Academic Programs
Addendum
September 2016
As a supplement to the yearly catalog edition published every July 1, this addendum reflects the additions and changes made by the University since the publication of the previous catalog edition. This addendum is not intended to alter any sections of the Student Catalog that are not specifically addressed herein. Thus, all Student Catalog sections not addressed in this addendum shall remain in full force and effect until further notice.

Undergraduate General Education Requirements

General Education courses provide foundation knowledge for all undergraduate degree programs. The course categories for General Education correlate directly to West’s Institutional Learning Goals. The requirements consist of fifty-one (51) credits in the General Education Core.

Total General Education Requirements – 51 credits
(All courses are 3 credits.)

Note: Please click here for State-Specific Curricular Requirements.

Course Requirements

Communication – 6 credits
ENG 101 English Composition I
ENG 102 English Composition II

Critical Thinking – 18 credits
One of the following courses will be applicable to your program:
SCI 262 General Biology
SCI 270 Environmental Science

Required:
BEH 221 Introduction to Behavioral Science
BUS 100 Introduction to Business
CRT 201 Critical Thinking
MKT 100 Introduction to Marketing
PHI 204 Ethics and Values

Global Awareness – 9 credits
One of the following courses will be applicable to your program:
GOV 240 American Government
GOV 281 World Political and Economic Systems

Required:
CUL 100 Culture and Globalization
ETH 123 Cultural Diversity

Research – 3 credits
RES 211 Quantitative Methods for Decision Making

Technology Literacy – 3 credits
BUS 240 Information Technology in Business

Quantitative Analysis – 12 credits
One of the following courses will be applicable to your program:
ACC 200 Introduction to Accounting and Finance
ACC 202 Foundations of Accounting I

One of the following courses will be applicable to your program:
MAT 105 Basic Mathematics
MAT 109 Business Mathematics

MAT 105 Basic Mathematics is not available to students who completed an equivalent level of mathematics.

Required:
ECO 201 Economic Theory
MAT 110 Algebra I

Elective Requirements – 21 credits

The Elective Credit Block offers undergraduate students the opportunity to pursue a variety of topics of interest and fulfill prerequisites for their major.

Undergraduate Program Listing

Associate of Arts in Business

The Associate of Arts in Business (AAB) program provides students with substantive exposure to the foundational aspects of business education, combined with a broad, globally focused liberal arts core. Students will be able to leverage this base of quantitative and qualitative tools into further business degrees and advancement into managerial positions across a broad range of specializations in today’s competitive, service-oriented global marketplace.

For complete program details, please visit our website at http://west.edu/online-degree-programs/business-aa

Program Learning Outcomes

1. Describe the competitive marketplace and core internal capabilities to identify areas of competitive advantage that can foster a long-term sustainable positioning in today’s global, service-oriented environment.

2. Demonstrate a broad understanding of the impact of ethical, political, and legal policies on organizational actions.

3. Use research and data analysis to solve business problems and assess business opportunities.
4. Apply theoretical models and frameworks to evaluate customer needs and the competitive marketplace.

5. Analyze key financial measures of efficiency and success.

6. Present business problems and solutions professionally and persuasively in a global context using both oral and written communication techniques.

7. Describe the interrelationships among the functional areas and processes of an organization.

8. Describe the theories that explain individual and group behavior in organizations.

9. Evaluate the impact of global environmental and cultural factors on organizational policies, strategies, and operations.

10. Appraise technologies and information systems that can be used to further organizational objectives and increase organizational efficiency.

**Course Requirements**

General Education Core Requirements – 51 credits

Major Requirements – 9 credits

- INB 200 International Business
- MGT 240 Organization Theory and Behavior
- MGT 252 Political, Legal, and Ethical Issues in Business

Additional Requirements:

- A minimum of 18 credits must be earned in residence at West.
- Students must maintain a minimum grade point average (GPA) of 2.0 or higher for all coursework at West.

Total Credit Hours: 60

---

**Bachelor of Arts in Behavioral Science**

The Bachelor of Arts in Behavioral Science is designed to provide students with a broad understanding of the discipline of behavioral science, which aims to describe, understand, and predict the behavior of living organisms. Behavioral science uses an integrative approach to the study of factors influencing behavior, including early childhood development and processes operating in older ages, sensory experience and complex cognition, normal development and pathological conditions, and the interaction of genetics with social and cultural environments. Students develop a knowledge repertoire of findings in behavioral science and its many subfields, including psychology, as well as an understanding of the systematic observational methodologies used in scientific inquiry. Students also study the application of psychology to the realms of public health, organizational settings, and the working world. This program fosters practical knowledge with enduring career applicability, including analytical, logical, and critical thinking skills.

For complete program details, please visit our website at [http://www.west.edu/online-degree-programs/behavioral-science-ba](http://www.west.edu/online-degree-programs/behavioral-science-ba)

**Program Learning Outcomes**

1. Explain the theories and empirical studies of information processing, language, intelligence, motivation, emotion, learning, and memory.

2. Discriminate between normal and abnormal development and behavior including psychopathology.

3. Explain the theories and research in social cognition and personality, including attraction, the self, individual differences, and group behavior.

4. Evaluate the different approaches to treatment, including counseling and psychopharmacology, and the supportive systems that administer these treatments.

5. Apply the scientific method to theoretical inquiry and real-world problems while identifying the different research methodologies used in each theoretical approach to human cognition and behavior and drawing sound inferences from data with ethical research standards.

6. Explain the application of behavioral science to the workplace, including group dynamics, organizational behavior, conflict, and diversity.

**Course Requirements**

General Education Core Requirements – 51 credits

Elective Courses – 21 credits

Major Requirements – 45 credits

- BEH 311 Social Psychology
BEH 312 Personality Theories
BEH 317 Biological Basis of Behavior
BEH 319 Industrial Organizational Psychology
BEH 331 Human Relationships and Interpersonal Communication
BEH 405 Learning and Cognition
BEH 411 Lifespan Development
BEH 430 Theories of Counseling
BEH 440 Abnormal Psychology
BEH 450 Behavioral Healthcare Systems
COM 423 Group Dynamics: Teambuilding, Negotiation, and Conflict Management
CRB 320 Criminology
MGT 240 Organization Theory and Behavior
RES 321 Behavioral Research Design, Tests, and Measurement
SOC 101 Introduction to Sociology

Capstone – 3 credits
BEH 485 Behavioral Science Capstone
Total Credit Hours: 120

Bachelor of Arts in Behavioral Science – Minors

Minors for the BA in Behavioral Science all require 15 credits.

Students may elect to replace these five major courses with one of the minors that follow:

BEH 331 Human Relationships and Interpersonal Communication
COM 423 Group Dynamics: Teambuilding, Negotiation, and Conflict Management
CRB 320 Criminology
MGT 240 Organization Theory and Behavior
SOC 101 Introduction to Sociology

Accounting Minor

Course Requirements
Courses
ACC 202 Foundations of Accounting I
ACC 203 Foundations of Accounting II
ACC 304 Intermediate Accounting I
ACC 306 Intermediate Accounting II
ACC 313 Managerial Accounting and Decision Making

Total Credit Hours: 15

Business Minor

Course Requirements
Courses
MGT 240 Organization Theory and Behavior
MGT 252 Political, Legal, and Ethical Issues in Business
MGT 370 Operations Management
MKT 308 Marketing Management

Select one of the following courses:
FIN 317 Financial Management
INB 200 International Business

Total Credit Hours: 15

Human Resource Management Minor

Course Requirements
Courses
HRM 335 Human Resources Management
HRM 410 Staffing and Employment Practices
HRM 430 Employment Law
HRM 460 Labor and Management Relations
HRM 476 Performance Management and Compensation

Total Credit Hours: 15

Information Technology Minor

Course Requirements
Courses
IT 323 Systems Engineering Methodologies
IT 423 Software Engineering Methodologies
IT 439 Business Planning for IT Systems

Select one of the following courses:
IT 319 Computer Networking
IT 322 Database Management

Select one of the following courses:
IT 440 Project Planning and Execution
IT 470 Issues and Trends in Information Technology

Total Credit Hours: 15

General Studies Minor

Students may enroll in a General Studies Minor in the BA Behavioral Science program, for which they will elect five 300- or 400-level courses outside of the courses prescribed in the program.
Total Credit Hours: 15

Bachelor of Arts in Criminal Behavior

*West is not currently enrolling new students into this program.

The Bachelor of Arts in Criminal Behavior is designed to prepare students for success in a variety of professional settings ranging from law enforcement to social work. The program combines courses that focus on criminology, criminal investigation, juvenile justice, and addictions. By combining courses in criminal justice with courses in behavioral science, graduates will be prepared to focus on crime prevention techniques as well as the administration of justice and rehabilitation.

See complete program details for the Bachelor of Arts in Criminal Behavior.

Program Learning Outcomes

1. Apply principles of leadership and team facilitation in the direction and use of human resources to accomplish the goals of a modern criminal justice or social service organization.

2. Demonstrate a commitment to self-directed action, self-discipline, and life-long learning through examinations of criminal justice and social service career paths.

3. Demonstrate an awareness of ethical principles, codes, and standards of conduct within the criminal justice field and integrate ethical, legal, and economic accountability into professional criminal justice or social service practice.

4. Demonstrate basic skills in the application of research methods and statistical tools to criminal justice research and the application of findings to practice.

5. Demonstrate critical thinking strategies—including reasoning, problem solving, analysis, and evaluation—in criminal justice or social service settings.

6. Exhibit global thinking with a concurrent ability to act locally in an effective manner within criminal justice or social service organizational environments.

7. Explain the principles of a pluralistic society in a variety of settings as they uniquely apply to practitioners, victims, and offenders and show respect for the multicultural world.

8. Discuss and explain components of the contemporary criminal justice system inclusive of policing, courts, institutional and community corrections, victim advocacy organizations, and ancillary social service organizations that constitute the entirety of the criminal justice system.

Course Requirements

- General Education Core Requirements – 42 credits
- Elective Courses – 21 credits
- Common Body of Knowledge (CBK) – 15 credits
- Liberal Arts Core – 15 credits
- Major Requirements – 33 credits

Total Credit Hours: 126

Bachelor of Arts in Human Resource Management

Managers in all types of organizations must be able to think critically, plan strategically, communicate effectively, and act decisively in an ever-changing global marketplace that is driven by a constant focus on value-added differentiation. The BA Human Resource Management program provides students with a robust foundation in both general business and human resource knowledge. These core competencies are designed to provide future human resource practitioners with the perspectives, insights and tools necessary in developing and implementing effective human resource policies. Graduates will gain a deep understanding of how the human resources function can be integrated with other business capabilities to deliver superior value to customers within a global service-oriented context.
For complete program details, please visit our website at http://www.west.edu/online-degree-programs/human-resource-management-ba

Program Learning Outcomes

1. Analyze the competitive marketplace and core internal capabilities to identify areas of competitive advantage to support a long-term sustainable positioning in today's global, service-oriented environment.

2. Support business decisions with sound and defensible corporate and personal ethical policies.

3. Evaluate employee performance using psychology frameworks, research and data-driven analyses that fit organizational and individual growth objectives.

4. Identify the linkages between human resource policies and procedures and the fulfillment of customer needs.

5. Analyze key financial measures of success and evaluate their connections to human resource policies and procedures.

6. Design and implement a comprehensive corporate training and development plan consistent with corporate vision, structure, staffing, and employment practices.

7. Analyze corporate personnel practices and recommend appropriate enhancements to increase motivation and productivity.

8. Develop effective negotiations, mediation, and collective bargaining skills consistent with commonly accepted practices in employee relations and fair treatment.

9. Employ effective management practices consistent with federal and state requirements for employee rights/protections, compensation, benefits, and labor relations.

10. Analyze health and safety issues in the workplace and develop a plan for assuring and maintaining a hazard-free work environment.

Course Requirements

General Education Core Requirements – 51 credits

Elective Courses – 21 credits

Major Requirements – 45 credits

BEH 407 Motivation and Achievement

COM 423 Group Dynamics: Teambuilding, Negotiation, and Conflict Management

HRM 335 Human Resources Management

HRM 410 Staffing and Employment Practices

HRM 420 Health and Safety in the Workplace

HRM 430 Employment Law

HRM 460 Labor and Management Relations

Capstone – 3 credits

HRM 485 Human Resource Management Capstone

Total Credit Hours: 120

Bachelor of Arts in Legal Studies

*West is not currently enrolling new students into this program.

The Bachelor of Arts in Legal Studies degree program takes an interdisciplinary approach in building a basic foundation for students to understand the role of law, justice and governance and the impact it has on society. Students acquire knowledge on a variety of judicial, political, and economic systems as well as laws and policies that can be applied in multiple areas of government and business. Within the framework of a liberal arts education, the program also offers an international and historical perspective on legal issues which can provide a solid base for advanced study in the field of law.

See complete program details for the Bachelor of Arts in Legal Studies.

Program Learning Outcomes

1. Describe the application of law in a variety of business, governmental, and societal settings.

2. Conduct thorough legal research using a variety of sources.

3. Compare and contrast the United States' legal system with legal systems in other countries.

4. Identify commonly used alternatives to litigation.

5. Write a variety of legal memoranda.

6. Identify key points in history that contributed to the development of today's legal system.

7. Explain the relationship between law enforcement and the court system.

8. Outline the steps of a legal process (e.g., lawsuits, trials, etc.) from initiation to resolution.
9. Distinguish between constitutional law, criminal law, and civil law.

Course Requirements

Total Credit Hours: 126

Bachelor of Arts in Professional Communication

*West is not currently enrolling new students into this program.

The Bachelor of Arts in Professional Communication is designed to prepare students to communicate effectively in a variety of settings with a variety of individuals. Coursework promotes analysis, synthesis, evaluation of communication contexts, and application of strategies appropriate to specific audiences.

The major is designed to build knowledge of, and enhance skills in, communication. Students will study how differences in gender, culture, and relationship impact the communication process. Students will learn various methods and techniques of problem solving. Graduates of the program will be better prepared for professional success in fields including public relations, marketing, advertising, mass media, technical writing, government, law, and the arts; as well as personal success in their daily relationships.

See complete program details for the Bachelor of Arts in Professional Communication.

Program Learning Outcomes

1. Describe all elements of the communication process.
2. Evaluate the impact of modern technology on the communication process.
3. Develop and refine effective professional presentations.
4. Analyze the impact of communication in organizational settings.
5. Discuss the effective use of persuasion in communication.
6. Propose solutions to common communication problems.
7. Analyze historical and current communication for effectiveness and impact.
8. Discuss impact of gender, culture, and relationships on the communication process.
9. Identify important milestones and contributors to the field of communication research.
10. Propose new directions for communication research and analysis.
11. Apply effective communication strategies and techniques to improve relationships.

Bachelor of Science in Accounting

The Bachelor of Science degree in Accounting provides students with the knowledge and skills necessary to obtain a rewarding and challenging professional career in public, private, and non-profit accounting. The curriculum includes courses needed for professional certifications and to pursue graduate-level course work.

By exploring interrelated business topics, students develop the skills needed to overcome issues in today's demanding workplace. Students apply accounting principles to business transactions in order to prepare and interpret financial information for decision making by internal and external stakeholders. To enhance students' expertise, West offers courses in financial and managerial accounting, individual and business taxation, as well as internal and external auditing.

For more information about our on-time completion rates, the median loan debt incurred by students who completed their programs, and other important information, please visit our website at http://www.west.edu/online-degree-programs/accounting-bs

Program Learning Outcomes

1. Apply accounting concepts and principles to analyze and report business transactions.
2. Develop solutions to contemporary business issues using appropriate skills and techniques.
3. Interpret financial information using quantitative and qualitative methodologies.
4. Utilize technology tools effectively in the changing business environment.
5. Communicate professionally in business situations to support strategic decision making by internal and external stakeholders.
6. Demonstrate how ethical decision-making processes impact stakeholders and results.

Course Requirements

General Education Core Requirements – 51 credits
Elective Courses – 18 credits
Major Requirements – 48 credits

ACC 203  Foundations of Accounting II
ACC 304  Intermediate Accounting I
ACC 306  Intermediate Accounting II
ACC 313  Managerial Accounting and Decision Making

Capstone – 3 credits
ACC 485  Accounting Capstone

Total Credit Hours: 120

Bachelor of Science in Business

*West is not currently enrolling new students into this program.
The Bachelor of Science in Business program is designed for students who want to acquire a solid foundation in general business, but have not yet decided in which area of business to specialize, or for those who wish to individualize their program. Students have the option to combine general business studies with a distinctive and rigorous minor in a selected discipline. Minor courses provide excellent preparation for further graduate study. Students may choose 300- and 400-level courses (prerequisites must be met) in any discipline or combination of disciplines to fulfill 30 credits of major requirements.

Minor in Public Administration is offered to organizations that wish to provide site-based instruction to their employees. This program requires a minimum enrollment and is open only to employees of the sponsoring organization. See complete program details for the Bachelor of Science in Business.

Program Learning Outcomes

1. Systematically collect, analyze, and selectively use information from multiple business disciplines.
2. Apply logical reasoning and analysis to anticipate and recognize business problems and opportunities.
3. Make sound business decisions from among competing choices based on the selection of an optimal solution.
4. Analyze business decisions and make appropriate strategic adjustments.
5. Demonstrate techniques for successful project management.

Note: How students choose to complete their Major and/or Minor Requirements will determine additional Program Learning Outcomes specific to the course(s) of study chosen.

Students enrolled in the Bachelor of Science in Business program may elect to declare a minor by concentrating 15 upper division credits in one discipline. A maximum of two minors may be selected.

Students may make the declaration at any time prior to completion of 117 credits toward degree completion; however, they are encouraged to declare early in their programs and consult with a student advisor to ensure selection and availability of correct courses.

Minors need to be currently offered for new enrollment to be approved. Program requirements will be those in effect at the time of the declaration or, by petition, those in effect under the student’s original catalog. Any one course may count for credit toward only one minor, and the specific courses required for minors can be found in the Academic Program Requirements section of the catalog.

Course Requirements

General Education Requirements – 42 credits
Elective Courses – 21 credits
Common Body of Knowledge (CBK) – 15 credits
ECO 301 Economic Theory
INB 300 International Business
MGT 340 Organization Theory and Behavior
MGT 352 Political, Legal, and Ethical Issues in Business
RES 311 Quantitative Methods for Decision Making

Business Core – 15 credits
ACC 200 Introduction to Accounting and Finance
FIN 317 Financial Management
MGT 337 Supervision and Leadership
MGT 370 Operations Management
MKT 308 Marketing Management

Major Requirements – 33 credits

Students have the following three choices to complete 30 of the 33 Major Requirements credits:

1. Select 10 upper-division electives from ACC, COM, CRB, FIN, HRM, IT, LGS, MGT, or MKT and no more than 3 total courses from BEH or INS. OR
2. Select five upper-division elective courses (15 credits) from ACC, COM, CRB, FIN, HRM, IT, LGS, MGT, or MKT and no more than 3 total courses from BEH or INS AND declare one minor (15 credits) OR
3. Declare one or two minors (15 credits each). Minors carry specific requirements.

AND

Select one of the following courses for the remaining 3 credits:
CAP 485 Integrated Capstone
ITS 400 Undergraduate Internship

ITS 400: Internships are currently only available in Arizona.
Total Credit Hours: 126

Bachelor of Science in Business – Minors

West is not currently enrolling new students into minors within the BS Business program.

Minors for the BS in Business all require 15 credits.
Accounting Minor

The Bachelor of Science in Business Accounting Minor is designed to provide students with both a theoretical understanding, as well as hands-on learning opportunities. Intermediate courses focus on theory and techniques for preparing financial statements, as well as further study of corporate financial statements and GAAP and IFRS requirements. The student will also be exposed to cost accounting concepts and federal income taxation for individuals, partnerships and corporations.

Course Requirements

Courses
- ACC 304 Intermediate Accounting I
- ACC 306 Intermediate Accounting II
- ACC 316 Intermediate Accounting III
- ACC 311 Cost Management
- ACC 319 Federal Income Taxation

Program Learning Outcomes

1. Apply a broad base of professional accounting skills effectively in business.
2. Solve broad business problems by interpreting financial results.
3. Apply current knowledge of accounting trends to address emerging business issues.
4. Construct cost analyses for management for product pricing, cost management, profitability decisions, and control.
5. Use cost analyses for management for decision making and control purposes.
6. Apply tax regulations for individual, personal, and corporate tax compliance.
7. Maintain high ethical standards by utilizing Generally Accepted Accounting Principles (GAAP) and abiding by the American Institute of Certified Public Accountants (AICPA) and Institute of Management Accountants (IMA) ethical codes of conduct.
8. Balance corporate commitments to stakeholders and commitment to the community.

Total Credit Hours: 15

Business Communication Minor

The minor in Business Communication will provide a broad base of knowledge for students employed in a variety of business fields. In addition, students looking to change careers may find that, with enhanced skills in media use, presentation, business writing, and organizational communication, they may be more qualified for positions in advertising, training, public relations, and even the media.

Course Requirements

Courses
- COM 330 Communication Technology and Media
- COM 340 Business and Professional Communication
- COM 359 Advanced Presentation and Persuasion
- COM 440 Leadership and Managerial Communication
- COM 423 Group Dynamics: Teambuilding, Negotiation, and Conflict Management

Program Learning Outcomes

1. Describe all elements of the communication process.
2. Evaluate the impact of modern technology on the communication process.
3. Develop and refine effective professional presentations.
4. Analyze the impact of communication in organizational settings.
5. Discuss the effective use of persuasion in communication.
6. Propose solutions to common communication problems.
7. Propose new directions for communication research and analysis.
8. Apply effective communication strategies and techniques to improve relationships.

Total Credit Hours: 15

Criminal Behavior Minor

The Criminal Behavior minor is designed to provide the knowledge needed to be successful in a law enforcement or criminal justice environment. Courses in criminology, communication, juvenile justice and criminal investigation provide a foundation for anyone aspiring to a management position within a law enforcement, justice, or social services agency. In addition, a new foundation course provides a link between behavioral science and criminal justice principles.

Total Credit Hours: 15
Course Requirements

Courses
- CRB 300  Foundations of Criminal Behavior
- CRB 320  Criminology
- CRB 340  Juvenile Justice Procedure
- CRB 360  Communication in the Criminal Justice System
- CRB 370  Criminal Investigation

Program Learning Outcomes

1. Apply principles of leadership and team facilitation in the direction and use of human resources to accomplish the goals of a modern criminal justice or social service organization.
2. Demonstrate a commitment to self-directed action, self-discipline, and life-long learning through examinations of criminal justice and social service career paths.
3. Demonstrate an awareness of ethical principles, codes, and standards of conduct within the criminal justice field and integrate ethical, legal, and economic accountability into professional criminal justice or social service practice.
4. Demonstrate basic skills in the application of research methods and statistical tools to criminal justice research and the application of findings to practice.
5. Demonstrate critical thinking strategies—including reasoning, problem solving, analysis, and evaluation—in criminal justice or social service settings.
6. Demonstrate skill in the use and the application of current and emerging computer-based and related technologies in criminal justice or social service settings.
7. Exhibit global thinking with a concurrent ability to act locally in an effective manner within criminal justice or social service organizational environments.
8. Explain the principles of a pluralistic society in a variety of settings as they uniquely apply to practitioners, victims, and offenders and show respect for the multicultural world.
9. Discuss and explain components of the contemporary criminal justice system inclusive of policing, courts, institutional and community corrections, victim advocacy organizations, and ancillary social service organizations that constitute the entirety of the criminal justice system.

Total Credit Hours: 15

Finance Minor

Finance professionals are equipped to track and predict the flow of capital for individual entities as well as for national and global markets. The finance minor offers foundational skills needed for personal and professional investing. Students also learn about the workings of capital markets and various factors that influence the flow of capital.

Course Requirements

Courses
- FIN 325  Portfolio Management
- FIN 333  Personal Financial Planning
- FIN 344  Foundations of Financial Markets and Institutions
- FIN 455  International Finance
- FIN 480  Introductory Financial Modeling

Program Learning Outcomes

1. Analyze the profitability, liquidity, structural, and short-term and long-term decisions of a firm.
2. Evaluate high-quality decisions that incorporate comprehensive business intelligence to predict growth projections, and measure qualitative outcomes through financial models.
3. Determine how financial markets operate and how security prices are determined in the design and implementation of financing and investment decisions.
4. Consider the economic, social, and regulatory developments that influence the financial management environment.
5. Relate the linkages between the firm and capital markets, their institutions, and the ways in which they can intervene in the work of corporate executives.

Total Credit Hours: 15

Human Resource Management Minor

Human resource professionals are responsible for recruiting and cultivating talent to contribute to successful establishments. In the Human Resource Management minor, students gain a solid understanding of human resource processes and functions. Courses also explore contemporary human resource issues such as health and safety, and labor relations.

Course Requirements

Courses
- HRM 335  Human Resources Management
- HRM 410  Staffing and Employment Practices
- HRM 420  Health and Safety in the Workplace
HRM 430  Employment Law
HRM 460  Labor and Management Relations

**Program Learning Outcomes**

1. Analyze major concepts and issues that face human resource professionals in an ever-changing work environment.
2. Discuss the differences in hiring/staffing practices between public and private sector organizations.
3. Compare the OSHA requirements to those of an organization and identify any gaps that must be resolved to ensure a hazard-free work environment.
4. Discuss the differences between federal and state laws that could impact the fair treatment of employees.
5. Evaluate the principles necessary to achieve a successful negotiation or collective bargaining agreement.

Total Credit Hours: 15

**Informatics Minor**

The minor in Informatics is designed to introduce undergraduate business students to the role of IT in a successful business environment. Through exposure to the basic concepts of systems analysis, programming, project management, database design, and networking, students will be better equipped to work collaboratively with their organizations’ IT staff to tackle complex business intelligence issues. Furthermore, students who successfully complete the required coursework in the Informatics minor will have satisfied the majority of the undergraduate prerequisites needed to enroll in West’s MS ISE program at a later date.

**Course Requirements**

**Program Learning Outcomes**

1. Evaluate the use of technology to solve business opportunities and problems.
2. Develop a general IT competency.
3. Develop IT policies that have a positive impact on the organization’s bottom line.

Total Credit Hours: 15

**Legal Studies Minor**

The Legal Studies minor is designed to provide undergraduate business students with the basic knowledge that will help them understand the role of law in business and commerce. Courses focus on topics ranging from legal research and writing to civil law. Students whose jobs require them to conduct legal research or interface with corporate legal departments will find this minor to be of particular benefit to their success. Courses in the Legal Studies minor are interdisciplinary and build a basic foundation for students to understand the role of law, justice and governance and the impact it has on society, government and business. The knowledge gained in these courses can also provide a solid base for advanced study in the field of law.

**Program Learning Outcomes**

1. Describe the application of law in a variety of business, governmental, and societal settings.
2. Conduct thorough legal research using a variety of sources.
3. Compare and contrast the United States’ legal system with legal systems in other countries.
4. Identify commonly used alternatives to litigation.
5. Write a variety of legal memoranda.
6. Identify key points in history that contributed to the development of today’s legal system.
7. Explain the relationship between law enforcement and the court system.
8. Outline the steps of a legal process (e.g., lawsuits, trials, etc.) from initiation to resolution.
9. Distinguish between constitutional law, criminal law, and civil law.

Total Credit Hours: 15
Management Minor

The Management Minor is designed to prepare students for further graduate study. Students completing the minor are expected to demonstrate effective personal and professional communication skills, maximize creative thinking for organizational change management, innovation and process improvement, and demonstrate techniques for successful management of operations, process control, project management and quality initiatives.

Course Requirements

Courses

- COM 423 Group Dynamics: Teambuilding, Negotiation, and Conflict Management
- HRM 335 Human Resources Management
- Select three from the following seven courses:
  - HRM 460 Labor and Management Relations
  - MGT 429 Digital Business Strategies and Applications
  - MGT 445 Corporate Training and Development
  - MGT 452 Managerial Communication
  - MGT 461 Project Management
  - MGT 463 Management of Small Business
  - MGT 466 Organizational Change

Program Learning Outcomes

1. Incorporate effective personal and professional communication skills.
2. Maximize creative thinking for organizational change management, innovation, and process improvement.
3. Incorporate techniques for the successful management of operations, process controls, project management, and quality initiatives.
4. Evaluate the key management principles, issues, and trends that have major significance and impact on competitive strategy.
5. Employ essential human resource management functions to achieve desired business results.

Total Credit Hours: 15

Marketing Minor

The Marketing minor is an excellent choice: Marketers have the skills to select and satisfy profitable worldwide customers, set and sell strategic plans internally, and execute tactics externally to meet plan goals, with high expectations and ethical standards. Marketing becomes the company's engine for success and long term survival. New, sophisticated tools to succeed in and manage a global/computer-driven/Internet/social network business environment will be explored as student advance through the degree program.

Course Requirements

Courses

- Select five of the following courses:
  - MKT 415 Consumer Behavior Issues and Analysis
  - MKT 423 Business Development in a Digital Economy
  - MKT 434 Consumer Communications and Sales Management
  - MKT 452 International Marketing
  - MKT 454 Marketing Research and Intelligence
  - MKT 470 Strategic Issues in Marketing

Program Learning Outcomes

1. Create a marketing plan suitable for a company's goals, resources, and target market.
2. Analyze specific segments of the target market to determine key demographic and psychographic factors influencing buyer behavior.
3. Design effective advertising and other marketing messages for a variety of new and traditional media.
4. Plan and conduct effective quantitative and qualitative market research.
5. Evaluate relevant financial information to determine price points, marketing budgets, and other relevant metrics, including a break-even analysis.

Total Credit Hours: 15
Bachelor of Science in Business Administration

Managers in all types of organizations must be able to think critically, plan strategically, communicate effectively, and act decisively in an ever-changing global marketplace that is driven by a constant focus on value-added differentiation. They need to understand how the functional areas of a business must be coordinated to deliver superior value to their customers. In the BS Business Administration program, students gain competencies in each of the key functional areas of business in order to position them to approach organizational challenges and opportunities with deep skills and a holistic perspective. The program focuses on developing foundational skills and knowledge in all key management functions within a global service-oriented context.

For complete program details, please visit our website at http://west.edu/online-degree-programs/business-administration-bs.html

Program Learning Outcomes

1. Analyze the competitive marketplace and core internal capabilities to identify areas of competitive advantage to support a long-term sustainable positioning in today’s global, service-oriented environment.

2. Support business decisions with sound and defensible corporate and personal ethical policies.

3. Identify appropriate research methods that can be used to develop deeper understanding of a business’ markets, customers, and stakeholders.

4. Develop marketing solutions designed to meet current and future customer needs.

5. Analyze key financial measures of success and evaluate financial implications of strategic and tactical decisions for short- and long-term planning.

6. Develop a viable business plan for a new or existing venture that addresses internal and external drivers of success and obstacles to implementation.

7. Describe the interdependence of the functional areas and processes of an organization.

8. Isolate and categorize the skills needed for managing people and processes across a range of functional areas and cultural environments in competitive, global markets.

9. Assess the role of operations in the value creation and delivery processes.

10. Evaluate information systems required to support an effective enterprise and to drive competitive advantage.

Course Requirements

General Education Core Requirements – 51 credits

Elective Courses – 21 credits

Major Requirements – 45 credits

- FIN 317 Financial Management
- HRM 335 Human Resources Management
- INB 200 International Business
- IT 316 Analysis and Design of Information Systems
- MGT 240 Organization Theory and Behavior
- MGT 252 Political, Legal, and Ethical Issues in Business
- MGT 337 Supervision and Leadership
- MGT 370 Operations Management
- MGT 429 Digital Business Strategies and Applications
- MGT 452 Managerial Communication
- MGT 466 Organizational Change
- MGT 477 Entrepreneurship and Intrapreneurship
- MGT 481 Service Excellence
- MKT 308 Marketing Management
- MKT 476 Integrated Marketing Communications

Capstone – 3 credits

- BUS 485 Business Administration Capstone

Total Credit Hours: 120

Bachelor of Science in Informatics

*West is not currently enrolling new students into this program.

The Bachelor of Science in Informatics degree program provides a solid foundation for students who wish to pursue careers as information technology professionals or for those who desire a more concrete understanding of the integral ways in which technology impacts the business environment globally. Graduates are well prepared for entry-level positions in specialized areas such as systems analysts, business applications programming, business database design, decision support systems, networking technologies. They are also well prepared to advance from those positions.

The CBK component of the BSI program provides students with the knowledge of principles and practices required to achieve success in any of West’s degree programs. The Technology Core enables students to understand and integrate the basic components in the technology environment, while building the logic skills necessary for system development. The major requirements introduce the most current and relevant topics affecting technology usage in business.
See complete program details for the Bachelor of Science in Informatics.

Program Learning Outcomes
1. Analyze the role of the IT professional in a changing business environment.
2. Identify information technology challenges faced by decision makers in an industry undergoing change.
3. Evaluate the role that information technology undertakes to compensate changes in global demand.
4. Assess the value of information technology when addressing global, national, and local industry needs.
5. Examine the impact of IT policies on an organization's infrastructure.
6. Examine the financial impact of IT policies on the organization's bottom line.
7. Illustrate the growing role IT professionals have on an organization's decision structure.
8. Lead projects to implement IT tools and services that satisfy the needs of various organizational structures.
9. Conduct hands-on development and maintenance on computer programs using various programming languages.
10. Explain strategic IT initiatives used to obtain a competitive advantage in a global economy.
11. Organize data to enhance the retrieval and use of information when making organizational decisions.

Course Requirements
General Education Core Requirements – 42 credits
Elective Courses – 21 credits
Common Body of Knowledge (CBK) – 15 credits
ECO 301  Economic Theory
INB 300  International Business
MGT 340  Organization Theory and Behavior
MGT 352  Political, Legal, and Ethical Issues in Business
RES 311  Quantitative Methods for Decision Making
Technology Core – 15 credits
IT 316  Analysis and Design of Information Systems
IT 317  Fundamentals of Programming in a Web Context
IT 318  Information Systems Architecture
IT 319  Computer Networking
IT 440  Project Planning and Execution
Major Requirements – 33 credits
IT 307  Java Programming
IT 422  Database Systems
IT 431  Advanced Networking Concepts
IT 445  Security and Information Assurance
IT 450  Evaluation, Selection, and Implementation of Application Software
IT 519  Emerging and Disruptive Technologies
CAP 485  Integrated Capstone
Four Upper-Division Elective Courses:
IT 407  Advanced Java Programming
IT 423  Software Engineering Methodologies
IT 515  Mobile Application Design and Development
MGT 337  Supervision and Leadership
Total Credit Hours: 126

Bachelor of Science in Information Technology Management
The Bachelor of Science in Information Technology Management program provides a solid foundation for students who wish to pursue careers as information technology professionals. Curriculum encompasses domains such as networking, security, architecture, design, and web technologies, while offering principles of management and leadership. This program addresses how technology impacts the global business environment and prepares students to become IT professionals who use technology to meet business needs.

For complete program details, please visit our website at http://west.edu/online-degree-programs/information-technology-IT-management-bs.html

Program Learning Outcomes
1. Examine the role of technology and the IT professional in an organization.
2. Identify challenges and opportunities regarding information technology governance.
3. Determine the benefits of information technology in global, national, and local enterprises.
4. Examine the impact of IT policies and processes on an organization.
5. Analyze IT resources, trends, and external and internal services that satisfy the needs of an organization.
6. Assess the various development methodologies used to deploy and maintain organizational systems.

---

**Bachelor of Science in Management**

Managers in all types of organizations must be able to think critically, plan strategically, communicate effectively, and act decisively in an ever-changing global marketplace that is driven by a constant focus on value-added differentiation. They need to understand how the functional areas of a business must be coordinated to deliver superior value to their customers. In the BS Management program, students build upon the broad business core with a strong foundation in management theory and practice. This degree can also be customized so that students can combine their management focus with a minor in one of West’s other programs (Accounting, Behavioral Science, Human Resource Management, Information Systems, or Public Administration) or by selecting a deeper concentration in management. With these options students can build management expertise and functional knowledge for general or specialized careers within a global service-oriented context.

For complete program details, please visit our website at http://west.edu/online-degree-programs/management-bs.html

**Program Learning Outcomes**

1. Analyze the competitive marketplace and core internal capabilities to identify areas of competitive advantage to support a long-term sustainable positioning in today’s global, service-oriented environment.
2. Support business decisions with sound and defensible corporate and personal ethical policies.
3. Identify appropriate research methods that can be used to develop deeper understanding of a business’ markets, customers, and stakeholders.
4. Develop marketing solutions designed to meet current and future customer needs.
5. Analyze key financial measures of success and evaluate financial implications of strategic and tactical decisions for short- and long-term planning.
6. Develop a viable business plan for a new or existing venture that addresses internal and external drivers of success and obstacles to implementation.
7. Apply sound principles of human and organizational behavior to lead people, manage processes and inspire innovation.
8. Evaluate the impact of global environmental and cultural factors on organizational policies, strategies, and operations.
9. Utilize optimal employee training, development, and evaluation tools.
10. Incorporate technological advances in the development and implementation of organizational strategies.

Bachelor of Science in Management – Minors

Minors for the BS in Management all require 15 credits.

Students may elect to replace these five major courses with one of the minors that follow:

- COM 423  Group Dynamics: Teambuilding, Negotiation, and Conflict Management
- HRM 460  Labor and Management Relations
- MGT 445  Corporate Training and Development
- MGT 477  Entrepreneurship and Intrapreneurship
- MGT 481  Service Excellence

Accounting Minor

Course Requirements

Courses
ACC 202  Foundations of Accounting I
ACC 203  Foundations of Accounting II
ACC 304  Intermediate Accounting I
ACC 306  Intermediate Accounting II
ACC 313  Managerial Accounting and Decision Making

Total Credit Hours: 15

Behavioral Science Minor

Course Requirements

Courses
BEH 311  Social Psychology
BEH 317  Biological Basis of Behavior
BEH 411  Lifespan Development
BEH 440  Abnormal Psychology

Select one of the following courses:
BEH 319  Industrial Organizational Psychology
RES 321  Behavioral Research Design, Tests, and Measurement

Total Credit Hours: 15

Information Technology Minor

Course Requirements

Courses
IT 323  Systems Engineering Methodologies
IT 423  Software Engineering Methodologies
IT 439  Business Planning for IT Systems

Select one of the following courses:
IT 319  Computer Networking
IT 322  Database Management

Select one of the following courses:
IT 440  Project Planning and Execution
IT 470  Issues and Trends in Information Technology

Total Credit Hours: 15

General Studies Minor

Students may enroll in a General Studies Minor in the BS Management program, for which they will elect five 300- or 400-level courses outside of the courses prescribed in the program.

Total Credit Hours: 15

Undergraduate Certificates

Enrollment Process:

Applicants for admission into the Certificate program must:

1. Complete and sign West Application for Admission form
2. Provide documentation of eligibility for enrollment in selected program

Accountancy Certificate

* West is not currently enrolling new students into this program.

The West Accountancy Certificate is designed to prepare students from any discipline for the CPA exam. Students who wish to take the CPA examination should check with their State Board of Accountancy to verify requirements. However, the certificate is also a valuable professional credential for students who do not wish to take the CPA exam. The West Accountancy Certificate requires 54 credits in accounting and related areas. Students may transfer any or all prerequisites as well as a maximum of 24 credits in accounting and related course requirements for the West Accountancy Certificate.

See complete program details for the Accountancy Certificate (p. 20).
Course Requirements
Certificate Program Prerequisites:
MAT 109 Business Mathematics
OR
MAT 110 Algebra I
AND
ECO 301 Economic Theory
RES 311 Quantitative Methods for Decision Making

MKT 308 Marketing Management
MKT 415 Consumer Behavior Issues and Analysis
MKT 423 Business Development in a Digital Economy
MKT 434 Consumer Communications and Sales Management
MKT 452 International Marketing
MKT 470 Strategic Issues in Marketing

Core Requirements
All new and reentry graduate students must complete or transfer in CUL 623, BUS 620, and RES 600.

Major Requirements
Students must achieve a cumulative grade point average of at least 3.0 for all graduate work at West. The University reserves the right to make course substitutions.

Master of Arts in Human Dynamics
The Master of Arts in Human Dynamics provides students with an education essential for creating, evaluating, and implementing change effectively within organizations. Students will receive a broad educational foundation, containing knowledge and theory from human resources and the social sciences, which prepares them to critically analyze the structure and behavior of organizations. Areas of focus include interpersonal communication, leadership skills, organizational culture, human dynamics, and organizational behavior. This program is designed to provide students with skills and knowledge that can be applied in a variety of professional settings and leadership roles. Graduates will be better prepared to propose and implement structural and personnel changes that will enhance the effectiveness of a wide range of organization types.

For complete program details, please visit our website at http://west.edu/online-degree-programs/human-dynamics-ma.html

Program Learning Outcomes
1. Design effective structures and processes that optimize the impact of the social systems of an organization on its ability to meet its mission and objectives.
2. Create and implement strategies to enhance organizational efficiency and promote market-driven change.
3. Develop systems that align employee selection, engagement and retention policies with the organizational mission.
4. Demonstrate effective interpersonal communication skills including group facilitation, negotiation, and other relational strategies.
5. Demonstrate understanding of diversity in the workplace and its effect on organizational behavior, including expatriation and culture, gender and gender-role issues, and how individual differences affect leadership and group processes.
6. Establish and monitor corporate ethical policies that support business decisions, reflect high personal standards of behavior, and recognize the organization’s social responsibility.
7. Promote policies and procedures that foster a positive organizational climate that is characterized by an environment of personal and organizational growth, diversity, and innovation.

Master of Arts in Innovative Leadership

The Master of Arts in Innovative Leadership offers graduate students the opportunity to assess and develop their leadership skills for use in a changing, diverse workplace. The program emphasizes the impact of leadership and organizational climate and culture on organizational productivity. Students study stakeholder groups within organizational and societal cultures. Communication and leadership styles are analyzed and practiced as strategies for motivating, mentoring, and coaching organizational members. Coursework highlights skills related to team development and motivation within organizations and provides communication strategies associated with negotiation and conflict resolution. Students study the impact of global contexts and marketplaces with specific focus on transnational and cross-border organizations.

For complete details, please visit our website at http://www.west.edu/online-degree-programs/innovative-leadership-ma

Program Learning Outcomes

1. Evaluate the impact of organizational change on an organization in a fast-changing environment.

2. Apply and practice those leadership skills that influence others to perform ethically at a high level through motivational strategies, mentoring, and coaching.

3. Apply the various leadership styles to different business environments and analyze the nature of power sources that affect leadership behavior in those contexts.

4. Synthesize the strategies needed to create an adaptable organization with an emphasis on transnational and cross-border collaboration.

5. Analyze the challenges in leadership related to the global marketplace with a focus on technological innovations.

6. Evaluate leadership in relation to organizational climate and culture and its impact on organizational productivity.

7. Apply and practice leadership strategies related to negotiation and conflict resolution in culturally diverse contexts.

Master of Business Administration Degrees

Master of Business Administration

Leaders in all types of organizations must be able to think critically, plan strategically, communicate effectively, and act decisively in an ever-changing global marketplace, focused on value-added differentiation. The Master of Business Administration (MBA) program prepares graduates to excel in such fast-paced, challenging environments, equipped with the insight, foresight, and tools required to become successful, innovative, and inspirational business leaders. This unique degree offers students the opportunity to customize their learning experiences by selecting courses for their majors based on specific areas of expertise and career interests. The degree combines the solid foundation of the MBA Managerial Core with electives that can be drawn from a wide range of university graduate courses that enable the development of skills valued within a global service-oriented marketplace.

For complete program details, please visit our website at http://www.west.edu/online-degree-programs/mba

Program Learning Outcomes

1. Formulate, conduct, and interpret research that fosters a broad and deep understanding of markets, customers, competitors, and stakeholders.
2. Employ quantitative and qualitative analytical tools and methods to select and support strategic decisions in an organization.
3. Establish and monitor corporate ethical policies that support business decisions, reflect high personal standards of behavior, and recognize the organization’s social and environmental responsibility.
4. Design, communicate, and deliver market-driven strategies through attention to customer needs and the customer experience.
5. Analyze key financial measures of efficiency and success and evaluate the financial implications of strategic and tactical decisions for short- and long-term planning.
6. Formulate information systems to support an effective enterprise and to drive competitive advantage.
7. Develop a viable business plan for a new or existing venture that addresses internal and external drivers of success from ideation through implementation.
8. Assess the interdependencies of an organization’s functional components and management structure in order to identify the requirements for adoption of a holistic perspective.
9. Revise strategies and tactics to incorporate national and global economic and political events that impact an organization and its markets.
10. Employ effective communication skills that enable persuasive articulation and defense of business ideas.

Master of Business Administration in Accounting

Business professionals need a broad range of skills for advanced managerial positions while also demonstrating expertise in specialized roles. This MBA program with an accounting concentration offers accounting professionals the opportunity to develop and practice advanced management and decision-making skills while focusing on in-depth topics and current developments in the accounting profession. Although students in the program would greatly benefit from having an undergraduate degree in a business discipline, it is not required.
Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. The Certified Management Accountant (CMA) certification requires membership in the Institute of Management Accountants (IMA) as well as education, work experience, and examination requirements. While the programs at Western International University (West) are designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA) and the American Institute of Certified Public Accountants (AICPA) and the IMA, West cannot assure that successful graduates will meet their states’ or IMA’s specific eligibility requirements to take the CPA or CMA exams or apply for licensure or certification as a CPA or CMA. Applicants should check with their appropriate state organization and/or the IMA to determine if the West program, combined with their undergraduate degree, work experience, and any other specific criteria, meets examination and licensing eligibility requirements for the CPA and/or CMA designations.

State and/or IMA requirements may vary from the time of admission to program completion. There is no assurance at the time of program completion that the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.

For complete program details, please visit our website at http://www.west.edu/online-degree-programs/accounting-mba

Program Learning Outcomes
1. Develop an understanding of accounting and business environment terms and concepts.
2. Utilize professional tools used in accounting, audit, and tax for research and application.
3. Evaluate a set of facts and circumstances through professional judgment to develop business solutions.

Master of Business Administration in Finance

*West is not currently enrolling new students into this program.

Financial analysis and decision-making is central to the corporate environment. Because business conditions continue to be unpredictable, there will be a greater need for highly educated yet practical financial managers. The MBA in Finance is designed to provide a quantitative and qualitative concentration of courses leading to a corporate-related finance position.

See complete program details for the Master of Business Administration in Finance.

Program Learning Outcomes
1. Analyze the profitability, liquidity, structural, and short-term and long-term decisions of a firm.
2. Integrate knowledge of the institutional structure and analytical tools to understand the financial innovation that will occur in the future and affect the financial management environment.
3. Develop global finance tools that are necessary to maintain a corporate perspective of the international business environment and the financial management of a multinational corporation.
4. Assess the technological advances resulting in new financial products, delivery systems, and access to information for improved financial decision making.
5. Evaluate high-quality decisions that incorporate comprehensive business intelligence to predict growth projections, and measure qualitative outcomes through financial models.
6. Critique complex financial analyses to clarify ethical conflicts and assist in determining ethical outcomes.
7. Determine how financial markets operate and security prices are determined in the design and implementation of financing and investment decisions.

8. Interpret the wrenching changes in the worldwide financial services marketplace as competition between financial institutions continues to intensify.

9. Consider the economic, social, and regulatory developments that influence the financial management environment.

10. Relate the linkages between the firm and capital markets, their institutions, and the ways in which they can intervene in the work of corporate executives.

Master of Public Administration Degree

Master of Public Administration
The Master of Public Administration (MPA) program at West furnishes students with the knowledge and skills needed to exercise responsible and ethical leadership in public service settings. West’s program marries theory and application, affording the student with relevant knowledge, practical skills, best practices, and the professional values employed by leaders and managers to implement policies, projects, and programs that resolve important societal problems. Graduates of the West MPA program are equipped to work in all levels of government (federal, state, local, and tribal), in nonprofits, in international organizations, consulting firms, research, advocacy groups, and in the private sector.

For complete program details, please visit our website at http://west.edu/online-degree-programs/public-administration-mpa

Program Learning Outcomes
1. Demonstrate professional behaviors and skills that apply a public service perspective to communication, leadership, and decision-making.
2. Develop effective approaches to lead and manage diverse public and nonprofit organizations.
3. Evaluate the differences and/or similarities that distinguish organizations in the public, nonprofit, and private sectors.
4. Evaluate solutions to address the uncertainty of financial resources in diverse public and nonprofit organizations.
5. Analyze the social, political, economic, and cultural factors that influence US public budgeting and financial administration in diverse public and nonprofit organizations.
6. Analyze the process of public policy implementation in the changing context of public administration.
7. Evaluate the impact of legal requirements and ethics on public governance and the public policy process in diverse public and nonprofit organizations.
8. Utilize an effective procurement system based on ethical and legal parameters to manage performance and resources.

Course Requirements
MPA Core Requirements – 24 credits
CUL 623      Global Communication for Professionals
BUS 620      Ethical Leadership and Corporate Responsibility
Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. The Certified Management Accountant (CMA) certification requires membership in the Institute of Management Accountants (IMA) as well as education, work experience, and examination requirements. While the programs at Western International University (West) are designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA) and the American Institute of Certified Public Accountants (AICPA) and the IMA, West cannot assure that successful graduates will meet their states’ or IMA’s specific eligibility requirements to take the CPA or CMA exams or apply for licensure or certification as a CPA or CMA. Applicants should check with their appropriate state organization and/or the IMA to determine if the West program, combined with their undergraduate degree, work experience, and any other specific criteria, meets examination and licensing eligibility requirements for the CPA and/or CMA designations. State and/or IMA requirements may vary from the time of admission to program completion. There is no assurance at the time of program completion that the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.

This program is designed for the student with few or no undergraduate credits in accounting. Although students in the MS in Accounting program would greatly benefit from having an undergraduate degree in a business discipline, it is not required.

Master of Science in Information Systems Engineering

*West is not currently enrolling new students into this program.

Preparing students for leadership roles in design, development and implementation of information systems, the Master of Science in Information Systems Engineering (MS ISE) degree focuses on the theory, methods and practices of building effective systems. Prior to beginning the MS ISE, students must demonstrate fundamental knowledge of information technology principles, either through a technical baccalaureate degree or through successful completion of the undergraduate prerequisites. The MS ISE major extends students’ knowledge from the core courses through topics specifically related to engineering and building information systems.

See complete program details for the Master of Science in Information Systems Engineering.

Program Learning Outcomes
1. Evaluate the role of the information systems professional in an information-driven society.
2. Create appropriate solutions to management issues within an industry that is continually redesigned.

3. Organize team and partner relationships that effectively meet the enterprise’s mission, objectives, and goals.

4. Develop and implement new and innovative technologies to meet the expanding demands of the global marketplace.

5. Measure the effectiveness of diverse technologies in meeting individual and organizational needs.

6. Appraise the value of technology within the context of global, national, and local realities.

7. Evaluate the role of malicious technology in the current organizational environment.

8. Evaluate the role of enabling technology in the current organizational environment.

9. Evaluate the use of technology to solve business opportunities and problems.

10. Introduce advanced technology into the technology and business environments.
