cooperating businesses or organizations. The internship, which is three to six months in duration, is open to qualified graduate students. Students negotiate internship proposals with the businesses or organizations where they plan to work, and with the University. Students must work at the internship site at least 480 hours. (3 credits)

ITS 601 Graduate Internship (6 credits)
The Internship is a working-and-learning arrangement, providing opportunities for students to earn academic credit for approved work programs in cooperating businesses or organizations. The internship, which is three sessions (six months) in duration, is open to qualified graduate students. Students negotiate internship proposals with the businesses or organizations where they plan to work, and with the University. Students must work at the internship site at least 960 hours (approximately 40 hours per week). (6 credits)

LIT 205 World Literature
This course covers prose and poetry by major world authors. Readings are chosen to enhance appreciation of literature and to prompt students to explore universal themes and values as well as the creative literary techniques that appear in great works. (3 credits)
MAT 105 Basic Mathematics
This course focuses on foundational understanding of basic mathematics principles including arithmetic, decimals, fractions, percentages, linear equations with one and two variables, simple geometry and concepts of algebra. This course is not available to students who have completed MAT 110. (3 credits)

MAT 109 Business Mathematics
This course provides a brief review of the fundamentals of basic business mathematics, including decimals, signed numbers, fractions and percentages. Emphasis is on basic accounting, retailing and finance mathematics. (3 credits)
Prerequisite: MAT 105

MAT 110 Algebra I
With special focus on the application of algebraic principles to business and industry, this course covers the basic concepts of algebra, including variable expressions, operations on polynomials, graphing linear equations, inequalities, factoring, exponents, radicals and quadratic equations. (3 credits)
Prerequisite: MAT 105

MGT 337 Supervision and Leadership
This class will demonstrate the difference between managing and becoming a transformational leader. Students will engage in self-awareness analysis to determine how best to identify and implement leadership strengths and overcome weaknesses. Major topics covered include the supervisor's role in an organization, skills required to be an effective leader, problem solving applications, effective motivation techniques, effective discipline strategies, successful communication concepts, and how best to achieve maximum performance from the personnel team. (3 credits)

MGT 340 Organization Theory and Behavior
Realistic case studies, group exercises and self-assessment illustrate the integration of the principles, philosophies and theories of management/leadership and organizational behavior as used in public and private organizations. Some of the topics included are: evolving management thought, functions and practices, management approaches, general management systems theory, contingency management and process analysis. (3 credits)

MGT 352 (MGT 350)
Political, Legal and Ethical Issues in Business
How the management of business, including its structure, personnel, activities and concerns is impacted by government policies and regulations. Specifically, this course addresses the legal environment within which all businesses must operate, ethical considerations for businesses and the interrelation of the two. (3 credits)

MGT 370 Operations Management
This course focuses on the management of the direct resources necessary to transform a variety of inputs into the finished goods or services provided by a company. It introduces the function and systems of a series of interrelated disciplines that make up a part of the business entity called Operations. Each operating organization and its role in the conversion process is examined. The course provides quantitative methods for achieving success both within an operating department and as an operations manager. Course material emphasizes corporate and operational strategy, logistics, inventory management, forecasting, scheduling, effective management of service or manufacturing production, quality, project management and customer satisfaction. (3 credits)
Prerequisite: RES 311

MGT 426 E-Commerce
This introduction to the world of electronic commerce provides the core concepts necessary to understand and capitalize on the explosion of Internet-based business in today’s economy. This case-based course explores key strategies for management, funding—financing, marketing, global business and other e-Commerce issues. (3 credits)
Prerequisite: IT 300

MGT 431 Human Computer Interaction
This course centers on the way people interact with computers and the integration and management of computers in all facets of business. This course covers an historical overview of the field, the process of developing interactive systems, interacting with computers, psychological factors, and future research. Hands-on computer labs will focus on Web and Software Interface Design theory and practical application. (3 credits)
Prerequisite: IT 300

MGT 445 Corporate Training and Development
The value of an educated workforce and how to develop it is the focus of this course. Major topics are: understanding the need for training and organizational development within the organization; analysis, design, and development of programs that facilitate the achievement of corporate strategies; development of a training department within the corporate structure; monitoring, controlling, evaluating training; and planning for future training needs. (3 credits)
Prerequisite: HRM 335

MGT 461 Project Management
This course teaches the specialized tools and knowledge used by project managers in planning, controlling the complexities of a project’s activities, scheduling and budgeting. Also covered are the tools and techniques used to cope with difficulties and uncertainties and that aid in bringing order to chaos. (3 credits)
MGT 463 Management of Small Business
This course enables students to explore topics and issues unique to the small business environment. Activities focus on the business planning process with students completing a formal business plan. Some of the topics include ownership forms, management styles, cash flow/working capital, financing, product/service selection, marketing, accounting/inventory control, technology and managerial policies and procedures. (3 credits)

MGT 465 Organization Development
This course is designed to introduce undergraduates to the role and practices of internal and external OD change agents. An overview of the diagnostic and intervention techniques used in the organization development process, as well as the functions and methodologies of the change agent are provided. Class activities are highly experiential and interactive, and students explore a variety of OD topics including action research, moving and restraining forces for change, diagnostic models, survey/feedback techniques and behaviorally-based planned change interventions at their individual, group and system level. (3 credits)
Prerequisite: MGT 340

MGT 492 Seminar on Strategic Management Issues
A review of management decision areas impacting today's business environment is presented in seminar format. Focus is on the integration and application of management theories to current issues and topics of concern related to selected industries. Course methodology includes electronic research, library and literature reviews, case analysis, and business simulation. As this course builds on content gained in previous courses in the major, students are strongly advised to take this course towards the end of their program. (3 credits)

MGT 625 Strategic Management
This course presents the process for developing and implementing a strategic plan within an organization. Major topic areas that are the focus of the lecture and discussions are: mission and vision statement development and analysis, external environment analysis, company profile, SWOT analysis and decision-making on strategic direction and achieving congruence of corporate objectives, strategies and implementation. Case analysis is used as a method to simulate the strategic planning environment. (3 credits)
Prerequisite: MGT 340 or equivalent

MGT 634 Entrepreneurship and Intrapreneurship
A study of the legal, financial, marketing, human resource, organizational and production aspects of starting, implementing and successfully managing your own venture or a division or department within an existing organization. Other topics include the balance between structure and strategy as it relates to patents, trademarks, copyrights, licensing, tax implications, and venture resources. A major outcome for this course is development of a comprehensive business plan. (3 credits)

MGT 636 Managing Organizational Change
This course views change as an adaptive process that can affect organizational structure, design and technology, as well as group and interpersonal processes. Attention is devoted to the roles and responsibilities of both internal and external change agents such as: developing consulting skills in needs assessment, diagnosis and problem identification and process facilitation; developing intervention strategies at the individual, team and system level; integrating technology and personnel skills, and assessing the impact of various changes on the organization; and exploring conflict management strategies to effectively manage the disequalibrium that may result from implementation of organizational changes. (3 credits)

MGT 642 Legal & Ethical Issues in Business
The legal and ethical integrity of business individuals and entities is an important part of building quality products or services. This course examines issues and real questions faced by business organizations. Critical topics discussed are: ethical theory and corporate responsibility; governmental and self-regulation; the employer-employee relationship; financial disclosure and international issues. (3 credits)

MGT 665 Corporate Power, Politics and Negotiations
This course focuses on various forms of power, interpersonal skills, personal and management style strengths and weaknesses, conflict resolution techniques, and determines the necessary negotiation and political strategies used by successful employees/managers. Evaluating perception versus reality and how it affects the decision-making process is addressed. Different business environments are simulated and discussed using past and present business situations, personal experiences, and case studies. This course illustrates how successful employees and managers ultimately “manage” not only their subordinates, but also superiors and peers as well, in order to succeed. (3 credits)

MGT 675 Management of Innovation and Creativity
This course examines techniques for managing and encouraging innovation within the organization. Special emphasis is placed on generating, managing and adopting new products/services, business intelligence, creativity, new technologies and new structures within the organizational objectives and strategies. Innovative management techniques are discussed through cases, research and actual company examples. (3 credits)

MGT 699 Seminar on Current and Future Trends
Managers must envision an organization not as it is today, but as it can be in the future. Anticipating and understanding
management trends provides the insight that results in sound, forward-thinking strategic decisions. This course explores the critical trends that are impacting organizational functioning, from e-business, to mergers, globalization and the accelerating pace of business change. Special contemporary topics and cases will be studied that emphasize integrative analysis and planning. (3 credits)

MKT 308 Marketing Management
Providing an overview of marketing's role in the socioeconomic and business environments, this course focuses on target market segmentation, product planning, pricing techniques, distribution channels and promotional strategies. (3 credits)

MKT 415 Consumer Behavior Issues and Analysis
This course focuses on understanding and influencing consumer perceptions and decisions. Integrated into the process is the role of marketing research and the basic methods and techniques needed to interpret information relevant to targeting markets, positioning products, designing effective marketing messages, including updated online consumer behavior models. (3 credits)

MKT 434 Consumer Communications and Sales Management
This course covers a wide variety of communications methods for reaching and influencing customers. Methods covered include: advertising, sales promotion, public relations, direct marketing, individual selling, and the Internet. (3 credits)

MKT 452 International Marketing
Designing global marketing strategies within the constraints of particular cultural, economic and political settings for a successful international marketing campaign is the focus of this course. Students will analyze the decision-making process in marketing products globally. (3 credits)
Prerequisite: MKT 308

MKT 460 Marketing on the Internet
This course focuses on developing and implementing strategic marketing plans for products and services that can be promoted on the Internet. The course focuses on (1) new opportunities that the Internet is creating for business, including business-to-business applications; (2) key factors in the design of an effective Web site; (3) the psychology of consumer behavior as it applies to online shopping; (4) basic methods of online promotion; and (5) integration of a web site into the overall marketing mix. This course does not provide technical information or design methodologies. (3 credits)
Prerequisite: MKT 308

MKT 470 Strategic Issues in Marketing
Marketing disciplines are integrated to provide an in-depth analysis of the major marketing issues impacting organizations in the new millennium. This course begins with a study of how social, cultural, technological, economic, and legal issues impact product marketing. An analysis of how market research and anticipated consumer behavior affect promotion, packaging, pricing and distribution strategies will provide a comprehensive perspective of corporate strategic marketing. Ethics and social responsibility in marketing practices are also covered. (3 credits)

MKT 610 International Marketing
This course covers the concepts and practices of marketing in the global environment. The modifications and adaptations required to meet the challenges and different problems associated with international marketing will be a major focus of this course. Also covered is how to integrate strategies with international marketing functions. (3 credits)

MKT 636 Supply Chain Management
A comprehensive analysis of the strategic design processes in developing supply chain management, including a study of the complete distribution channel network, and vertical marketing systems in the complex marketing environment of the new millennium. Topics covered include an understanding of the channel's task environment, manufacturing, wholesaling, retailing, physical distribution institutions, JIT inventory, logistical complexities, and new technology developments. (3 credits)

MKT 642 Buyer Behavior and Sales Promotion
This course examines the key factors influencing buyer behavior as they relate to advertising, sales promotion, direct marketing, public relations and the Internet. The focus will be on management strategies relative to both consumer behavior and to the business-to-business buying decision-making process. (3 credits)

MKT 646 Strategic Concepts in Marketing
This course focuses on analyzing and understanding the key corporate and operational marketing issues that face organizations in today's competitive marketplace. The major areas of concentration include: (1) a strategic marketing plan that explores the corporate strategies, environmental factors, and new business opportunities; (2) understanding the major buying behavioral, technological and global changes; and (3) a review and analysis of the increasingly important role of marketing in the new millennium. (3 credits)

MKT 650 Industrial and Government Marketing
An exploration of the unique marketing needs and methodologies relating to industrial and government sectors, this course analyzes the importance of differentiating these markets to effectively present strategies for products, services, pricing and promotions essential for successful decision-making. (3 credits)
Course Descriptions

MKT 654 Marketing Research and Intelligence
This course addresses the new technologies that have changed some of the basic methods and techniques of information-gathering, strategic thinking, and marketing research techniques. The course will focus on consumer, industrial and international markets, and on new methods that will make information more accessible to analyze competitive and market information and interpret data, which will lead to more timely and accurate decision-making. (3 credits)

MKT 660 E-Commerce Marketing
The purpose of this course is to develop a complete marketing plan for an e-commerce business or software-multimedia product whose main marketing channel is the Internet. The course will include: integration with traditional marketing, partnerships/alliances, co-branding, and customer service. (3 credits)

MPA 610 Strategic Planning and Implementation in Public Administration
This course provides an overview of public administrative and management processes, procedures, structures and systems at the local, regional and federal levels. Current and futuristic practices, roles, responsibilities and ethics of the public administrator/manager who develops and implements strategic plans for public organizations will be discussed. (3 credits)

MPA 630 Managing Public Policy
Designed to facilitate the development of insights and skills needed to plan, organize, implement and manage public policy programs and operations, this course focuses on the theoretical, conceptual and practical understanding of public policy management. (3 credits)

MPA 642 Public Finance: Government Accounting and Control
A critical aspect of the management of public organizations is their use of finance and accounting services. This course provides insight into finance and accounting principles and procedures used by public administration/management service professionals. (3 credits)
Prerequisite: ACC 305

MPA 646 Procurement and Contract Administration
This course is designed to develop the interoffice policies and procedures used to procure goods and services in the public sector. A practical approach is used to present the rules, regulations and laws that are critical to the development, negotiation and administration of contracts at all levels of government. (3 credits)

MPA 650 Human Behavior and Resource Administration
A realistic approach to the organizational theories and behaviors experienced within the public sector, this course will analyze the economic, political, social factors and their implications to human resource management. (3 credits)

MPA 667 Public Finance: Politics of the Budgetary Process
An exploration of the grounding political issues in public finance, and simulation of the process by which public budgets are made and their purpose in the management process of public finance are the foci of this course. (3 credits)

MPA 670 The Public Administrator and the Law
This course provides integrative analysis of the public administrator’s job functions relative to the legal and moral forces guiding the decision-making processes within the public sector. (3 credits)
Prerequisite: MGT 352 (MGT 350)

PAM 300 Public Administration
This introductory course to the field of public administration reviews the administrative, management, and political processes used in the Federal, State and Local levels of government. Political, ethical, and managerial concerns will be examined in the management of public programs as well as their impact on the development and implementation of public policy. Students will review case studies and analyze relevant current events in the field of public administration. (3 credits)

PAM 350 Human Resource Management in the Public Sector
This course explores various aspects of the organization and operations of the human resource function in the public sector. Emphasis is on structural, behavioral and legal concepts and issues in governmental and public sector environments. Students compare current theory with practice in such areas as human resource planning, strategies for recruitment and selection, job analysis, position classification, diversity, motivation and retention of employees, performance appraisal, compensation and benefits, training and development, strategic labor-management issues and relations, and the influence of federal regulations on the practice of human resources (i.e., Equal Employment Opportunity, sexual harassment, and discrimination policies). (3 credits)
Prerequisites: MGT 340 and MGT 352 (MGT 350)

PAM 430 The Social Psychology of Public Sector Organizations
This course surveys social psychological factors in terms of organization structure, functions, interactions and relationships between organizational members within public sector agencies and institutions. The focus of the course is upon the unique aspects of public sector organizations as they relate to issues of human interactions, communications, bureaucratic procedures, employee motivations, internal formal and informal social relationships, group behavior and external influences upon agency behavior in fulfilling a defined mission. Armed with a knowledge of the
theories, concepts, and research findings of social psychology, students will be better able to design social policy and management initiatives that are consistent with the way people in public sector organizations really function. (3 credits)

**PAM 450 Government Finance: Budgeting and the Political Process**

Budgets express the public policy choices made by public sector policy making bodies and elected officials. This course provides an examination of the budgeting and financial management functions in the public sector. The process by which public programs analyze budget needs and subsequently present them to elected officials and legislative bodies will be covered. The systems used by public sector organizations to manage budgets and track expenditures will be analyzed. (3 credits)

Prerequisites: ACC 301 and ACC 302

**PAM 480 Procurement and Privatization in the Public Sector**

This course explores the organization and operations of procurement and outsourcing/privatization as a strategic policy position in public sector agencies. Federal, state and local levels of government and public services now utilize the procurement of contracted private goods and services to meet the mission goals of public sector operations. The course surveys different approaches to the procurement of goods and services through bids, requests for proposals, auctioning and other means of obtaining competitive pricing. Situations where single source procurement and “competition impractical” procurement circumstances might apply. Emphasis will be given to “best practices” in the field and developing methodology for the improvement of strategic privatization, long term contracts and contract monitoring. Implications for strategic management in the public sector will be discussed. (3 credits)

**PHI 101 Introduction to Philosophy**

Philosophical thinking and reasoning are introduced by examining the basic questions of life: knowledge, values, ethics, society and the nature of reality. Exploring the meaning of life and helping the students develop a unique philosophy of life statement are integral parts of this course. (3 credits)

**RES 311 Quantitative Methods for Decision Making**

Emphasizing quantitative techniques used in business/management decision-making, this course surveys design, forecasting, statistical inference, correlation, regression, analysis of variance, and the use of software for statistical analysis and modeling of business practices. (3 credits)

Prerequisite: MAT 110

**RES 321 Behavioral Research Design, Tests & Measurement**

This course is designed to acquaint students with methods and design in behavioral research. Students will learn systematic methodology for behavioral research to enable them to make better decisions when designing research projects, and to become more discerning consumers of research results. Research tools, statistical concepts, and problem analysis will be discussed. (3 credits)

Prerequisite: RES 311

**RES 600 Graduate Research Methods**

Research design and methodology, use of primary and secondary research, and information and data analysis are discussed with a focus on business decision making. This is the first course in the Applied Thesis sequence so the development of a research proposal for the Applied Thesis is required. This course is the prerequisite for all Master's level courses and must be taken as the first or second course in the Core. (3 credits)

**RES 601 Applied Thesis Fundamentals**

Orientation to and planning for the Applied Thesis in an independent study format with a selected Thesis Advisor is the purpose of this research course. Attendance at the Applied Thesis Orientation is required along with the development of a topic for study, detailed outline, and timeline. (1 credit)

Prerequisite: RES 600, Completion of all degree prerequisites and the Core.

**RES 785 Applied Thesis Research Seminar**

As the final course in the Applied Thesis sequence, emphasis is on the development of the written Applied Thesis and the Formal Professional Presentation completed in an independent study format with the selected Thesis Advisor. Focus is on integration of knowledge, and skills and achievement of WIU University and Program competencies. (3 credits)

Prerequisite: Completion of all Master's level coursework and have a 3.0 GPA.

**SCI 244 Geology**

Two billion years of earth history are explored, covering rocks and minerals, weathering and erosion, stratigraphic principles, the geologic time scale, geologic structures, plate tectonics, mountain building, volcanism, landforms and economic geology. Visits to unique geologic environments and field trips to selected sites are included. Lab fee may be required. (3 credits)

**SCI 264 General Physics**

The principles of Newtonian and modern physics, including mechanics, heat, sound, electricity, light and atomic physics are covered in this course. Emphasis is on comprehension of concepts rather than on computations. (3 credits)
SCI 270 Environmental Science
Providing a general overview of scientific knowledge, this course examines the current and future issues of the global environment from the scientific, social, business and individual perspectives. (3 credits)

SOC 101 Introduction to Sociology
Designed to facilitate understanding of the principles of collective human behavior, social change and the origins, functions and dynamics of social institutions, this course allows students to explore cultures, subcultures, families, primary groups and other social units, as well as contemporary issues in social change. (3 credits)

SOC 122 Cultures of the Southwest
A survey course that highlights Hispanic, Native American and other cultures of the American Southwest, this course examines historical development, social structures, religious beliefs, art forms and the impact of these cultures on contemporary society. (3 credits)

SPN 254 Spanish I
In this introductory level course, the focus is on essential vocabulary for basic oral communication and written expression. A brief survey of Spanish cultural and commercial mores, standards and etiquette is included. (3 credits)

SPN 255 Spanish II
Oral and written skills are further developed with an emphasis on conversational and professional terminology in business and travel related contexts. (3 credits)
Prerequisite: SPN 254

SPN 354 Spanish III
With increasing emphasis on global networks, students and employees are increasingly expected to communicate in more than one language (English) at a proficient level. However, the language of business is quite different than the social/cultural aspects. This course uses realistic situations and the specialized vocabulary and grammar that are used in the business world to communicate with Spanish-speaking members of the community in the course of their daily work. (3 credits)
Prerequisite: SPN 255

PROFESSIONAL DEVELOPMENT
COURSE DESCRIPTIONS

FP1101 Financial Planning Process and Insurance
Presenting the legal, ethical and regulatory issues affecting financial planners, this course discusses the principles of risk management and how to select appropriate techniques to serve clients’ needs. Most personal forms of insurance are covered, including life, homeowners, personal auto, medical, disability, long-term care, and umbrella liability policies. (non-credit)

FP1102 Investment Planning
Learn to evaluate a wide variety of investment vehicles and how to construct and manage client portfolios. Topics addressed include tax considerations, economic factors, risk and return analysis, valuation methods, asset allocation techniques and portfolio performance. (non-credit)

FP1103 Income Tax Planning
This course emphasizes fundamentals of individual income taxation, tax implications of various types of businesses, planning for the acquisition and disposition of property, tax-advantaged investments as well as family tax planning. (non-credit)

FP1104 Retirement Planning and Employee Benefits
Beginning with a discussion of personal tax-deferred retirement programs, this course includes a framework for calculating the annual savings needed to achieve retirement goals. Students examine government-sponsored plans, as well as qualified and nonqualified deferred compensation, and other commonly provided employee benefits. (non-credit)

FP1105 Estate Planning
The final program course addresses the full spectrum of the estate planning process as it relates to clients’ long-term goals. Students learn the fundamentals of federal estate and gift taxation, as well as specific exclusion and valuation techniques. The course also highlights wills, intestacy and the probate process, trusts, property ownership forms and will substitutions. (non-credit)
